

DIXIE

HUNTING PRODUCTS

THE DIXIE DIFFERENCE

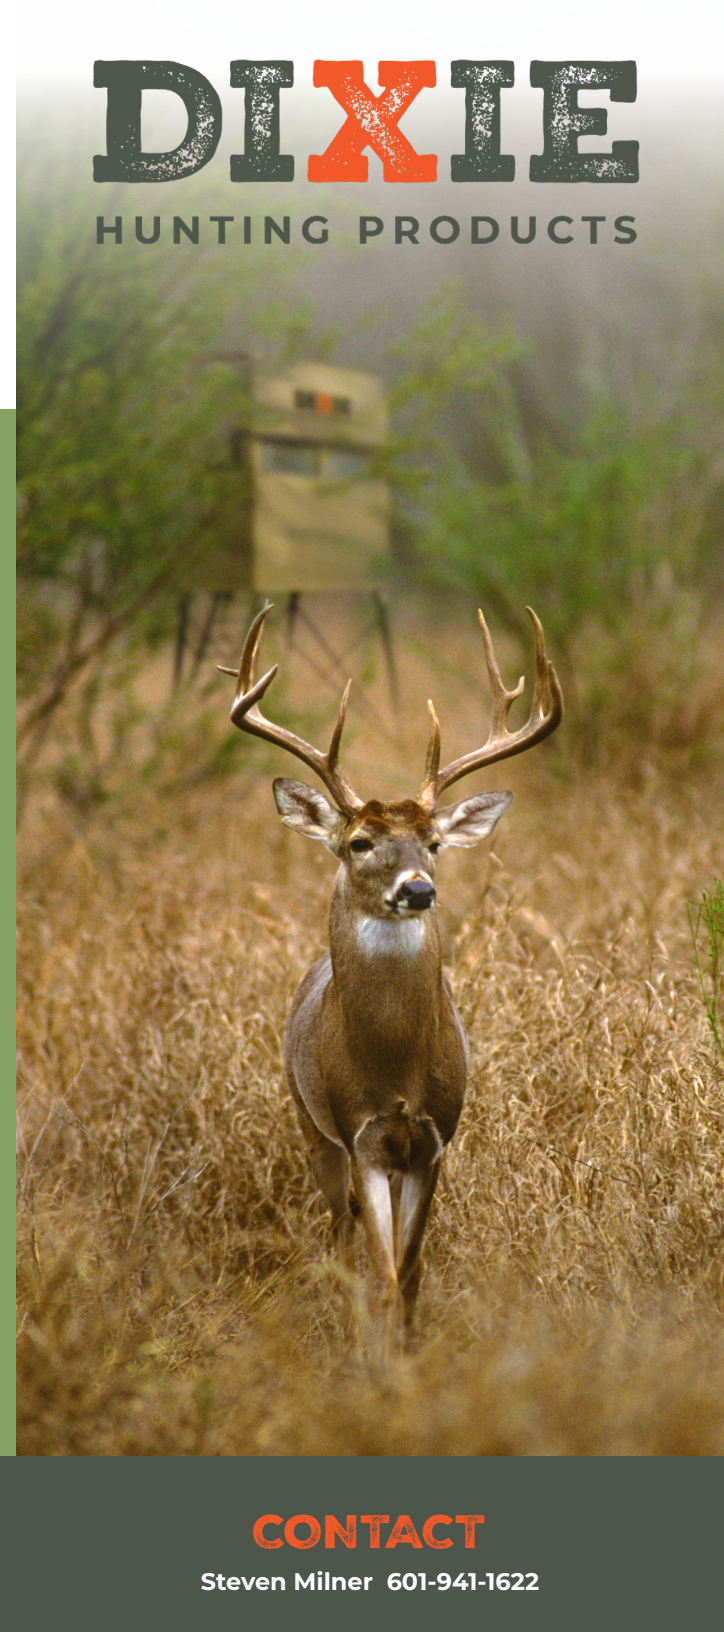

Our deer blinds come with many attributes to give our customers the high-quality products they deserve!

- ✘ Seamless, one-piece marine grade fiberglass enclosure.
- ✘ Smoked glass windows.
- ✘ Composite shelving.
- ✘ Carpeted floors and optional carpet on walls to enhance sound proofing.
- ✘ Insulated door with lock to keep your stand safe and secure.
- ✘ Our TruHyde Coating System.

Our TruHyde Coating System is a two-part chemical compound similar to spray-on truck bed liner. It not only assists in durability and longevity, but also gives the stand an extra layer for sound proofing, water proofing, and insulation.
