

# CLOUD-BASED ACCESS CONTROL

DESKTOP

TABLET

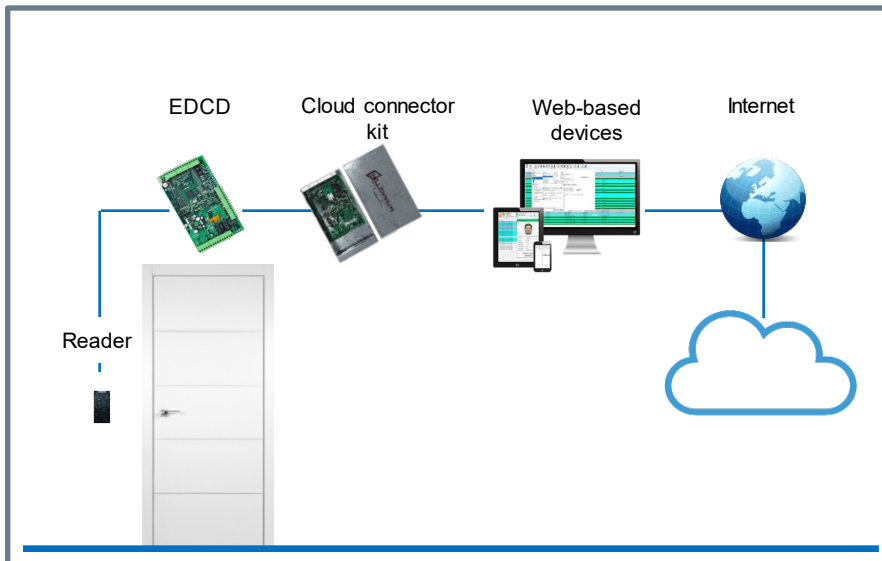

MOBILE

The Access control platform created to save you management time and resources

Enjoy the Millennium Ultra software without the need for dedicated access control servers, software installations and ongoing maintenance or backups. The cloud-hosted Access Control Solution is designed for a fast and easy installation with full features, capabilities and reliability just like the stable on-premise solutions you expect. Cloud-hosted offers hands off maintenance and leads to the elimination of operator errors from manual upgrades and system updates.

The Millennium Ultra cloud-hosted system is flexible to fit any size installation. It is available for single door sites and is expandable for sites with thousands of doors

Cloud-hosted system topology

## Lower costs

Only pay for the system capacity that you need  
Easily expandable  
Subscription based reduces capital outlay, covers service provisioning and remote support

## Shift burden

System is always up to date, available and fully backed up, giving you peace of mind and eliminates the need for training of maintenance staff

Seamless system upgrades from on-premise server to hosted solution

## Save time

Eliminate need for dedicated on-premise servers, minimizing system set-up time

Automatic system upgrades and updates saves management time and reduces dependence on physical maintenance staff
