

Intelligent software to engage and help students succeed

The best way to track student engagement

EdX.ai's Check-In system modernizes student engagement. Learn usage, collect check in and delight them with a personalized experience — all on the iPad.

Engineered to help students succeed

Don't let your inflexible, legacy student engagement systems hold you back. With EdX's system you can unite your campus under one modern application.

SETUP AND MANAGEMENT

Manage from the cloud

Configure location settings, export check-in data and manage student engagement wherever you are via the web application.

Streamline student check-in

No more switching between applications, paper forms, Excel spreadsheets and databases. EdX simplifies the check-in process and puts everything in one place.

Be in the know

Create customized fields that allow you to see which of your services students are most interested in and when they are most engaged.

Manage multiple locations

Multiple academic and student services offices across your organization? We understand. Configure all locations and iPads from one intuitive web application.

Role-based access

Provide the right level of access to your organization, admin team, and staff by controlling actions based on security roles.

ACTIONABLE INTELLIGENCE

Simplify analysis

Tap into data to find answers faster and deliver real-time operational intelligence that helps students succeed.

Focus on success, not paperwork

Intuitive features and unlimited student check-ins allow you to accurately capture data and analyze engagement trends.

Effortlessly view check-in data

EdX dashboard displays real time check-in student list. With just one click you can view historical trends and service utilizations.

Win back your time

Get the big picture of where your hours are going, tweak your work and get more time for engaging with students.

Make informed decisions

Get deep insight into how your location is doing, make informed decisions and get your engagement growing.

STUDENT EXPERIENCE

Make that first impression

Deliver an extraordinary first experience via the iPad app that aligns with modern students' expectations.

It's easy

Tap to begin. Enter ID. Success.

Hassle-free check-in

EdX makes check-in so simple, students actually use it. But even if they forget, our system allows for manual check in. We've got you covered.

Set notifications

Set notifications for your team when students check in. You'll never waste time tracking down students again.

The screenshot shows a web browser window with the EdX dashboard for Colorado College. The breadcrumb trail is: All Locations / Center for Diversity and Inclusion / Alecia Bubash - May 2, 2018. The 'Personal Information' section includes:

Name	Alecia Bubash
Email	alecia@coloradocollege.edu
ID Number	4221901

The 'Other Check Ins at Center for Diversity and Inclusion' section shows a table with the following data:

Date	Device Used
May 2, 2018	
April 30, 2018
