The City reserves the right to inspect any potential vendor's equipment, inventories, personnel, locations, etc., to verify that the potential vendor has the ability to properly service the City's requirements.

The maximum response time to any request for repairs shall be no greater than twenty-four (24) hours for all standard/common vehicles. The maximum completion time for non-standard/common vehicles shall be five (5) days. The definition of non-standard/common vehicles shall be auto of eight (8) or more years old or autos less than one (1) year old, odd truck applications and any or all specialized heavy equipment. Consistent failure by a successful vendor to meet this response time requirement will constitute grounds for the termination of the contract and the declaration of the vendor as a "non-responsible vendor". This declaration may result in the rejection of any future bids submitted by the vendor for a period of time to be determined by the city.

The City has limited storage facilities so timely pick-up and delivery shall be a consideration. The successful bidder(s) shall guarantee pick-up and delivery within the time frames stated within these specifications.

GROUP ONE: NEW RADIATORS

Group One (1) is open to any supplier of new auto and truck radiator assemblies meeting the local requirement. All radiators supplied to the city are to be new and of first line quality. Only radiators manufactured by a reputable company whose prime business is the manufacturing of radiator assemblies will be considered. All radiators are to meet OEM requirements as to design, style, and capacities for all applications. All new radiators supplied are to carry a minimum of one (1) year warranty against failure due to workmanship or materials. **Bidders are to include the manufacturer's statement of warranty with the bid.**

Each bidder shall furnish complete price sheets from the manufacturer of any radiators the bidder proposes to furnish with the submitted bid. This price list must show current price, applications, etc., including effective dates. All new radiators quoted shall be quoted at the printed price sheet price less any percentage of discounts being offered. The level or amount of discounts shall be the same for any and all radiators the City may require during the life of the contract.

Due to the impracticality of listing each and every new radiator the City could require during the life of the contract, all bidders shall quote this bid invitation with written assurance to the City that any and all radiators not shown on the Bid Form shall be furnished at the same rates of discount so indicated by the bidder on the Bid Form. Warranties, price protection, etc., shall be the same as for radiators so shown on the Bid Form.

The successful bidder will be required to furnish the city with copies of the manufacturer's application catalogs, cross reference catalogs, etc. on an "as needed" basis and/or each time new catalogs are published.

Any and all repair work performed under this contract shall be unconditionally warranted 100% for a minimum of ninety (90) days from the date of installation in vehicle rather than date repair work was performed. GENERAL SPECIFICATIONS cont'd

GROUP THREE: RADIATOR RE-CORING

Only bidders whose primary business is the repair and re-coring of radiators will be eligible for contiguous consideration of award in Group Three (3). The re-coring contract shall have all the requirements of price stabilities, pick-up and delivery service, etc. heretofore mentioned in the radiator repair section. All radiator cores supplied under this contract are to meet OEM requirements as to design, style and capacity. The normal time allocated for the re-coring of common and readily available standard application radiators shall be forty-eight (48) hours. For heavy construction equipment and non-standard type radiators, the vendor shall have five (5) working days maximum for re-coring. Consistent failure to meet the response time will result in the cancellation of this contract and the declaration of the bidder as a "non-responsible vendor", which will result in the rejection of any future bids submitted by the vendor.

Each bidder, when quoting shall furnish complete price sheets from the manufacturer of any radiator cores the bidder proposes to furnish. This price list must show current price, applications, etc., including effective dates. All new radiator cores quoted shall be quoted at the submitted price sheet price, less any percentage of discount being offered. The level or amount of discount shall be the same for any and all cores the City may require during the life of the contract.

Form shall be furnished at the same rate of discount so indicated by the bidder on the Bid Form. Warranties, price protection, etc., should be the same as for radiator cores so shown on the Bid Form. The cost of gaskets, o-rings, seals, etc. required in the re-coring of any radiator should be included as part of the bidder's calculated cost for the core when quoting on the Bid Form. The City will not pay for such items as an additional cost in the re-coring of any radiator. Bidders are to state a flat labor charge for the re-coring of the various types of radiators indicated on the Bid Form. The labor price quoted for each type of radiator will remain in effect for the life of the contract.

The successful bidder shall be required to attach a metal tag to the upper tank or other easily viewed area of the radiator on every re-cored unit stating, (a) the vendor's name, (b) the date of repair, and (c) the vendor's job ID# (if tracked). This tag shall be attached by soldering it to the radiator so as to become a permanent part of the assembly. Tags are not to be painted over or otherwise obscured.

Any non-heavy equipment radiator re-cored for the City of Birmingham shall be 100% warranted for material and workmanship for one (1) calendar year from the date of installation. This requirement applies for all autos, trucks, and light construction equipment.

All heavy equipment radiators that are re-cored under this contract shall be 100% warranted for material and workmanship for a minimum of one hundred and twenty (120) calendar days from the date of installation. One hundred percent (100%) shall mean no cost of any kind shall be allowed by the City of Birmingham for additional repairs to a radiator that has been re-cored within the time frame heretofore mentioned.

In the event it is determined that any radiator submitted for repair will require the core to be replaced or the radiator itself to be replaced, the vendor is to immediately contact the City. The City will make a determination as to re-coring or replacing. If re-coring is chosen and the repair contractor does not have the re-coring contract the City will make arrangements for the pick-up and delivery of the radiator to the re-coring contractor. If replacing is chosen, the same procedure will apply.
