

EXPEDITION

The roleplaying card game

Innovative and accessible, Expedition has raised over \$80,000 on Kickstarter and sold out of two print runs in a single year.

Expedition is the first cards and app RPG, combining the best of board games and video games. Fast to learn, you can go on your first adventure in just 20 minutes. Expedition is enjoyed by adults and children, first-time and veteran gamers alike.

Players take on the roles of adventurers, playing through app-guided adventures, using abilities to defeat enemies, earn loot and complete quests.

New quests are published free every week. It's the only board game that keeps getting better.

"A great way to bring new players into roleplaying."
- GeekDad

"This card game packs all the story, combat and fun of a D&D session into the time it takes to watch an episode of something far less interactive."

- Geek and Sundry

"One of, if not THE best use of technology I've seen in tabletop gaming." - Flaming Dice
