

A great career. A great life.
It all happens here.

RESPIRATORY AND SLEEP THERAPY CAREERS

Technical expertise is essential to the healing process, but to Carilion Clinic, nothing is more vital than compassion. That's why the members of our respiratory and sleep therapy teams approach their profession with the utmost care for each and every patient and those around them. By keeping compassion at the heart of what we do, we clear a path for progress, and put concerns to rest.

**Because to Carilion,
that's what care is about.**

CARILION CLINIC

Inspiring better health.™

RESPIRATORY AND SLEEP THERAPY CAREERS

At Carilion, you'll be empowered to develop and thrive. You'll be part of a technologically advanced, innovative organization where compassionate people make a difference in patients' lives every day.

Our respiratory and sleep therapists have opportunities to conduct research and work with medical directors who participate in the development of department protocols that enhance the practices of both respiratory and sleep therapy. With our fully integrated system of electronic medical records, we take patient care to a higher level of safety, efficiency, and convenience by ensuring that the right people have the right information at the right time.

Respiratory Therapy

Respiratory therapists have important roles on our award-winning patient-care team. We have excellent career opportunities in the following areas: cardiac, emergency, medical/surgical, neuro, intensive care, and NICU/PICU. There are also opportunities for advancement as clinical instructors and team leaders.

Carilion Sleep Centers

Carilion has four sleep centers, in Roanoke, the New River Valley, Smith Mountain Lake, and Lexington. These centers provide complete evaluation, testing, diagnosis, and treatment for all types of sleep disorders, and they use the latest technology for diagnosing and treating sleep/wake disorders.

Our specialized team of sleep professionals is dedicated to providing the highest quality of sleep care available to children and adults.

Sleep Center Staffing Facts

- Clinical staff who are also credentialed as registered polysomnographic technologists and/or licensed respiratory care practitioners.
- Flexible scheduling that includes a three 12-hour option or a four 10-hour option.
- Opportunities for training individuals with respiratory care, EEG, EMT, or other allied health backgrounds for Tech I positions.
- Professional development that emphasizes attaining RPSGT credentialing and Tech II level.
- Monthly staff meetings and sleep conferences to discuss case studies and the latest topics of interest.

BEYOND BENEFITS

No matter what the position, each employee at Carilion plays a vital role in helping our patients achieve the best possible outcomes. As a member of our team, you'll not only be rewarded with a great career, but you'll be eligible for perks like educational opportunities, health and wellness benefits, and more. As an employee, you'll enjoy additional rewards, including:

- Flexible self-scheduling, performance-based raises, and pay incentives
- Certification bonuses
- Registry exam reimbursement
- Participation in therapist-driven protocol development and usage
- CE programs on site at no charge

THE REGION WE SERVE

Carilion Clinic, headquartered in Roanoke, Va., provides care for the area's nearly 1 million residents through a comprehensive network of hospitals, primary and specialty physician practices, home care, hospice, and other complementary services.
