## Product Bulletin Wapac Hardware End of Life Notice

Dear Valued Customer,

The Millennium Group is dedicated to ensuring that our customers continue to receive the quality and performance that have been a hallmark of our products for more than 50 years. As part of that commitment, we have consistently supported obsolete product lines to ensure that customers receive the maximum lifetime value in their electronic access control system investments.

Unfortunately, as technologies, components and manufacturing techniques evolve it becomes increasingly difficult to produce outdated printed circuit boards forcing us to occasionally discontinue very old product lines.

After more than 30 years of availability, today we are announcing the end of life for all remaining Wapac hardware, including the following devices.

Item	Description	Part Number
Wapac Board CC1065NW	Dial Up Communication 4 Readers, 9 I/O	06 5009
Wapac Board QRC1065W	Direct Wired controller 4 Reader 9 I/O	41 0015 or 06 4005
Wapac PIO Board CC1065AREW	Wapac Input/Output programmable controller 16 Inputs, 16 Outputs	06 6002
Wapac PIO Board CC1065 AW	Wapac Inputs programmable controller 16 Inputs (no Relays on the Board)	06 6004

To ensure that those dealer partners that continue to support the small number of customers still on the Wapac platform can manage the transition with their end user customers we are offering the following end of life support and migration program

- A limited inventory of discontinued boards will be placed in inventory and sold on a first come, first serve basis. We will accept orders while supplies last, subject to product availability but not later than Dec 31, 2017
- To facilitate migration of existing Wapac installations onto our current Millennium Ultra platform, we will provide a 20% credit on Millennium manufactured EDCD and ESCU devices for each Wapac board returned to Millennium Group. Up to 4 EDCD's can be purchased per Wapac board returned at the discounted price.<sup>1</sup>

To place a final Wapac hardware order or for more information on our Wapac migration program please contact your Millennium Sales Representative or Customer Service.

Thank you for your continued interest in Millennium Group Products and Solutions.
