

EDGE SLOT SYSTEM

Knife-Edge PROFILE

Project: Type: Qty:

FEATURES

Edge Spot seamlessly attaches to the EDGE knife-edge extrusion system using a magnetic attachment solution. Lockable screw mounting option is also available.

This versatile spot head has a full range of mobility and is field changeable, allowing for placement adjustments throughout EDGE extrusion.

Offered in 2700K to 6000K and Warm Dim (3000K-1800K).

Spotlights available in 10W, 20W, 25W, 30W, and 35W option and delivers up to 2973 lumens.

Linear LED tape wattage options from 1.5W, 4W, 6W, 8.8W per foot

More Edge profile options are available for use with LED tape. See EDGE COVE specification for details.
