The quantities indicated on the Bid Form are strictly estimates for evaluation purposes only and the City shall be under no obligation of any type to purchase any specific quantity of any item. Annual purchases may vary widely, either up or down as conditions dictate.

The successful bidder(s) shall be responsible for the pick-up and delivery expense, personnel, trucks, etc. for any and all repairs or replacements. The City reserves the right to inspect any potential vendor's equipment, inventories, personnel, locations, etc., to verify that the potential vendor has the ability to properly service the City's requirements.

This City shall accept bids based upon the list prices shown in the NAGS calculator price sheet dated January 2021. Use NAGS January 2021 catalog only.

Use of specific brand names and numbers is not intended to restrict the bidding of any seller and/or manufacturer, but it is solely for the purpose of indicating the type, size and quality of materials, products, service, or other equipment considered best adapted to the City's intended use. All materials are to be new: no used, remanufactured or refurbished materials will be considered acceptable.

Windshield:

The maximum completion time for non-standard/common vehicles shall be five (5) days. The definition of non-standard/common vehicles shall be auto of eight (8) or more years old or autos less than one (1) year old, odd truck applications and any or all specialized heavy equipment. Consistent failure by a successful vendor to meet this response time requirement will constitute grounds for the termination of the contract and the declaration of the vendor as a "non-responsible vendor". This declaration may result in the rejection of any future bids submitted by the vendor for a period of time to be determined by the City.

Each bidder is to include with the submitted bid a copy of the glass manufacturer's product warranty concerning materials and workmanship and any limitations that apply. Bidder is to also include a copy of his/her warranty that applies to the installation of all vehicle glass. These warranties will be a consideration of award.

All automotive glass supplied under this contract is to be of first line quality and meet all applicable Federal safety standards and various agency construction standards. All glass supplied is to meet the original equipment manufacturer's specifications for the applicable vehicle application.

The City shall award this contract based on the lowest total cost for glass, kits, and labor as shown on the bid form. All discount rates stated on the bid form are to be from the list prices shown in the NAGS January 2021 calculator, a copy of which is to be included with each bid submitted. The NAGS January 2021 calculator price sheet will be used for the entire initial twelve (12) month contract period. No updated or more current price list may be substituted at any time during the life of the contract. During the extension phase of the contract the successful bidder may substitute a more current NAGS calculator price sheet with a thirty (30) day written notice to the City. A copy of the new NAGS calculator must also be included with any written notice of intent to substitute price sheets. The installation costs quoted will remain firm for the life of the contract.

Due to the impracticality of listing each and every glass application, all bidders shall quote this bid invitation with written assurance to the City that any and all glass applications not shown on the Bid Form shall be furnished at the same rate of discount as shown on the glass applications so quoted. Bidders are to indicate in spaces provided on the Bid Form, any discount from the NAGS January 2021 price calculator that will apply to all glass within that type. These discounts will be a consideration of the award. The NAGS January 2021 price calculator, combined with any stated discounts, will be used to determine the City's price for any and all glass not shown on the Bid Form. **Discount rate is to be a fixed, flat rate for each type glass specified. Do not quote discount ranges for a glass type (ex: Windshields, 30-50%).**

The City also retains the option, at its choosing, of delivering any vehicle to the successful vendor's local physical facility for the purpose of having the work performed there in order to expedite the repairs. For this reason, the vendor must maintain a physical repair facility adequately staffed with trained installation personnel and be available for utilization Monday through Friday between the hours of 8:00 a.m. and 4:00 p.m. The City reserves the right to inspect any potential vendor's equipment, inventories, personnel, locations, etc., to verify that the potential vendor has the ability to properly service the City's requirements.

The maximum response time to any request for repairs shall be no greater than twenty-four (24) hours for all standard/common vehicles. The maximum completion time for non-standard/common vehicles shall be five (5) days. The definition of non-standard/common vehicles shall be auto of eight (8) or more years old or autos less than one (1) year old, odd truck applications and any or all specialized heavy equipment. Consistent failure by a successful vendor to meet this response time requirement will constitute grounds for the termination of the contract and the declaration of the vendor as a "non-responsible vendor". This declaration may result in the rejection of any future bids submitted by the vendor for a period of time to be determined by the City.

Each bidder is to include with the submitted bid a copy of the glass manufacturer's product warranty concerning materials and workmanship and any limitations that apply. Bidder is to also include a copy of his/her warranty that applies to the installation of all vehicle glass. These warranties will be a consideration of award.

All automotive glass supplied under this contract is to be of first line quality and meet all applicable Federal safety standards and various agency construction standards. All glass supplied is to meet the original equipment manufacturer's specifications for the applicable vehicle application.

GROUP TWO: AUTOMOTIVE GLASS (TINTING)

In Alabama, front windshield tint is permitted along the top six inches of the glass. Alabama windshield tint must be non-reflective. This regulation applies to all vehicles including cars, trucks and SUV's. In Alabama car window tint on the side windows and rear windshield (both front and rear side windows) may have a Visible Light Transmission (VLT) percentage of 32% or higher, meaning at least 32% of visible light must be able to pass through the tinted window. The lower the number, the darker the tint, so a VLT is almost transparent, while 5% VLT appears almost black and opaque. Vans and SUV's in Alabama must also limit front side window tint to 32% VLT or lighter but on rear windows and the rear windshield laws are much looser. Very dark rear window tint can provide excellent privacy and security, to make clients comfortable while in transportation vehicles.

As for reflection, which can reduce the glare of sunlight by day and oncoming headlights at night, thus making driving safer, windows must not be more than 20% reflective under Alabama window film rules. (Reflective window film can also reduce interior cabin temperatures, meaning less use of A/C and a more comfortable driver experience, and it may pay for its own installation cost in reduced fuel consumption thanks to this temperature reduction.)

Do note that obstructed windows can be illegal in Alabama, and if a window tint becomes bubbled, cracked, hazy or otherwise damaged in such a way that it reduces clarity or view through a window it may fall out of regulation.

The film used to tint windows must be certified. No tint colors will be permitted. Only black.

Various types of window tint film exist. The City prefers 20% Carbon Flex Film.
