

FIRE RATED FIBERGLASS DOORS BUILT FOR SAFETY AND STRENGTH

EXPANDED HEIGHT OPTIONS DELIVER PROVEN PERFORMANCE AND CODE COMPLIANCE— NOW IN BOTH 6'8" AND 8'0" CONFIGURATIONS.

When safety, durability, and design flexibility matter most, ODL 20-Minute Fire Rated Fiberglass Doors deliver. Certified for UL-Code compliance, our fire rated doors are engineered to meet national code requirements* for multi-family projects and residential house-to-garage applications.

Now available in 8' heights, this expanded lineup provides the confidence and choice professionals need to specify the right door for every build.

ESTATE & SHAKER
COLLECTIONS

ODL's 20-Minute Fire Rated Fiberglass Doors combine tested fire resistance with the lasting performance of fiberglass—offering a dependable solution for safety-rated entryways.

PRODUCT FEATURES

Certified Performance

Tested to withstand a minimum of 20-minutes of fire exposure at temperatures that can reach above 1,400°F.

UL-Code Compliance Certified

20-minute, category "B" positive pressure fire rating with hose stream.

Expanded Options

Now available in 6'8" and 8'0" heights in our Satin Smooth texture.

Enhanced Construction

Features a 4" full-length engineered lumber lock stile for added structural performance and security.

Reduced Weight

Lighter than other fire rated doors without sacrificing quality, durability and safety.

Durable & Low Maintenance

Fiberglass is more resistant than steel—won't dent, scratch, or rust—ideal for high-traffic, heavy-use environments.

LIMITATIONS: Single units only. Approved for cylindrical latch and dead bolt—maximum 2 3/4" backset. Permitted surface mounted listed and labeled hardware. Produced once each month, contact your sales representative for next production date.

*To confirm code requirements in your jurisdiction, always check with your local building code authority.
