

McCarter & English

Office Relocation

Philadelphia, PA. 18,000 SF.

Description

The Law firm McCarter & English, a two-decade fixture in Philadelphia, was looking to reposition itself both in physical space and in the legal sector. After an extensive real estate search with FCA and its brokerage team, the firm selected the penthouse floor of 1600 Market street. Only a short move across the street but a transformative move in providing the right blank canvas for FCA and McCarter & English to create within. The planning embraces transparency, openness, collaboration, flexibility & client service which supports the goals and culture of McCarter & English. The design palate is crisp, fresh, bright and welcoming when you arrive. It unveils itself as you move through a series of public spaces tied together with ceiling and lighting elements, then transitioning into inspiring staff and support areas. A large flexible café is located on the window line and bathed in natural light.
