

Pneumonia

Pneumonia is a lung infection that has a variety of causes, including: bacteria, viruses, fungi and parasites. Some forms of pneumonia are contagious and can be spread from person to person. No matter the cause, symptoms of pneumonia are often similar and are listed below.

If you or a family member are experiencing symptoms of pneumonia, contact your healthcare provider.

Symptoms

Fever

Fatigue

Shortness of Breath

Cough

Chest Pain

Confusion

If you are seeing more pneumonia cases than usual in your school or facility, we encourage you to contact the Allen County Department of Health's Infectious Disease and Case Management Team at 260-449-8983 or laura.weaver@allencounty.us for guidance about this disease. We are here to help!
