

TERMS OF SERVICE

Last updated December 04, 2022

We operate a paid subscription service. Once you have access you have full view of everything. We do not offer refunds of any kind.

1 Be respectful

This means no mean, rude, or harassing comments. Treat others the way you want to be treated.

2 No inappropriate language

Use of profanity should be kept to a reasonable minimum. Any derogatory language towards any user is prohibited. Swearing is permitted in casual channels only, while the official help and code channels should be kept free of any profane language.

3 No spamming

Do not send a lot of small messages right after each other. These disrupt chat and make it hard to scroll through the server. Please keep your messages at least 5 words long while chatting.

4 No pornographic/adult/other NSFW material

The idea behind the server is to provide a safe place for us to share art, videos, and other kinds of creative material – not to share the aforementioned NSFW material.

5 No advertisements

No invasive advertising, whether it be for other communities or streams. You can post your content in the media channel if it's relevant and provides actual value for the community.

6 No offensive names and profile pictures

Keep your names and profile picture appropriate.

7 Server Raiding

Server raiding is against the Discord terms of service. Any attempt to circumvent or bypass them can result in a permanent ban.

8 Threats are forbidden

Threats are prohibited and disallowed.

9 Follow the Discord Community Guidelines

Respect the general Discord Community guidelines.

10 Do not join voice chat channels without permission of the people already in there

If you see that they have a free spot it is alright to join and ask whether they have an open spot, but leave if your presence is not wanted by whoever was there first.

11 Don't share your personal information

Do not share your personal information or the personal information of other users without their consent. This includes phone numbers, addresses, and any other sensitive information.

12 Don't share illegal or pirated content

Do not share links to illegal or pirated content, such as copyrighted material or stolen software. This is against the Discord terms of service and can result in a ban from the server.

13 Avoid false or misleading information

Make sure to fact-check any information that you share and only share reliable sources. Spreading false or misleading information can be harmful and undermines the trust and integrity of the community.

14 Follow the channel-specific guidelines

Each channel in your server should have specific guidelines for the type of content that is allowed. Make sure to follow these guidelines and respect the purpose of each channel.

15 No sharing or distributing hacks, cheats, or other unauthorized tools or services

Sharing or distributing hacks, cheats, or other unauthorized tools or services is strictly prohibited on the server.

16 No sharing or distributing viruses or malicious software

Sharing or distributing viruses or malicious software can harm the server and its members, and is therefore strictly prohibited.

17 No sharing or distributing illegal drugs or controlled substances

distributing illegal drugs or controlled substances is strictly prohibited on the server.

18 No sharing or distributing counterfeit or fraudulent items

Sharing or distributing counterfeit or fraudulent items, such as fake IDs or fraudulent financial documents, is strictly prohibited on the server.

19 No sharing or distributing stolen financial or banking information

Distributing stolen financial or banking information, such as credit card numbers or bank account information, is strictly prohibited.

20 No sharing or distributing unauthorized keys or serial numbers for software or games

It is strictly prohibited to share or distribute keys or serial numbers for software or games that have been obtained illegally.

****The Admins and Moderators will Mute/Kick/Ban per discretion. If you feel mistreated DM an Admin and we will resolve the issue.****

All Channels will have pinned messages explaining what they are there for and how everything works. If you don't understand something, feel free to ask!

These guidelines will continue to evolve over time. This means we may take action against a user or content that violates the spirit of these guidelines when we encounter a new threat or harm that is not explicitly covered in the current version.

We will always make our best effort to notify you when we update these guidelines, but it is up to you to follow the spirit of them.

REFUNDS
