rescued us.

Cindy Jackson artist about me...

I've been an artist all of my life and love **COLOR!** Growing up in Minnesota I won an elementary art contest, drew ads for my dad's work & always doodled. I did take drawing/cartooning classes in college. A family business allowed me grow an ad/art department to the point of selling the business and being able to be a full-time artist. After traveling the U.S. exhibiting at various shows such as Chicago One-of-a-Kind Art Show, NYC Licensing Show, NYC Stationery Show, Twin Cities Wine Experience and more the traveling bug bit me and I accepted a position as a flight attendant and saw the world for 12 years until this year when Co-vid hit. It changed the WORLD. I don't have to tell anyone that. Taking the early retirement package offer allows me to now focus on illustrating full-time and licensing my designs with my art agent, Art Licensing Portfolio. Designing on my iPad Pro is a joy; the technology is amazing and painting with acrylics on canvas is too (I love the mess.) I create art because I love the research, the process and it just takes me away.

Years ago my Dad told me he used to play pool in St Paul with my favorite cartoonist, Charles Schultz. This was long after I had finished college & took Cartooning 101 & I said, "Why didn't you tell me you used to play pool with THE Charles Schultz before!" He just said "Oh yeah, Sparky, nice guy!" I still love "Charlie Brown Christmas".

Then I had Peter Max on my airplane once and he drew a picture and signed it for me. That was exciting! There's so much to learn and I can't wait each day to learn more.

I live in Minneapolis, MN area & I enjoy spending time with my husband, 2 grown kids, 2 grandkids & 3 granddogs.

This presentation is my Positive Plans portfolio about Traveling to London and Paris. I can't wait to travel again to new places too. Just thinking (and illustrating) about it keeps my hopes up and others too (hopefully). You gotta have hope!

Please check out my website at cindyjacksonart.com or my Instagram at @abstractionjackson. I have lots of art there too.

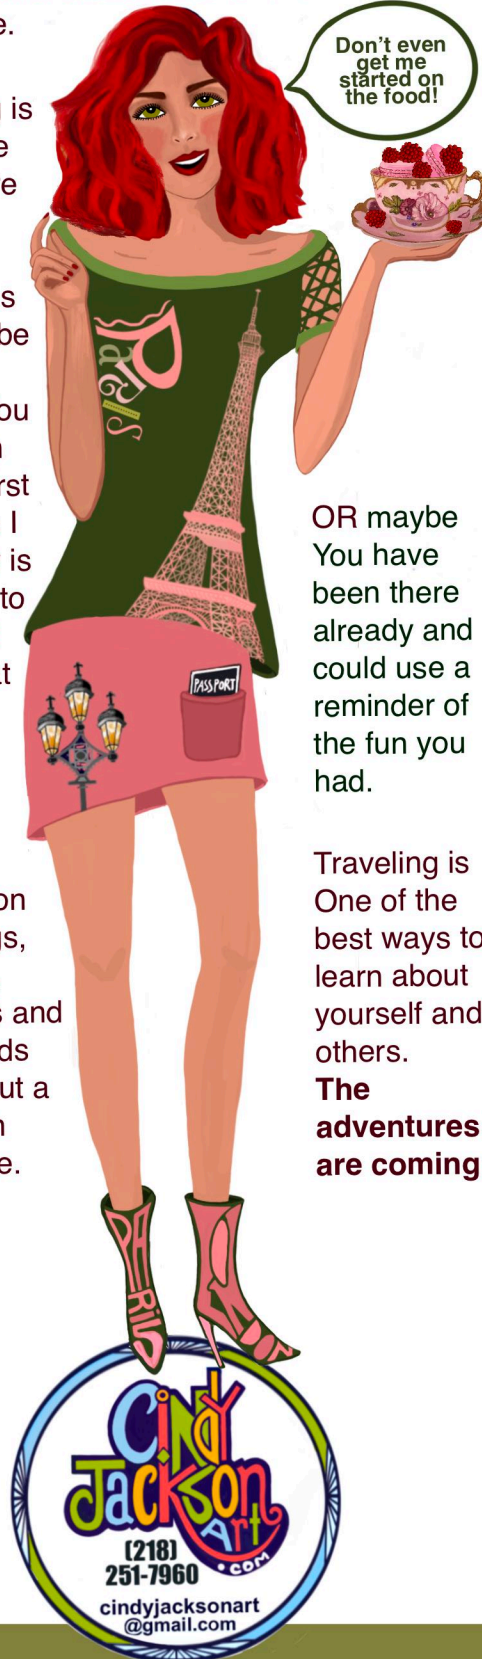

Positive Plans

Join me in making positive plans to travel to fun & beautiful places like London or Paris. My collection of Lovely in London and Posh in Paris, Picturesque in Paris and Landmarks of London convey that for you. The beautiful architecture and sites are awesome.

The shopping is incredible too. There are not enough adjectives to describe these places. You will fall in love at first sight like I did. Now is the time to plan and hope that you can take a trip soon. These images on Tote bags, journals, planners and note cards Would put a Smile on your face.

OR maybe You have been there already and could use a reminder of the fun you had.

Traveling is One of the best ways to learn about yourself and others. **The adventures are coming!**
