

Millennium Ultra

---

Update Version 2.10.0 Release Notes

July 26, 2018

Contents:

1. Software Bugs addressed
  - Removed tenant filter from Extended Hot command page. Now operator can assign hot commands from different tenants to Ultra Alarms
  - Cardholder import timeout bug fixed
  - Ultra integration with Ving Card improvement added. Now corrupted cards will not stop other cards from correct downloading to the Ving Card system
