

Millennium Ultra

Update Version 4.5.0 Release Notes

August 27, 2020

---

Contents:

1. New Features and Enhancements
2. Software Bugs addressed

1. New Features and Enhancements

- Auto import configuration page added. Now operator can configure automatic import by using Ultra user interface (before it was a configuration file in xml format)
- NFC tags support added to Ultra Mobile Connect functionality. Now administrator can prevent the door unlock without presenting mobile device to the reader (if necessary). If the door has the NFC tag cardholder can open this door by one click confirmation, don't need to select this door from the doors list

2. Software Bugs addressed

- Events/Alarm colors schema moved to default values after the system update. This bug is fixed.
- Multiply minor fixes
