OUR obligation as a public utility requires that we make every effort to furnish service to all who apply. In doing this we constantly add to the value of our service to old subscribers by extending their range of communication. Cost levels to-day are much higher than in the past and result in more expensive plant construction, thus increasing our average capital investment per telephone, upon which a fair return in interest and dividends must be earned.

FROM the telephone on your desk or in your home it is possible to reach any one of more than 15,000,000 other telephones in the United States and Canada. It will pay you to use the service regularly, not merely in emergencies.

Get acquainted with the money and time saving features of our station-to-station long distance service. The evening rate for station-to-station calls is about 50 per cent less than the day rate, and the night rate (midnight to 4:30 a.m.) about 75 per cent less than the day rate.*

Regulations

To establish credit an applicant who is unknown to the Company is required to make an advance payment for not to exceed three months' service.

Where the cost of installation is out of proportion to the exchange revenue it produces, the subscriber will be required to pay a reasonable proportion of such cost.

Following the acceptance of the Company of an application for service, the Company assigns a telephone number, but this number is not a part of the contract and may be changed at any time at the discretion of the Company.

Under average conditions the Company requires ten days to arrange for and complete an order to install or move a telephone.

To guard against interference with the service unauthorized attachments with the telephone lines or instruments are prohibited.

For any complete failure of service, of which notice in writing has been sent to the Company's Business Office, and which has continued for more than twenty-four hours thereafter, an abatement of the contract charge shall be made for the period of such interruption.

The continuous use of a party line is limited to five minutes. Party line subscribers are necessarily associated on the line with others located nearest to them and using the same class of service. Mutual accommodations usual in public service of any kind, where two or more persons are jointly concerned, should be extended between party line users.

Where the service of a subscriber is temporarily discontinued and the telephone number is retained during absence on vacation, one-half the regular rental shall be charged, during such period, provided written notice of the temporary discontinuance of service is given to the Company in advance.

Bills are rendered once a month, to cover (a) one month's charges for local exchange service in advance, and (b) toll and other charges in arrears. Bills are payable at the office of the Company. If not paid on or before the fifteenth day

after issuance of the bill, written notice calling attention to that fact will be sent to the subscriber; after which action the service may be discontinued, without further notice, if a settlement of the account is not made by the seventh day.

When settlement of the bill is made before telephone instruments have been removed from the premises, service will be restored upon payment of the following restoral of service charge:

- a. If service has been suspended one way only.....\$0.50
- b. If service has been suspended both ways 1.00

Measured Service, where furnished, is billed on a monthly period guarantee basis, the bill for each period to cover (a) the guaranteed charges for one month in advance, and (b) additional messages and toll in arrears. Failure to use the minimum guaranteed number of messages in any monthly period, or the use of messages in excess of such number, does not entitle the subscriber to any allowance in any other monthly period.

One Incoming line (one-way service) furnished only for each individual two-way flat rate line or two-way trunk line.

Not more than two joint users will be allowed on P. B. X. or individual line service; and not more than one joint user in connection with a party-line subscriber.

Four Party Service is furnished only where at least two subscribers within the limits of a single block apply for such service, or there is a vacancy on an existing circuit.

Two-party service beyond the established exchange area will be furnished only where two parties outside said area, but within one-quarter mile of each other, apply for service at the two-party rate.

Four-party service beyond the established exchange area will be furnished only when at least three parties outside said area, who are within a radius of one-quarter mile of each other, apply for the service at the four-party rate.

Rural Service is furnished only where at least two subscribers are secured for each one mile of line built.

Turn your telephone into a salesman and keep it busy.

"Long Distance" can bring many distant

"prospects" within sound of voice.

ILLINOIS BELL TELEPHONE COMPANY

**There are only a few of your customers
who have your telephone call in their minds**

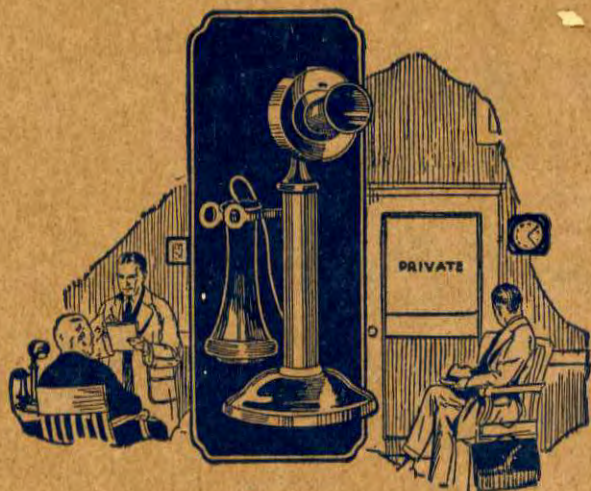

Your other customers and the expected new ones depend on this Directory as a medium for reference when they want to buy. Unless you are classified where they can readily find your telephone call, you are missing business that should be yours.

Can show you how to safeguard the lost calls

Don't "Cool Your Heels"

MUCH time is wasted by salesmen and others who call upon business men without appointment and are kept waiting in ante-rooms.

This can be avoided by making definite appointments by long distance telephone before you start on your out-of-town trip.
