INVITATION TO BID – cont'd

The content of the specifications or descriptions of items included in this document vary due to application, compatibility, use and other significant factors. A few items state a specific model and manufacturer with the requirement of “No Substitute”, therefore, the City will not consider any other product for award. Other items may list a model and manufacturer as a point of reference to quality, style or other factors. **Any bid for an item other than that specifically referenced must be accompanied by catalogs, brochures, and/or specification sheets which will adequately demonstrate the item bid is equal to that specified. For items with general descriptions only and no model or manufacturer referenced, the bidder is to provide brochures or specification sheets with the bid which will describe the item in detail as to materials, construction, style, etc.** The City may require samples of any product before an award is made. Any samples requested must be made available to the City within seventy-two (72) hours of request. Failure to provide the samples within this time frame will result in the rejection of the products from award consideration. Said samples will be a factor in evaluation of bids.

Bidders are to supply all requested data in the appropriate space on the bid form. Failure to supply this data may result in the rejection of bid.

All participant bidders shall mark conspicuously - **compliance or non-compliance with an “X”** in the appropriate column beside each specified item. Those items marked in the “NO” column must be explained in detail on the provided “**Exceptions to Specifications**” pages.

Should other medical supply items currently not shown on the bid form be required during the life of the contract, the City reserves the right to seek verbal bids from only the responsive respondents of this Invitation to Bid, and to make an award of these additional items to the lowest responsive, responsible bidder(s) for the remaining life of this contract.

Bids may be solicited for the products included in this contract where an immediate/emergency need exists, including large quantities. The decision of the Purchasing Agent as to what constitutes a biddable situation shall be final and shall not be construed as a breach of contract.
