Errata as of April 1, 2019

## *Rulebook*

### **Addition:**

7.1 – both sides may also pay 1 supply point to repair one step from a damaged aircraft.  
Aircraft that have been destroyed may not be rebuilt.

### **Correction:**

7.1 – the entry for Hidden Tunnels (3<sup>rd</sup> one from the bottom on the blue table) has a typo – ignore “...Variable cost to perform an HQ mission”)

### **Correction:**

14.1.2.2 – last paragraph should start with “Fire Bases” – not Fire Zones

### **Correction:**

14.1.3 – the rules for Amphibious movement changed very late in the process and there are some contradictions in the rules....rule 14.1.3 is the correct rule for amphibious movement and takes precedence over all other rules regarding amphibious movement.

### **Addition:**

14.4.2 Communist Line of Communication

PAVN HQs have a LOC if within 15 movement points to any PAVN supply source, PRC Supply Source (if the PRC have intervened) or any functioning Ho Chi Minh Trail terminus.

It is of course the 173<sup>rd</sup> Brigade (not Division) and Cavalry is misspelled on the 1<sup>st</sup> Cav emblem.

## *Scenario Book*

Scenario 3 and 4 should not have the Communist HQ mission already chosen. You start the turn with the beginning of the Sequence of Play and chose (and pay for) whatever mission you want to be on that turn.

Scenario 3 and 4 should have the 7<sup>th</sup> Fleet at Yankee Station.

### **Campaign Game victory conditions:**

- Delete the +1 VP for Thunder Road being Capitalist controlled in the “Awarded as they occur” section (it is covered later).
