We expect those doing business with CA Ventures to operate in accordance with similar values and in a manner that is consistent with prudent business practices. We also promote innovation. Responsible Contractors are encouraged to bring forward innovative products and services that are consistent with these values as well as promote healthy, vibrant spaces for our tenants and employees.

We further expect that Responsible Contractors who agree to comply with this Code are responsible to ensure their subcontractors, business partners and suppliers (the “Supply Chain”) act in a manner consistent with this Code and all applicable local, city, state, federal and international laws, rules and regulations.

We understand that Responsible Contractors are independent entities, but the business practices and actions of a Responsible Contractor may significantly impact and/or reflect upon us, our reputation and our brand, which is one of our most important assets. Because of this, CA Ventures expects Responsible Contractors and their employees, agents and subcontractors (their representatives) to adhere to this Code while they are conducting business with and/or on behalf of CA Ventures. All Responsible Contractors should educate their representatives to ensure they understand and comply with this Code. Among other things, this means that the representatives of Responsible Contractors must always behave in a respectful and civil manner when interacting with our employees or with other third parties when acting on CA Ventures’ behalf.

COMPLIANCE WITH LAWS, REGULATION AND RULES

In all their activities, Responsible Contractors shall ensure they conduct business in compliance with applicable laws, regulations and rules:
