

FATALITY REVIEW TEAMS

LIFE STORY CONVERSATION

Fatality Review Teams are dedicated to:

Examining deaths within a
community

Identifying risk factors, gaps in
systems, and missed
opportunities for prevention

Recommending programs or
policies to prevent future deaths

Optimizing community
partnerships and shared
accountability with
confidentiality, respect, and a
non-judgmental approach

Learn from yesterday,
live for today,
hope for tomorrow.

-Albert Einstein-

Be part of the solution and share
your loved one's story

Understanding a Life Story Conversation

A Life Story Conversation involves a family member or close friend of a deceased individual sharing details about that person's life journey. The topics typically covered include:

- Childhood History
- Education History
- Health History and Access to Health Care
- Life Stressors
- Mental Health History
- Criminal Justice History
- Personal Experiences
- Recommendations

How You Can Help!

By participating in a Life Story Conversation, you can provide the Fatality Review Team insight into your loved one's life and experiences.

Every person's story can highlight important issues or social challenges. By sharing their story, you can raise awareness of challenges and promote understanding and more importantly, change.

Fatality Review Teams are NOT:

- About assigning blame
- Judgmental
- Public record
- A criminal investigation

Learning from the past to save lives in the future.
