Step by Step:

FOR THE BOX:

1. Line up one end of the box at 4" on the trimmer and cut in half. Assemble the box.
2. Score the DSP and cardstock as directed above. **Note: if DSP paper is directional pay attention to the direction of your score lines.** The end closest to the two score lines is the flap to close the box.
3. Fold the large DSP piece on the score lines.

4. Fold the Basic Black cardstock to make the insert. Fold VALLEY - MOUNTAIN - VALLEY. Use adhesive to attach the two back sides of the “mountain”, then attach entire piece to the non-scored part of DSP. **Remember, this insert goes INSIDE the box, so attach it to the side of the DSP that will be inside the box.**
5. Tie a ribbon around the flap of the box. Optional: You can use a glue dot to hold in place.
6. Insert DSP into assembled box. You may want to use a couple glue dots to hold this piece inside the box.
7. Punch the three circle shapes: 2¼” Basic Black; 2” Whisper White; 1¾” Powder Pink and attach them together.
8. Stamp the bird image onto the scrap Whisper White using Basic Black Archival ink. Then use Big Shot and coordinating die to cut out the bird. Color the white parts of the bird with Smokey Slate ink and blender pen. Attach to the stack of circles.
9. Place two Stampin’ Dimensionals on the BOTTOM half of the circle. Close the box flap and place the circles in such a way that they hold the flap shut but the dimensionals don’t attach to the DSP.
10. Wrap the remaining DSP piece around the candy bar and insert into the narrow space in the box.

FOR THE CARDS:

1. Score the Whisper White cardstock as noted in the directions, then cut the piece into **THREE 3” x 6”** card bases.
2. Stamp desired sentiments and images onto the fronts of the cards. Then use Stampin’ Write Markers to color the images. Fold card bases and insert in box with envelopes.
