Since 1969, Electro-Matic has helped transform American industry by supplying automation components and solutions to leading U.S. manufacturers. Today, Electro-Matic continues to leverage the value of emerging technologies by developing practical applications for industrial, commercial, and retail markets.

As a technology company, we help our customers enjoy the benefit of a supplier partner intently focused on delivering strong value-for-value relationships while turning innovation into value.

**Products**

**Electro-Matic Products**

provides everything you need from one source: technology and motion control solutions, a full range of drive and automation technology as well as pre- and after-sales service.

**Core Products**

- Factory Automation Components and Software
- Industrial Control Products
- Ethernet: Switches, Wireless AP/Clients, Cable / Connectors
- Human Machine Interfaces
- Safety Integrated Components
- Programmable Logic Controllers
- Industrial Computers
- General Purpose Motion Control

**Electro-Matic Integrated**

provides global cable-based industrial solutions and custom value-added products, services and solutions for automation control applications. Our Total Solutions start by providing start-up technical assistance, design, assembly and operator training.

**Core Products**

- Industrial Automation Connectors
- Servo Motor Power and Feedback Cable
- Multi-Conductor Tray Cable
- VFD Cable
- Integrated Safety Systems
- Cable and Hose Carrier Assemblies
- R.F.I.D.

**Electro-Matic Visual**

is a provider of innovative and energy-efficient LED display and LED lighting to the commercial and industrial markets. Electro-Matic's turnkey approach to LED Lighting and energy solutions can help show you LED technology can improve your profits by improving production efficiencies, increasing top line sales, improving your profit margin mix, and reducing your energy costs with a new installation or retrofit.
