Amended Request For Proposals

ISSUE DATE: Jan 8, 2026

DUE DATE: Mar 13, 2026

The City of Birmingham, Alabama, is seeking proposals from developers, non-profits, and housing service providers (Developers) to increase the supply of housing for households experiencing homelessness or other eligible Qualified Populations (QP), as defined by HUD HOME-ARP Notice CPD-21-10.

Background

The City of Birmingham’s [Comprehensive Plan](#) (summarized, Attachment A), adopted in 2012, calls for the City to engage stakeholders and foster public/private partnerships that improve neighborhoods, create healthy real estate markets, create sustainability, and provide a broad array of housing options to address the needs of diverse households. The City of Birmingham is an entitlement community in the U.S. Department of Housing and Urban Development (HUD) Home Investment Partnership Program (HOME) and Community Development Block Grant (CDBG). HOME funds assist low-income persons/households in Birmingham by providing much needed affordable housing to various income levels under 80% Median Family Income (MFI). A chart of the 2025-2026 income ranges is included as Attachment B. For the purposes of this RFP, a project is generally considered “affordable” if the majority of units are affordable to persons/households earning at or below 80% of MFI. This is not an indication that the entire project must be affordable to households with incomes at or below 80% of MFI. The City is particularly focused on proposals targeting the creation of a range of housing options, many of which are affordable for Extremely Low Income (< 30% MFI) persons/households. The City utilizes funds from HUD grants and other sources to provide Developers increased financial capacity to cover necessary project costs and seeks to achieve a reasonable return of capital on the available “gap” financing to allow for future investment in affordable housing.

Developers may apply for HOME-American Rescue Plan (HOME-ARP) funding through this RFP. The American Rescue Plan Act (ARPA) provided the City of Birmingham \$5,074,139.00 in HOME-ARP funding. This funding is a one-time allocation and differs from regular HOME allocations due to the populations targeted and the variety of eligible projects and activities. In addition, projects developed with HOME-ARP funding must serve the Qualified Populations (QPs), as defined by the US Department of Housing and Urban Development (HUD).

Eligible Beneficiaries

HUD issued guidance for the utilization of the HOME-ARP funds through CPD-Notice 21-10 on September 13, 2021, to ensure the funds are intended to benefit qualifying populations and be used for specific activities not necessarily normally permitted under the HOME Program.

Selection Procedure

The City follows HUD regulation to define the Qualified Populations (QP), or eligible populations for HOME-ARP funded projects. Applicants providing permanent housing for one or more of the QPs may seek HOME-ARP funding to support the acquisition, rehabilitation, or new construction of those units.

Qualified Population (QP) – HOME-ARP funded activities aim to reduce the frequency, severity, and duration of homelessness in Birmingham and provide additional safe living environments for individuals, couples, and families experiencing homelessness and other QPs:

- Homeless, as defined in 24 CFR 91.5 Homeless (a), (b), or (c);
- At risk of Homelessness, as defined in 24 CFR 91.5 At risk of homelessness;
- Fleeing, or Attempting to Flee, Domestic Violence, Dating Violence, Sexual Assault, Stalking, or Human Trafficking, as defined by HUD Notice CPD-21-10; or
- Other Populations, where providing supportive services or assistance under 212(a) of NAHA (42 USC 12742(a)) would prevent the family’s homelessness or would serve those with the

greatest risk of housing instability. Includes households earning no greater than 50% AMI and exhibiting characteristics associated with instability and an increased risk of homelessness, such as high to severe rental housing cost burden (paying more than 30%-50% of gross household income toward housing costs).

Eligible Activities

Approximately \$3,000,000 of the City's available HOME-ARP funding has been set aside for the acquisition and development of **non-congregate shelters**; approximately \$1,100,000 of the City's available HOME-ARP funding has been set aside for the acquisition, construction, and/or rehabilitation of **affordable rental housing**; and approximately \$275,000 of the City's available HOME-ARP funding has been set aside for **supportive services**.

Non-congregate Shelters

HOME-ARP funds may be used to acquire and develop non-congregate shelters (HOME-ARP NCS) for individuals and families that meet one of the Qualifying Populations defined in the [CPD Notice: Requirements for the Use of Funds in the HOME-American Rescue Plan Program](#) ("the Notice"). NCS provides private units or rooms as temporary shelter to individuals and families and do not require occupants to sign a lease or occupancy agreement. The private rooms must also have private restrooms in each unit.

This activity may include the construction of new structures or the acquisition and/or rehabilitation of existing structures (such as motels, nursing homes, or other facilities) to be for use as HOME-ARP NCS. The Notice establishes requirements applicable to HOME-ARP NCS. Please see below and refer to the [HOME-ARP Program Fact Sheet](#) for more information.

- Eligible Activities: HOME-ARP funds may be used to acquire, rehabilitate, or construct NCS units to serve individuals and families Qualifying Populations.
 - Eligible Costs: HOME-ARP funds may be used for:
 - Acquisition Costs: Costs to acquire improved or unimproved real property for use as or development of HOME-ARP NCS.
 - Demolition Costs: Costs to demolish existing structures for the purpose of developing HOME-ARP NCS.
 - Development Hard Costs: Costs to rehabilitate or construct HOME-ARP NCS units to meet the HOME-ARP minimum habitability standards. Costs to make improvements to the project site, including installation of utilities or utility connections, laundry facilities, community facilities, on-site management, or supportive service offices.
 - Related Soft Costs: Reasonable and necessary costs incurred by the PJ, subrecipient, or project owner associated with financing, acquisition, and

development of HOME-ARP NCS projects.

- Replacement Reserve: Costs to capitalize a replacement reserve to cover reasonable and necessary costs of replacing major systems and their components.
- Ineligible Costs: HOME-ARP funds may not be used to pay ongoing costs of operating HOME-ARP NCS or to convert NCS to housing.

Affordable Rental Housing

HOME-ARP funding has been set aside for the acquisition, construction, and/or rehabilitation of affordable rental housing. Acquisition of vacant land or demolition may be undertaken only with respect to a HOME-ARP project for which construction is expected to start within 12 months of commitment. Please see below and refer to the [HOME-ARP Program Fact Sheet](#) for more information.

- Eligible Costs – HOME-ARP funds can pay up to 100 percent of the eligible costs associated with the HOME-ARP rental units:
 - Development hard costs including the actual cost of constructing and rehabilitating housing to meet applicable property standards;
 - Site improvements;
 - Refinancing of existing debt secured by a HOME-ARP rental project rehabilitated with HOME-ARP funds;
 - Acquisition costs;
 - Related soft costs;
 - Relocation costs; and
 - Operating cost assistance through a capitalized operating reserve.
- Eligible Beneficiaries – HOME-ARP funds must primarily benefit individuals and families that meet one of the definitions of qualifying populations. Not less than 70 percent of the total number of rental units assisted with HOME-ARP funds must be restricted to occupancy by households that are qualifying households at the time of the household’s initial occupancy. Not more than 30 percent of the total number of rental units funded with HOME-ARP funds may be restricted for occupancy by low-income households (at or below 80% AMI). A household that met the definition of one or more qualifying populations at initial occupancy remains a qualifying household throughout their period of occupancy irrespective of changes in income or whether they continue to meet a qualifying population definition.

Supportive Services

The City has set aside HOME-ARP funds to provide a broad range of supportive services to individuals and families that meet one of the qualifying populations as defined in CPD Notice: Requirements for the Use of Funds in the HOME-American Rescue Plan Program (“the Notice”).

Supportive services may be provided to individuals and families who are not already receiving the services outlined in the Notice through another program.

Eligible Supportive Services: There are three categories specifically included as supportive services under HOME-ARP:

- McKinney-Vento Supportive Services: McKinney-Vento Supportive Services under HOMEARP are adapted from the services listed in section 401(29) of the McKinney-Vento Homeless Assistance Act (“McKinney-Vento Supportive Services”) (42 U.S.C. 11360(29)).
- Homelessness Prevention Services: HOME-ARP Homelessness Prevention Services are adapted from certain eligible homelessness prevention services under the Emergency Services Grant (ESG) regulations at 24 CFR Part 576.
- Housing Counseling Services: Housing counseling services under HOME-ARP are those consistent with the definition of housing counseling and housing counseling services defined at 24 CFR 5.100 and 5.111, respectively, except that homeowner assistance and related services are not eligible HOME-ARP activities. Eligible Costs of Supportive Services for Qualifying Individuals and Families: HOME-ARP funds may be used to pay eligible costs associated with the HOME-ARP supportive services activity in accordance with the requirements of the Notice.

CITY OF BIRMINGHAM COMPREHENSIVE PLAN:

People, Prosperity, Place, Partnership, Performance

WHY WE DEVELOPED THIS PLAN

This is the City of Birmingham's first full comprehensive plan since 1961 and the first comprehensive plan based on a community process. With community consensus behind it, the 2012 City of Birmingham Comprehensive Plan puts the city on a new strategic path for the 21st century towards a renaissance of city neighborhoods, a strong economy with more jobs, and more opportunity and quality of life for all.

HOW WE DEVELOPED THIS PLAN

The City of Birmingham Comprehensive Plan was developed through a process of broad public participation by citizens, business owners and other stakeholders. The planning process touched over 2,300 people whether through citywide forums, workshops in different parts of the city, topical workshops, or open house events. Stakeholders from all walks of life gave many hours of their time to serve on the Steering Committee that helped shape the plan.

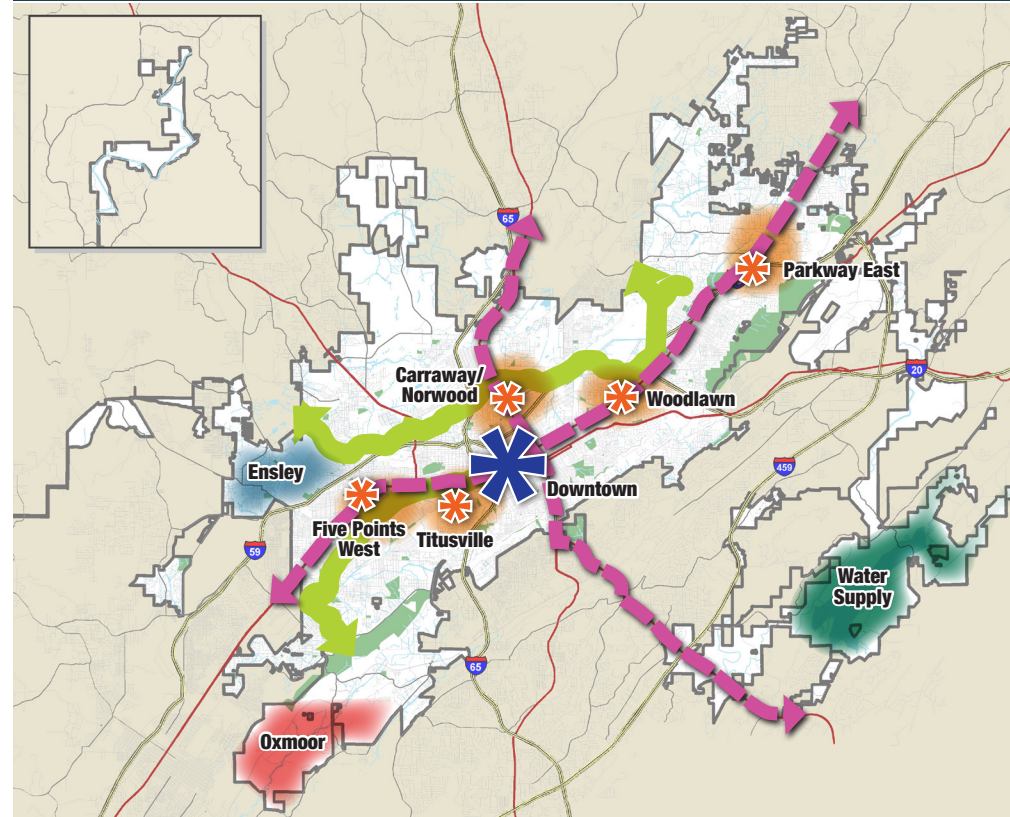

HOW WE'LL PUT THE PLAN TO WORK

The purpose of planning is to get to action. The Comprehensive Plan includes a detailed implementation plan setting out the What, How, Who, and When for specific actions to achieve the goals of the plan. A Comprehensive Plan Implementation Committee made up of planning commissioners and citizens will serve as the stewards of the plan, advising government and other partners, and monitoring progress. Annual public hearings will

- Prepare an annual public report on progress implementing the comprehensive plan.

Birmingham's Vision for the 21st Century

In 2032, the City of Birmingham leads the South as a community of choice and opportunity: diverse, prosperous, sustainable, and beautiful.

- > **People choose the City of Birmingham as a place to live.** Our neighborhoods are attractive, walkable, well maintained, and safe. The blighted properties of the past have been transformed into new or renovated housing, greenways and green open spaces, or other community assets. Across the city, there are appealing housing choices for all kinds of households: young singles and couples, families with children, empty nesters, and retirees.
- > **Birmingham has a connected network of walkable urban places.** Our compact, mixed use, pedestrian-friendly neighborhood centers support an enhanced and efficient

transit system, and a network of safe and attractive pedestrian and bicycle routes links neighborhoods with city destinations.

- > **Birmingham is innovative and prosperous, with a diversified and sustainable economy.** Education, innovation and investment have grown the economy and reduced poverty by creating new economic opportunities. As a community of learning, Birmingham offers excellent educational options for all age levels and interests, creating well-educated citizens and a modern workforce qualified for 21st century jobs. Vacant or underutilized industrial sites are finding new uses that benefit the city and its economy. Because our culture of opportunity supports innovation and creativity, our diversified economy supports entrepreneurial start-ups and creates new jobs, ranging from businesses that emerge from the interdisciplinary research of UAB to

our acclaimed food culture and arts scene.

- > **Birmingham is the most sustainable, "greenest" city in the South.** The city has become cleaner, healthier, more energy- and resource-efficient, and more attractive as a place to live. We have worked within the city and through regional partnerships to improve air quality, preserve sensitive lands, and protect and enjoy our excellent water resources. Our parks and greenways provide convenient, safe environments for all residents to play and exercise. Everyone has access to our city's premier health services, healthy food choices, and healthy lifestyles.
- > **Birmingham's success is built on local and regional partnerships.** We created strong partnerships encompassing citizens, the business community, institutions, nonprofits, and governments to transform Birmingham into the best place to live, work, study, and play in the South.

CITY OF BIRMINGHAM COMPREHENSIVE PLAN: People, Prosperity, Place, Partnership, Performance

WHAT'S IN THE 2012 CITY OF BIRMINGHAM COMPREHENSIVE PLAN? IMAGINE ► PLAN ► ACT

The Comprehensive Plan covers a broad range of topics in 15 chapters about current trends, the planning process and all aspects of community life that affect the way our city can develop in the future.

IMAGINE

What kind of place do we want to be in the 21st century?

- **Part I: Setting the Stage.** Our vision for the future, guiding principles for planning, the public process, and where we are starting from today.

PLAN

How do we get there?

Strategies to achieve the vision.

- **Part II: Green Systems.** Nature and environment, parks and recreation, and sustainability and green practices.
- **Part III: Neighborhoods, Housing and Community Renewal.** Sustaining, enhancing and renewing neighborhoods to provide a good quality of life.
- **Part IV: Prosperity and Opportunity.** Supporting and growing the industries that drive the city's economy, while reinforcing the economy's building blocks—education, workforce development, entrepreneurship, and quality of life to retain and attract talent—and continuing the downtown renaissance.
- **Part V: Strengthening City Systems and Networks.** Expanding transportation choice based on land use strategies and providing excellent city services.

ACT

How do we get started?

- **Part IV: From Plan to Action.** A new development framework of land use, regulation and urban design, with step-by-step actions to achieve the vision and monitor progress.

BIRMINGHAM'S POWER OF PLACE

High quality of life—resident satisfaction in daily living—is the foundation of successful 21st century communities. Businesses locate where people want to be, and good neighborhoods, along with a great open space system and a vibrant cultural life are among the key attractions that any city and metropolitan area can offer.

With its ridge and valley topography, lush greenery, historic downtown, and neighborhoods that emerged from small towns, Birmingham has the pedestrian-friendly street grid, neighborhood centers, and local parks that people increasingly seek in a place to live. At the same time, the city's large nature parks and emerging greenway system will make it possible for Birmingham residents to experience nature without leaving the city limits. This combination of urban lifestyles with access to nature creates a powerful mix for quality of life.

the big picture

Birmingham has many assets—economic, cultural, historic—but it also has to grapple with many challenges. The city needs better tools, better systems, more internal and external communication, and enhanced partnerships to achieve Birmingham citizens' vision for the future.

Raise the city's "information quotient" for data and evidence-based decision making

- A comprehensive property information database, a real estate market analysis on a block to block basis, detailed data on city jobs and enterprises, and an asset management system—result in

more informed decision making and effective use of taxpayer dollars.

Use the right tools for each job

- A professionally-run Birmingham Redevelopment Authority and Land Bank along with a high profile system of coordinated code enforcement will deploy a variety of tools to eliminate blight and redevelop neighborhoods.

Be strategic, focused, and systematic to create visible success

- Target coordinated investments in housing, infrastructure, transportation, parks, facilities, and workforce and social services to areas with assets, so that visible

successes can create confidence and increasingly leverage private investment.

- Target incentives to support emerging industries, entrepreneurship and microbusiness, and revitalization in designated Urban Villages and Strategic Opportunity Areas.

No more silos: coordinate, cooperate, collaborate

- Create a Housing Policy Advisory Council that includes government, the housing authority, neighborhoods, housing developers, realtors, and economic development specialists.

GREEN SYSTEMS

Natural Resources and Environmental Constraints

- Work with partners to protect and enhance water quality.

Parks and Recreation

- Work towards a goal of a park within walking distance of every resident.
- Update the 1996 Park and Recreation Plan, and include a section on management and maintenance of the system.
- Implement the Red Rock Ridge and Valley Trail System.

Sustainability and Green Practices

- Make City government a model of resource-efficient and green practices.
- Develop incentives for green building and stormwater management.
- Use natural drainage systems where possible.
- Promote white roofs as an easy way to mitigate the urban heat island.

NEIGHBORHOODS, HOUSING, HISTORIC PRESERVATION, AND COMMUNITY RENEWAL

Good neighborhoods are the foundation of successful cities. Regardless of household income level, neighborhoods should provide safety, decent and sanitary housing, well-maintained infrastructure, environmental and aesthetic amenities such as street trees, and easy access to parks, public spaces, and neighborhood retail and services.

- Create a **community-based Housing Policy Advisory Council** including representatives of government staff, neighborhood organizations, for-profit and non-profit housing developers, realtors, and representatives of economic development organizations.
- Create a **Public Facilities Working Group** to meet regularly on city, county, state, federal, and school facilities decisions in order to ensure they further city goals for development.
- Establish a **rental housing code** to ensure that rental properties are fit for habitation.
- Create a set of **Framework Plans** for the 23 Communities in order to provide guidance on desired development.
- Create a **historic preservation ranking system** to guide decision making about programs and incentives.

COMMUNITY RENEWAL

Many of Birmingham's traditional neighborhoods have experienced decades of disinvestment, with the large number of abandoned houses and stores, tax delinquent properties, and vacant lots bearing witness to this reality. In addition, there are "environmental justice" neighborhoods affected by the legacy of industrial pollution and residential segregation.

- Pursue a **comprehensive and coordinated system to eliminate blight, assemble land and redevelop neighborhoods** in disinvested areas.
- Create a **comprehensive property information system**.
- Understand the details of neighborhood real estate markets by commissioning a **real estate market study at the block level**.
- Establish a **professional Redevelopment Authority and Land Bank** to take charge of blight elimination and redevelopment activities to create mixed-income neighborhoods.
- **Focus redevelopment activities strategically** on compact urban villages and their surrounding neighborhoods to create transit-ready centers and a visible difference to create confidence. Target coordinated housing, infrastructure, transportation, park, and service investments to create a successful mixed-income neighborhood.
- **Create an Urban Agriculture Innovation District in Enley** to develop a for-profit district of intensive food production through hydroponics and aquaponics in buildings and land-based agriculture.

PROSPERITY AND OPPORTUNITY: ECONOMIC DEVELOPMENT

Economic development recommendations for Birmingham revolve around four key priorities: supporting established and emerging industries; improving the

education system for all; supporting entrepreneurship and the city's role as a center of innovation; and continuing robust support for creating a live-work-play downtown.

Established and emerging industries

- Cultivate entrepreneurs and make it easy for them to stay in the City.
- Target a portion of money incentives to emerging industries.

Developing human capital

- Proceed with public school programs to improve student progress across the system
- Coordinate the workforce development system.

Sustaining Downtown

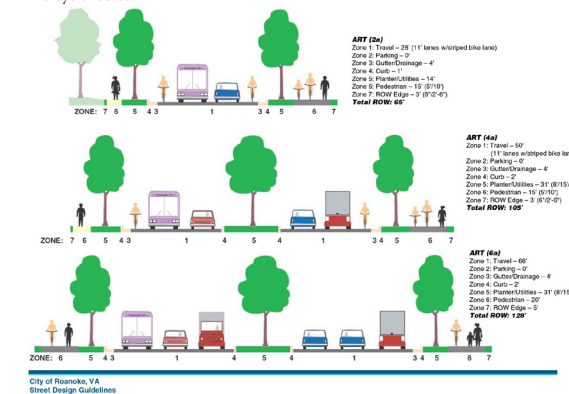

- Develop and implement a plan for the Entrepreneurial District and strengthen the entrepreneurial ecosystem.
- Develop and implement a Downtown Connections Plan to link downtown's activity centers and residential areas with streetscape improvements, ground floor activities, popup events, public art, and transit.
- Create a Contemporary Culture Furnace District from Railroad Park to Sloss Furnace to showcase Alabama fine crafts.
- Develop and implement a plan for the southeast quadrant of downtown.

STRENGTHENING CITY SYSTEMS: TRANSPORTATION, INFRASTRUCTURE AND PUBLIC FACILITIES AND SERVICES

Offering more transportation choice—through better transit, bicycle facilities, and sidewalks—was at or near the top of Birmingham residents' desires for the city at every public meeting. While the city belongs to regional water and sewer systems, it controls the local road and drainage infrastructure. City facilities suffer from deferred maintenance.

Transportation

- **Integrate transportation and land use planning** to build up centers of density that can support enhanced transit systems such as bus rapid transit.
- Expand opportunities to walk and bike safely: implement the **"complete streets" policy** adopted by the Planning Commission, and the Red Rock Trail system pedestrian and bicycle routes.

City of Roanoke, VA Street Design Guidelines

THE COMPREHENSIVE PLAN AS A LIVING DOCUMENT

- Designate a position in the City's Planning Division as the long-range planner to be the in-house expert on the Comprehensive Plan and implementation coordinator.
- Create a Comprehensive Plan Implementation Committee to monitor progress.
- Review implementation progress in annual public hearings at the Planning Commission and City Council.
- Use the Comprehensive Plan in creating departmental work plans, the budget and the capital improvement program, required planning documents for federal funding programs, and grant proposals.
- Schedule a public process every five years to review implementation progress on the Comprehensive Plan and to confirm or revise the Vision, Principles, and Goals.
- Update the Comprehensive Plan thoroughly at least every 20 years.
