INSTALLATION INSTRUCTIONS

STEP 1 ▶

Loosen the screws on the side of the back cover and remove the lamp bracket.
Drill two holes in the wall, aligning them with the hole positions on the bracket, and insert rubber plugs or wooden blocks into the holes.

STEP 2 ▶

Secure the lamp bracket to the wall using wood screws, then pull out the power cord.

STEP 3 ▶

Connect the power cord to the fixture's power lead, then wrap the connection securely with waterproof tape (proper waterproof protection must be ensured).

STEP 4 ▶

Arrange the long power cord neatly, then place the lamp onto the bracket and tighten the screw securely.

SAFETY INSTRUCTIONS BEFORE INSTALLATION

- Installation must be carried out by a qualified technician or authorized professional.
- Always disconnect power before installation to prevent the risk of electric shock.
- Ensure adequate ventilation space around the LED heat sink to allow proper cooling.
- Only connect LED luminaires using the recommended drivers.
- The actual product may vary slightly from the illustrations shown.
- Do not attempt to disassemble the product.
- Any damage caused by modifications or improper installation will void the warranty.
