

# Refund Policy

## The "Trade or Fade" Guarantee

*Last Updated: February 8, 2025.*

We're so confident in the value of our mentorship program that we offer our bold "Trade or Fade" guarantee. Here's how it works:

### Refund Eligibility Period

- Monthly, Quarterly, and 6-month Plans: First 7 days from purchase.
- Annual Plans: First 14 days from purchase.

### Our "No-Nonsense" Promise

Unlike most trading educators who lock you into complicated terms, we keep it simple. If you don't believe our framework will transform your trading approach, we don't want to keep your money. Period.

### How to Request a Refund

1. Email [support @ tradetbros.ai](mailto:support@tradetbros.ai) with subject line "Refund Request".
2. Include your membership details.
3. Our team typically responds within 24 hours.
4. No complicated forms, no endless questions.

### Important Notes:

- This guarantee is about ensuring you've found the right mentor-student fit.
- We maintain a typical response time of 24 hours or less for all refund requests.
- Once the eligibility period expires, all sales are final.
- Access to all materials will be immediately revoked upon refund completion.

### What Makes Our Guarantee Different

We're putting our money where our mouth is. Over the past two years of trading education, less than 0.1% of our members have requested refunds - not because we make it difficult, but because we deliver on our promises.

## Exclusions

- Refunds are not available after the eligibility period (see above).
- Members who have downloaded significant portions of our proprietary content.
- Accounts showing signs of abuse or sharing.
- Members who have attended more than 3 live sessions.

## Why This Policy Exists

Just as we teach disciplined trading, we believe in disciplined business practices. This policy protects both our intellectual property and ensures we can continue providing premium education to serious traders.

Remember: You wouldn't buy a house without looking inside, and we don't expect you to fully commit without experiencing our mentorship. But like any serious investment; timing and decision-making matter.
