-WALKTHROUGH-

Boarding is from midship boarding gates, the aft deck gates, or the large swim platform with molded stairs to the aft deck. The aft deck alfresco dining table seats eight with fixed and movable seating accompanied by wet bar, sink and large ice machine for total bar/dining experience.
Full walk around side decks offer access to the foredeck lounging area.

The main salon is accessed through a custom stainless-steel door, electrically operated. Once in the main saloon, a white leather sofa to port and two white leather swivel occasional chairs opposing with a pop-up TV between.
Forward of the sofa, next to large windows is the dining table for six.
Forward of the occasional chairs is the holly teak stairway to the bridge level.

The galley forward of the salon on main deck level is fully equipped with all the chef amenities. The granite topped breakfast bar with four white leather bar stools is the perfect place for a staging area before dinner or hanging out while meals are prepared.
The 270-degree windows in the galley makes this view special, it is simply comfortable with a spectacular view.

-Galley Equipment -

Galley doors port and starboard provide access to the side decks, while immediately forward is the staircase leading down to the guest staterooms.

-Four staterooms on the lower deck all with en suite heads-
Forward is the VIP Stateroom with centerline queen berth.
Aft and down two steps are the twin staterooms, to port and to starboard, with a side by side and over under berths.
Moving aft is the master stateroom features two double berth, each with night stands large head and opening ports.

-The Enclosed Bridge Wheelhouse -
The wheelhouse has three helm chairs, unobstructed visibility, and a fully equipped helm station with all the necessary electronics for safe cruising, with port and starboard wing doors leading to the full walk around side decks accessing the plug-in wing control stations.
There is a panoramic view around the bridge lounge, two leather swivel occasional chairs with a teak table, ideal to enjoy cocktails while underway.
The bridge deck day head is hard to find and the perfect complement to the bridge and sky lounge experience.

-The Flybridge Sky Lounge-
The Flybridge offers an additional, fully equipped helm station and seating area, all protected from the elements by the molded hardtop.
Cabinetry along the port side provides a full wet bar with under counter drawer refrigerator/icemaker and storage
On the aft bulkhead are cabinets with room for the yacht's records
Aft of sky lounge is the boat deck with BBQ station hidden in a molded cabinet along the bulkhead, davit and a 15' Highfield RIB tender with 50 HP Yamaha outboard. Stairwells lead down the main aft deck or up to the flybridge.

-The engine room and crew quarters-

Accessed from the swim platform, or a comfortable stairwell located along the starboard side deck, the crew quarters offer four large upper and lower berths, enclosed head with shower and crew galley. The engine room is accessed through the forward bulkhead and is well arranged, meticulously appointed and offers a wide array of equipment from many of the industry's most reputable and reliable manufactures with parts and service easily and economically available globally.

-President Yachts International-

Founded in 1968, President has been a respected ship builder in Tainan City, Taiwan, facilitating design, composite production, high-end joinery, engineering, sea trials, general testing and delivery. The shipyard employs 150 craftsmen, engineers, designers and support staff, and has crafted over 1,200 yachts, many built to BV (Bureau Veritas) and Italy's RINA classifications.

The company's design, development, and manufacturing achievements have received CE certificate from RINA, allowing their yachts to be exported to European Union countries, as well as the ISO 9001 quality system certification from Bureau Veritas.
