

TERMS OF SERVICE

Last updated: October 2025

Operated by Ziba Online Limited (“ZOL”, “we”, “our”, “us”)

NZ Company No. 1916441

1. Overview

These Terms govern your access to and use of digital products, memberships, and websites operated by Ziba Online Limited, including:

Trading Nut (tradingnut.com) – educational media, interviews, and trading resources

Dynamic Traders Club (DTC) – membership community, educational courses, and related tools

ZOL also owns the TraderZen app (traderzen.app), which has its own Terms of Service and Privacy Policy.

By accessing or purchasing through any of these properties (collectively, the Services), you agree to be bound by these Terms and our [Privacy Policy]. If you do not agree, please discontinue use immediately.

2. Educational Purpose Only

All content, courses, discussions, alerts, and software tools are provided for educational and informational purposes only.

We do not provide financial advice, investment services, portfolio management, or access to trading capital.

Examples, case studies, and trade discussions are illustrative only and should not be construed as specific trading recommendations.

Always consult a licensed financial professional before placing trades or investments.

3. Accounts and Eligibility

You must be 18 years or older to create an account or purchase any Service.

You agree to keep login details confidential and accept responsibility for activity under your account.

We reserve the right to suspend or terminate accounts that violate these Terms or applicable law.

4. Subscriptions, Payments & Refunds

Certain Services (e.g., Dynamic Traders Club memberships and course bundles) use recurring billing through authorized payment processors such as Stripe, or PayPal.

Billing & Renewals

Your subscription will renew automatically each billing cycle unless you cancel before the next payment date.

You can cancel anytime via your account portal or by contacting support@tradingnut.com.

Refund Policy

Refunds are available only in cases of duplicate payment, technical delivery failure, or non-access to purchased content.

Once full digital access is granted, all sales are final.

Refunds cannot be granted for trading performance, results, or subjective satisfaction.

Product-specific refund terms may apply and will be stated on each sales page.

5. Intellectual Property

All content, videos, graphics, code, designs, logos, and course materials belong to ZOL or its licensors.

You receive a limited, non-exclusive, non-transferable licence to access and use the materials for personal educational purposes only.

Copying, redistributing, or re-selling content without written consent is strictly prohibited.

6. Community Conduct

Our communities (including Discord or private forums) are intended for respectful educational discussion.

You agree not to post anything defamatory, illegal, promotional, or that infringes the rights of others.

ZOL may remove content or revoke access for misconduct at its discretion.

7. Third-Party Integrations

Our Services may interface with third-party platforms such as TradingView, Discord, or payment gateways.

Use of those platforms is subject to their own terms and privacy policies.

ZOL is not responsible for third-party content or availability.

8. Feature Access & Service Availability

ZOL also reserves the right to modify, pause, discontinue, or retire any feature, tool, or service that becomes unnecessary, outdated, impractical to maintain, or significantly under-utilized.

Such adjustments may be made at any time and without prior notice, and are intended to ensure that resources remain aligned with member needs and overall program focus.

9. Risk Disclosure

Trading financial markets involves substantial risk of loss.

You may lose all or more of the funds you trade or invest with.

Past performance does not guarantee future results.

Any examples or member experiences shown are individual and non-representative. ZOL makes no warranty that you will achieve profits or specific outcomes.

10. Limitation of Liability

To the maximum extent permitted by law, ZOL, its directors, employees, and affiliates shall not be liable for any indirect, incidental, or consequential loss arising from use of the Services. If liability cannot be excluded, it is limited to the amount you paid for the relevant Service.

11. Indemnity

You agree to indemnify and hold harmless ZOL, its officers, and agents from any claims or expenses arising from your use of our Services or violation of these Terms.

12. International use

Our Services are controlled and operated from New Zealand. We make no representation that the content or materials available through our Services are appropriate or available for use in other locations. Access to our Services from territories where their content is illegal or restricted is prohibited.

If you access or use our Services from outside New Zealand, you do so at your own initiative and are responsible for complying with all local laws and regulations in your jurisdiction, including any laws regarding online conduct, educational content, and digital purchases.

You are also responsible for ensuring that participation in any educational activities or discussions offered through our Services does not violate any laws or restrictions applicable to you.

We may restrict access to certain products or features in specific countries or regions if required by local laws or regulatory obligations.

13. Governing Law & Dispute Resolution

These Terms are governed by the laws of New Zealand.

Any dispute will be resolved through binding arbitration in Wellington, New Zealand under the Arbitration Act 1996.

Class actions and representative proceedings are waived.

14. Termination

We may suspend or terminate access to any Service at any time for breach of these Terms or misuse of content.

Sections 5 through 11 survive termination.

15. Changes to These Terms

We reserve the right to update these Terms at any time. The latest version will always be posted at <https://tradingnut.com/termservice>.

Continued use after changes constitutes acceptance of the updated Terms.

16. Confidentiality & Non-Sharing of Proprietary Materials

As part of your access to our courses, tools, community, and educational resources, you may receive proprietary content, methods, workflows, or insights that are not publicly available. To protect the integrity of our programs and the experience of all members:

You agree not to record, copy, distribute, share, or publicly post any private content, including course videos, written materials, internal discussions, trading tools, templates, or live session recordings.

You agree not to publish or disclose any non-public strategies, processes, or methodologies learned within our Services, except for your own personal trading or educational use.

Direct replication, redistribution, or teaching of our proprietary frameworks, tools, or course structures is not permitted without written approval from ZOL.

Discussions within private communities (e.g., Discord groups) are considered confidential and intended only for active members. Screenshots, transcripts, and shared conversations may not be circulated outside the community.

This section is not intended to restrict normal conversation or your personal learning—it simply protects the unique material developed by ZOL and preserves the value of the member experience.

Continued use after changes constitutes acceptance of the updated Terms.

17. Use of Proprietary Software

Some memberships include access to proprietary TradingView indicators, scripts, software or chart tools (“Tools”). These Tools are provided solely for your personal use within your own TradingView account.

To preserve the integrity and exclusivity of these resources:

Access to the Tools is non-transferable and may not be shared with anyone who does not hold an active membership.

The Tools and their functionality should be used privately, within your own trading workflow.

Any display or use of the Tools outside your personal account environment requires prior written approval from ZOL.

The underlying logic, code, structure, or design of the Tools is proprietary and may not be replicated, extracted, or adapted.

These guidelines help ensure members receive the full value of the Tools and protect the ongoing development behind them.
