HS HISTORY OF HIXSON

Hixson Lumber Sales has adhered to a policy of providing consistent quality and exceptional service to our customers since 1959. This philosophy has established us as a major supplier of wood products for over 50 years.

We proudly offer one of the most extensive inventories available to our industry, but our greatest source of pride is our knowledgeable staff and the "Can Do" attitude which prevails throughout our organization.

HS LOCATIONS & DISTRIBUTION

Hixson Lumber Sales has grown into a recognized leader in the wood preservation, lumber manufacturing and distribution industry. With modern and strategically located plants throughout the southwestern and central United States, our customers are assured of consistent product quality and timely delivery.

PRODUCTS

SERVICES

At Hixson Lumber Sales, we realize that with the diverse and ever-changing needs of our customers, it is critical that we supply their demands as quickly and effectively as possible.

Our inventories consist of dimension lumber, timbers, boards - S4S and pattern, decking and plywood in all grades of Southern Yellow Pine. All of these products are available untreated, as well as treated with CCA*, ACQ*, MicroPro®, Fire Retardant, Borates or KDAT.

We offer a wide variety of services such as dry kilns, planers, moulders, resaws and trim saws. Our treating services include CCA*, ACQ*, MicroPro®, Fire Retardant, Borates, and KDAT. Whatever the service our customers need, chances are we can do it.

We stock a full line of deck accessories, including spindles, balusters, handrails, step stringers and porch posts. We stock both domestic and imported fence pickets and panels, and we also carry SPF and pattern lumber.

If we do not have what our customer requires, readily available, every effort will be made to obtain the product they need when they need it.

The MicroPro Treated Wood Process is certified under SCS's Environmentally Preferable Product (EPP) program based on Life-Cycle Assessment.

*CCA pressure treated wood products are treated with Chromated Copper Arsenate. ACQ pressure treated wood products are treated with Alkaline Copper Quaternary Compounds. MicroPro pressure treated wood products are treated with MicroPro Copper Azole. MicroPro is a registered trademark of Osmose, Inc.

HS MANUFACTURING & SHIPPING

For over 50 years, Hixson Lumber Sales has been an industry leader in the manufacture of boards - S4S and pattern. We can provide 1x4 through 1x12, C and better to #4, special order timbers, treated and untreated. Our experienced sales staff can handle all of the needs of our customers from 1"- 20" rough sawn, S4S and pattern Yellow Pine.

We feel that shipping is one of the most important aspects of our business. When an order is placed, it is vital that the customer receives it in a timely manner. To ensure prompt service, we contract over 250 dedicated trucks.
