WAR CALLS COME FIRST

Long Distance telephone lines are crowded these days with a heavy burden of war calls — calls of the Army, the Navy, and War Production. These war calls are urgent. We know you want them to have a clear right-of-way. Ordinarily we'd meet such a rush of calls by building new lines, installing new switchboards. But that's impossible now. The copper and other metals required for new lines and switchboards are going into munitions. That's why we're asking your cooperation to speed the calls of war.

HERE'S HOW

YOU CAN HELP

- 1 Don't make unnecessary Long Distance calls to Washington, D.C. or other war centers.
- 2 If you **must** use Long Distance, call before 9:30 A.M. if you can. Please save 7 to 10 P.M. for the service men.
- 3 Please be brief on **all** of your calls.

It's Easy to Dial

JUST FOLLOW THESE THREE SIMPLE RULES FOR LOCAL CALLS:

- 1 Look in the directory if you're not sure of the number.
- 2 Hold receiver to ear. Listen for dial tone—a steady humming sound. This is your signal to start dialing.

- 3 Dial the figures of the number as it appears in this directory. Pull the dial all the way around until your finger strikes the finger stop, then remove your finger and let the dial return by itself.

IF YOU NEED ASSISTANCE

Dial "0" (Operator) if you need assistance. But remember, it is faster to dial yourself. If for any reason you cannot see the dial, feel

PLEASE CHECK THIS LIST BEFORE MAKING CALLS TO NEARBY PLACES

Before making calls to nearby places, please check this list so that you will not call Long Distance unless your call is regularly handled by the Long Distance operator. To all places listed below, please place your call through your regular operator. By doing this, you will be freeing our Long Distance operators to handle the mounting volume of war calls.

Rates shown are station-to-station rates from Tinley Park for the initial talking period. This period is five minutes, with the exception of station-to-station calls of 30c or more—where the initial talking period is three minutes.

for the opening just below the finger stop. Pull the dial all the way around, release it, and the operator will answer.

TO CALL ANOTHER PARTY ON YOUR LINE

If you want to know who else is on your line, dial "0" (Operator) and ask for "Repair Service."

If you want to know the code of the desired party, dial "0" (Operator) and ask for "Repair Service." Give her your telephone number and the telephone number of the party on your line you wish to call. She will give you the proper code number to dial. Make a note of it for future use.

- 1 Dial the code number for the party you are calling.
- 2 After you have finished dialing hang up your receiver to allow the other party's bell to ring. Your bell will also ring at intervals indicating that the other telephone is ringing.
- 3 When ringing stops you will know that the other party has answered. Remove your receiver and proceed with conversation.
- 4 If your party does not answer within a reasonable period, remove your receiver momentarily in order to clear the line.

TO DIAL FROM A COINBOX LINE:

To call a local number:

- 1 Remove the receiver from the hook, and deposit coin.
- 2 Listen for the dial tone.
- 3 Dial the number wanted.
- 4 If call is not completed, hang up and coin will be returned.

To call out-of-town places:

- 1 Remove the receiver from the hook and deposit coin.
- 2 Listen for the dial tone.
- 3 For calls to Homewood—Dial "8." For any other call—Dial "0" (Operator). As soon as you have dialed either of the above, your coin will be returned.
- 4 When the operator answers, give the call to her; deposit the amount requested when the operator asks for it.

Useful Telephone Information

"PARTY LINE COURTESY" PAYS

Since telephone equipment is scarce, and military needs must be met first, more and more civilians may be using party-line service during the war.

The best party-line service for all depends on courteous use of the line.

If you're a party-line user, you can do your part. Listen a moment to make sure the line is clear before you call—try not to interrupt your neighbor's conversation. Hang up quietly if the line is in use. Keep your conversations short so others can use the line, too.

TELEGRAMS BY TELEPHONE

You may telephone telegrams, cablegrams, or radiograms to the Western Union Telegraph Company.

By arrangement with the Western Union Telegraph Company, the charges for telegraph messages sent by telephone will appear on your monthly telephone bill. On messages telephoned from public coin box telephones, you will be requested to deposit the telegraph charges in the coin box.

USE THIS DIRECTORY FIRST

Many calls to "Information" are unnecessary since they are for numbers which are listed in the directory. This is a serious waste of telephone time and telephone facilities since the Information operator must look in the directory just as you do. Every operator and all telephone facilities are needed to handle today's huge volume of war calls.

So please don't ask our Information operators to look up numbers unless you are sure they are not listed in this directory. Your cooperation is appreciated.

YOUR TELEPHONE NUMBER

Occasionally, in the past, we've had to change some telephone numbers. It may, likewise, be necessary to do so in the future.

We're sorry we can't say to you, "We'll never have to change your telephone number." As a matter of fact, we don't like to change them and won't do it unless it is absolutely necessary.

WAR LIMITS TELEPHONE SERVICE

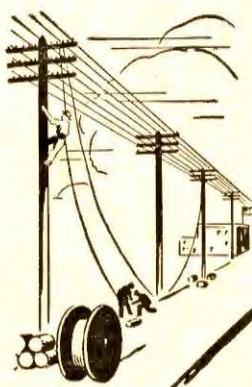

With metals and other materials as well as manufacturing facilities completely diverted to war purposes, restrictions on telephone service and equipment are in effect.

After more than three years of war, telephone facility reserves have been largely depleted, in spite of most conservative use. Delays in the installation of new service are generally inescapable as new installations can now be made only as equipment becomes available through disconnection of existing services and our first Tintley Park, Ill.

concern must at necessity be to supply the needs of the armed forces, war industries and persons whose need for telephone service is essential to the war effort, public health, welfare, or security. That we have been able to avoid more severe restrictions is a tribute to our customers who have cheerfully cooperated in getting along with a minimum of service and equipment.

If you are planning to move we suggest that you check with us well in advance on the service we will be able to provide.

YOUR OPERATORS EXPLAIN OUT-OF-TOWN CALLS

CALLS TO NEARBY PLACES

"I'm your regular operator, and I can connect you with many of the nearby places. (See list on page 2.)

"If you don't know the number, dial '0' (Operator) and ask for 'Information.'

"If the initial rate for your station-to-station call is 25 cents or less, five minutes is allowed without an overtime charge. If the initial rate is 30 cents or more, an overtime period starts after three minutes."

"LONG DISTANCE"

"I'm your Long Distance operator and your regular operator will connect you with me. Just ask her for Long Distance.

"My lines are usually over-crowded with war calls and we can't get copper for more lines. So please don't make unnecessary Long Distance calls. If

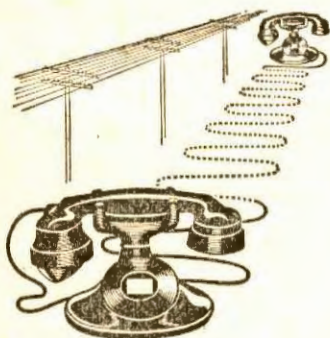

you must use Long Distance, call before 9:30 A.M. if you can. Please save 7 to 10 P.M. for the service men.

"Please give me the number of the called party if you know it; it will save time and equipment.

"During these war times, please try to keep your conversations as short as you possibly can."

STATION-TO-STATION

Place station-to-station calls when you merely want us to ring a telephone number. Charges begin when anyone answers at the telephone you call.

COLLECT CALLS

If you wish to place a collect call, the operator will ask the person you are calling if he will pay the charges. No additional charge is made, except on Station-to-Station calls where the initial rate is 20 cents or less.

If the party you want refuses to pay for the call, a Report Charge will be made on calls between points within the State of Illinois unless you decide to pay for the call yourself.

PERSON-TO-PERSON

Make a "Person" call when you want to talk to a particular person, or to a particular telephone or department reached through a private switchboard. Rates are higher than "Station" rates, but charges do not begin until the person or department you want is able to answer.

If you call from a point in Illinois to another point in Illinois, a Report Charge will be made if the person you want cannot be reached and you ask the operator to cancel the call.

REDUCED RATES

Between 6 P.M. and 4:30 A.M. and all day Sunday, reduced rates are in effect. They apply to "Station" calls if the initial period rate is more than 35 cents, and to "Person" calls if the rate is more than 50 cents.

DON'T CALL WASHINGTON—

Unless You Must!

With the war effort of 27 United Nations centered upon it, Washington is probably the busiest city in the world. It is fast outgrowing its physical limits — and its telephone facilities.

Since Pearl Harbor, Long Distance telephone traffic in and out of Washington has jumped sky-high.

New construction would normally take care of the increased load. But copper, rubber and aluminum are even more critically needed for the fighting fronts. So, please do not call anyone in Washington unless the need is urgent.

Give the Person You Call Time to Answer

Time passes slowly when you are waiting at the telephone for some one to answer your call. A few seconds may seem like a couple of minutes.

When you make a telephone call give the person you are calling plenty of time to answer. He may be far from the telephone or may not have heard it ring the first time. He may have been delayed in answering.

By waiting a short time you may save yourself the trouble of calling again.

ILLINOIS BELL TELEPHONE
COMPANY

YOU MAY BE ASKED TO
SHARE YOUR TELEPHONE LINE
WITH OTHERS

If you have a one- or a two-party line now, it may become necessary to put additional persons on your line, for the duration. This is a necessary war measure.

Uncle Sam's need for copper, tin, rubber and other critical raw materials must be met first. This means that new telephone lines can't be built and existing facilities must be stretched and shared as much as possible.

We know, of course, that with more persons on the line your service will not be as convenient as before. But this temporary arrangement is the only way that necessary service can be provided for as many as possible.

A friendly spirit of "share and share alike" will enable you and the others on the line to have telephone service that will still be ten times better than service to be had in any Axis country.

PLEASE

. . . *don't* telephone during, or immediately after, a big fire, explosion, air raid alarm, or any general emergency. Telephone lines, *must* be kept clear so that doctors, police, firemen, and civilian defense authorities can make emergency calls. However, if your telephone rings, please answer it.

REGULATIONS

APPLICATIONS

Applications for original establishment of service must be made on the Telephone Company's standard application forms. Requests from subscribers for additional service, equipment, etc., may be made orally or in writing, and upon approval, or installation of the service, become a part of the original application. An applicant for service must pay all previous indebtedness to the Company for telephone service before service will be furnished.

ESTABLISHMENT OF CREDIT

In order to insure the payment of all charges due for its service, the Telephone Company may require any subscriber to establish and maintain his credit in one of the following ways:

- (1) By furnishing references acceptable to the Telephone Company.
- (2) By providing a suitable guarantee in writing, in form prescribed by the Telephone Company.
- (3) By means of a cash deposit.

The Telephone Company may require the subscriber to increase the amount of the deposit at any time if, in its opinion, the charges billed against the subscriber are found to warrant such an increase.

Interest at the rate of not less than 5% per annum shall be paid by the Company on all deposits made for the purpose of establishing credit.

Service may be discontinued for failure to establish credit, as authorized above, within five days after the Company has served or mailed notice requiring the subscriber so to do. Where service has been discontinued for failure to establish credit as authorized by these Regulations, the regular restoral charge will be made and collected by the Company.

OWNERSHIP AND USE OF THE EQUIPMENT

Equipment, instruments and lines on subscriber's premises, furnished by the Telephone Company, shall be and remain the property of the Telephone Company, whose agents and employees have the right to enter said premises at any reasonable hour for the purpose of installing, inspecting, or repairing the instruments and lines or for the purpose of making collections from coin boxes and, upon termination of the service, for the purpose of removing such instruments and lines. Such equipment is not to be used for performing any part of the work of transmitting, delivering or collecting any telephone message where any toll or consideration has been or is to be paid any party other than the Telephone Company, without the written consent of the Telephone Company.

Subscribers must not use or permit to be used any electrical or mechanical apparatus or device in connection with the equipment or facilities furnished by the Telephone Company without the written consent of the Telephone Company, or permit the attachment of any advertising devices, except upon the approval of the Telephone Company. In case any instrument, apparatus, or device of any kind other than that furnished or approved by the Telephone Company is attached to or connected with any part of the Telephone Company's property, the Telephone Company shall have the right to remove such instruments, apparatus, or devices or to suspend the service so long as such instruments, apparatus, or devices are so attached or connected, or to terminate the service.

INTERRUPTIONS TO SERVICE

When requested by the subscriber, if service is interrupted for more than 24 hours, and for causes other than

the negligence or willful act of the subscriber, an allowance shall be made, at the minimum rate for the telephone facilities and class of service affected by the interruption, for such time as the interruption continues. No other liability shall attach to the Company in consideration of such service interruption.

TELEPHONE NUMBERS

The subscriber has no property right in the telephone number or any right to continuance of service through any particular central office. The Telephone Company may change the telephone number or the central office designation, or both, of a subscriber whenever it deems it desirable in the conduct of its business so to do.

TELEPHONE DIRECTORIES

Directories regularly furnished to subscribers are the property of the Telephone Company, are loaned to subscribers only as an aid to the use of the telephone service, and are to be returned to the Telephone Company upon request or when new directories are issued. The Telephone Company shall have the right to make a charge for directories issued in replacement of directories lost, destroyed, defaced, or mutilated while in possession of subscriber.

No liability arising from errors or omissions in the making up or printing of its directories shall attach to the Company except in the case of charge listings, in connection with which its liability shall be limited to a refund at the monthly rate for each listing for the time an error or omission continues after reasonable notice in writing to the Company.

USE OF SERVICE

Subscriber telephone service is furnished only for use by the subscriber, his family, employees, or business associates, or persons residing in the subscriber's household, except as the use of the service may be extended to joint users or to persons temporarily subleasing a subscriber's residential premises. The Telephone Company has the right to refuse to install subscriber service or to permit such service to remain on premises of a public or semi-public character when the instrument is so located that the public in general or patrons of the subscriber may make use of the service.

PAYMENT FOR SERVICE

The subscriber is required to pay, in accordance with the Telephone Company's established tariffs, collection and billing practices, all charges for exchange service and equipment, and for all toll messages or service rendered to his station, including all toll messages on which the charges have been reversed and accepted by any party at his station. All bills are due when rendered and are payable at the Telephone Company's business offices.

In the event that any sum due (except as provided below) is not paid on or before the 14th day after the issuance of the bill, a written notice may be sent to the subscriber, calling attention to the fact that the amount is due; and, if payment is not made within seven days thereafter, the Company may deny service without further notice.

When the service of a subscriber has been denied in accordance with the preceding paragraphs, but the service has not been terminated or the order to remove the service has not been completed, if such service is restored, a Restoral of Service Charge of \$1.00 will be made. In case service has been denied, in addition to the restoral of service charge, the subscriber will be required to pay all service charges up to the time of restoral of service. Subsequent to the completion of an order to terminate the service, it will be reestablished only upon the basis of a new service application.

These Regulations are Excerpts from the Official Regulations of this Company as on File with the Illinois Commerce Commission, December 1, 1944.
