COMPANY

ELEMENT is a sophisticated lighting system with infinite possibilities.

Whether it is straight linear track, circular or hash tag cross over, you can use double and triple layers to create unique designs.

24VDC magnetic low voltage

No buzzing or humming

Dimmable via ELV/Triac and DALI. 0-10V dimming is available with a linear dimming control module for ELV output.

Warm Dimming and Tunable White available (consult factory)

Create multiple levels

Choose from a variety of lighting modules to create an eclectic design. Mix and match track finish and fixture finishes, invite circular shapes and create multiple levels.

See ELEMENT Luminaire Spec Sheet

When doing multiple levels, use "PLUS" and then the level number to identify each level. Use the above to specify the next level's shape. Concept drawings and/or illustration will be required.

Multiple Levels	Level 2	PLUS - L2
	Level 3	PLUS - L3

Factory will determine required quantities of power supplies, drivers, connectors, corners, and accessories based on the project design. Please provide RCP and detailed drawings showing all runs and connection points for proper configuration.

Refer to Page 3 for power supply ordering information.
