

## NEEDLE RUST REMOVER PISTOL SHAPE

Air Connection Thread	1/4"
Impact Rate	3400bpm
Weight	3.08lbs
Recommended Hose Diameter	3/8"
Air Consumption	1cfm
Operating Pressure	90psi
Sound Power Level	105,5dB(A)
Sound Pressure Level	94,5dB(A)
Vibration Acceleration	6,4m/sec <sup>2</sup> / K=1,13m/sec
Needle Diameter	3mm
Number of Needles	11
Dimensions (L x W x H)	8.78x2.2x6.52inch

- Effective removal of rust, coatings, contaminants and stubborn residues from metal surfaces.
- Ergonomic compact construction provides access to confined work areas.
- Vibration-reduced design with ergonomic protective sleeve.
- Professional tool for industrial surface cleaning and preparation.
- Equipped with durable precision needles.

Applications: Corrosion and coating removal, cleaning of bolts and connection points, cleaning cast steel, surface preparation for coating processes, also suitable for stone and concrete.
