Notes to Report of Key Operating Exchange Statistics

1. Summary of Significant Accounting Policies

The accompanying Report of Key Operating Exchange Statistics of The Elite Alliance exchange program (the “Program”) includes the exchange statistics of The Elite Alliance, LLC (the “Company”), a Texas limited liability company, as of and for the year ended December 31, 2021. The statistics reflected in the Report of Key Operating Exchange Statistics have been computed and are disclosed in accordance with Sections 721.18(1)(q) and (r) of the Florida Vacation Plan and Timesharing Act.

2. Description of Company

The Program was established to facilitate the exchange of accommodations between members of prestigious residence clubs and luxury professionally managed homes (the “Residence Clubs”) that meet the standards of and are affiliated with the Program. At December 31, 2022, the Program had 83 participating Residence Clubs.

3. Membership

Purchasers of an ownership interest in a participating Residence Club are given the voluntary opportunity to participate in the Program. Members are currently charged an annual membership fee and a transaction fee for each exchange. A member’s participation in the Program is dependent upon the continued affiliation of the Program with the Residence Club from which the member's ownership interest was purchased.

4. Exchange Requests

All exchanges are based on availability. Accordingly, the Program does not guarantee that members will receive a specific exchange choice. In order to make an exchange, members must:

- a. Secure a vacation at the Residence Club from which the member purchased their ownership interest and deposit the secured vacation with the Program in accordance with procedures provided in the membership agreement and by the Company. Once a vacation has been deposited into the Program, Elite Credits are awarded. Elite Credits may vary from Residence Club to Residence Club and are determined based on seasonality, destination and bedroom category.
- b. Accept an alternate vacation in accordance with procedures provided in the membership agreement and by the Company and submit the exchange fee, so long as the member has the proper amount of Elite Credits within their member account.

Elite Credits expire twenty-four (24) months from the arrival date of the Vacation that the Member deposits, if the deposit is made at least ninety (90) days from the arrival date of the deposited vacation, or if deposited less than ninety (90) days from the arrival date of the deposited vacation, when the deposited vacation is selected by another member for exchange. The Elite Credits allocated to a Member for a Deposited Vacation may be used in part or in whole. If a member does not submit an Accepted Vacation Form within

such twenty-four (24) month period, the Member will no longer be able to redeem their Elite Credits unless they elect to extend their Elite Credits. When accepting a vacation, should a member have insufficient Elite Credits in their account, the member may purchase additional Elite Credits. A member may cancel an accepted vacation by providing written notice to the Company. If a member cancels an accepted vacation ninety (90) days or more prior to the arrival date of that vacation, the member may accept a new vacation. However, the exchange fee will be forfeited, and an additional exchange fee will be due for any new accepted vacation. In the event a member cancels an accepted vacation less than ninety (90) days prior to the arrival date of that vacation, the right to accept another vacation and the exchange fee will be forfeited.

The Program receives improperly submitted exchange requests in the normal course of business or no request at all. These are excluded from the key operating exchange statistics because the members failed to follow the procedures provided in the membership agreement and by the Company.

5. Outstanding Obligation

At December 31, 2022, members had accumulated 200,366 Elite Credits for which they have the right to an exchange opportunity in 2023 or 2024. This represents a total of approximately 4,770 exchanges based on an average number of Elite Credits per exchange confirmed by the Program during the current year of 42.
