Gents,

Here is a revised version of yesterday's map. The changes are to CD01, CD02, CD03, CD04, CD08, and CD11.

Highlights of the changes (compared to plan yesterday):

CD01: Loses Wexford County. Picks up Ogemaw County and a portion of Roscommon County

CD02 – none of Grand Rapids. All of Grandville, Walker, Wyoming, and almost all of Kentwood. Loses Lake county, Osceola County, and a portion of Newaygo

CD03 – keeps all of Grand Rapids. Loses Wyoming, Grandville and almost all of Kentwood. Picks up all off Ionia County.

CD04 – Loses Ionia County, Picks up Wexford County, Lake County, Osceola County, and a portion of Newaygo. Different configuration of Clinton (Bath is in CD04; East Lansing in CD08)

CD08 – different Clinton County configuration – loses Bath Twp and picks up some MCDs in western portion of county; altered Roshester Hills split)can alter lines more if needed)

CD11 – slightly different Rochester Hills portion

The chart below shows the election data of this plan compared to the 2001/current districts. All GOP seats improve except CD02 and CD03 (both still the most GOP though). McCotter's district cannot get better unless we put Ottawa County in it.
