Enclosed Blinds
Color Collection

Enclosed Blinds Color Collection

In keeping with Western Reflections attention to style and design, we are introducing four NEW colors of Enclosed Blinds: Sand, Espresso, Slate Gray, and Silver Moon. With matching privacy channels and operators, the colors of your entry door blinds will always coordinate with your décor. The collection is available in Evolve® frames which provide superior rigidity and eliminate bothersome squeeze out using our dry glaze seal.

Renew your style with our NEW Enclosed Blinds Color Collection.

Light and Privacy Control

You can close your blinds for complete privacy and security or open them up to enjoy the outdoors—and every level in between. The levels of light and privacy are yours to control using our easy operator. The full privacy channels eliminate light gaps, shadows, and sunlight glare. The new colors are offered with Low-E + glass and can meet ENERGY STAR® requirements when used with an ENERGY STAR® qualified door.

Low Maintenance

Since our blinds are enclosed between two panels of glass, you never need to dust which decreases allergens. Even with repeated use, our Enclosed Blinds retain their new look, unlike exposed blinds that can become bent or tangled over time. Western Reflections Enclosed Blinds carry a **20-year warranty** on blinds, glass seal and operator for a long-term performance in your exterior door.

Safety

Western Reflections is leading the industry in enclosed blinds that reduce the safety risk for children and pets. Because our Enclosed Blinds do not have dangling cords, they have received two certifications.

WCMA's "Certified Best for Kids" designation and Parents for Window Blind Safety (PWBS) Seal of Approval.

Both organizations strongly urge parents to use window coverings without accessible cords in homes with children. In addition, all of our Enclosed Blinds are offered in tempered safety glass.

Easy to Operate

The ergonomically placed single* operator lets you tilt, raise and lower your blinds the entire length of the doorglass with only the slightest movement. No reaching or stooping is needed to adjust the blinds.

* Due to the size and weight of the blinds, the 80" sizes have a dual operator that controls the raise, lower and tilt function.
