

Rage Pro Privacy Policy

Last Updated: May 2, 2025

Hey *Rage Pro* fam! We care about your privacy. This policy explains how we handle your info. Let's keep it clear and simple.

1. What We Collect

When you join *Rage Pro*, we collect:

- Your Discord username and ID (to manage your membership).
- Payment info (processed securely through Whop—we don't store it).
- Any info you share in the server (like messages, trading calls, or #support tickets).
- Basic analytics (e.g., how often you use the server or tools, to improve our services).

2. How We Use Your Info

We use your data to:

- Run *Rage Pro* (give you access, manage your membership, support you).
- Keep the community safe (e.g., spot scammers or rule-breakers).
- Improve the group (like tweaking tools or scheduling based on usage).
- Send updates (membership news, new content—but you can opt out).

3. Who We Share It With

We don't sell your info, ever. We only share it with:

- Whop (for payments and membership management—they have their own privacy policy).
- Our team (like moderators, to handle support or enforce rules).
- Legal authorities (if required by law, like for fraud prevention).

4. Data Security

We take security seriously. Your data is stored securely, and we use Whop's secure systems for payments. But no system's 100% safe—use strong passwords and don't share your account.

5. Your Rights

- You can ask to see what data we have on you (DM a mod in #support).
- You can ask us to delete your data (but you'll lose membership access).
- If you're in the EU or California, you may have extra rights (like GDPR/CCPA)—reach out, and we'll comply.

6. Cookies and Tracking

We don't use cookies directly, but Whop might for payment processing. Check their policy for details. We use basic Discord analytics to see server activity—no creepy tracking.

7. Changes to This Policy

We might update this policy as *Rage Pro* grows. We'll post changes in #announcements on Discord. Check back to stay in the loop.

8. Contact Us

Questions? Open a ticket in #support. Don't DM Tilla directly—we'll never DM you first, and scammers are out there.
