# **Course Description:**

This course is a capstone undergraduate elective in the area of Corporate Finance. The course helps students to bridge the gap between the theory of finance and the reality of decision-making as a financial manager through the use of real world case studies. Students learn to analyze issues, challenges and opportunities faced by the corporation, and to provide recommendations for a best course of action to the C-Suite or upper management team.

This is a full semester course case study-based. We build upon financial principles and valuation tools covered in Corporate Finance and extend those to the application on topics like cost of capital, capital budgeting, new program / new product opportunity valuation, enterprise valuation, capital structure and the financing decision – debt versus equity; IPO pricing and process, as well as aspects of mergers and acquisitions like analysis of strategic fit and synergies case valuation.

### **Prerequisites:**

Pre requisites are BUSFIN 4211 and 4221

Considering this is an advanced course in corporate finance, <u>students enrolled in this class are expected to be proficient in financial statement analysis, time value of money, basic investment decision rules as net present value, IRR, payback, and weighted average cost of capital (WACC).</u>

# **Course Learning Outcomes:**

By the end of this course, students should successfully be able to:

- 1. Apply the Discounted Cash Flows (DCF) methodology to value projects and enterprises from a variety of industries
- 2. Apply the Relative Valuation (or Relative Multiples) methodology to value privately held enterprises, as well as comparative valuation of publicly held firms.
- 3. Conduct in-depth analysis of capital budgeting processes and recommend modifications in areas of improvements.
- 4. Analyze and prioritize competing investment opportunities
- 5. Value the equity per share in preparation to the Initial Public Offering
- 6. Analyze, compute and recommend leverage ratios
- 7. Conduct strategic and financial analysis of mergers and acquisitions, and provide recommendation to a board of directors

### **Academic integrity:**

Academic integrity is essential to maintaining an environment that fosters excellence in teaching, research, and other educational and scholarly activities. Thus, The Ohio State University and the Committee on Academic Misconduct (COAM) expect that all students have read and understand the University's Code of Student Conduct, and that all students will complete all academic and scholarly assignments with fairness and honesty. Students must recognize that failure to follow the rules and guidelines established in the University's Code of Student Conduct (<a href="https://trustees.osu.edu/bylaws-and-rules/code">https://trustees.osu.edu/bylaws-and-rules/code</a>) and this syllabus may constitute Academic Misconduct (<a href="https://oaa.osu.edu/academic-integrity-and-misconduct">https://oaa.osu.edu/academic-integrity-and-misconduct</a>)

The Ohio State University's Code of Student Conduct (Section 3335-23-04) defines academic misconduct as: Any activity that tends to compromise the academic integrity of the University, or subvert the educational process. Examples of academic misconduct include (but are not limited to) plagiarism, collusion (unauthorized collaboration), copying the work of another student, and possession of unauthorized materials during an examination. Ignorance of the University's Code of Student Conduct is never considered an excuse for academic misconduct, so I recommend that you review the Code of Student Conduct and, specifically, the sections dealing with academic misconduct.

If I suspect that a student has committed academic misconduct in this course, I am obligated by University Rules to report my suspicions to the Committee on Academic Misconduct. If COAM determines that you have violated the University's Code of Student Conduct (i.e., committed academic misconduct), the sanctions for the misconduct could include a failing grade in this course and suspension or dismissal from the University. If you have any questions about the above policy or what constitutes academic misconduct in this course, please contact me.

Non-compliance will be warned first and disciplinary actions will be taken for repeated offenses.

Then, if necessary, take your case to the department chairperson, associate dean for programs in the college, and to the provost, in that order. Specific procedures are outlined in Faculty Rule 3335-7-23. Grievances against graduate, research, and teaching assistants should be submitted first to the supervising instructor, then to the chairperson of the assistant's department

#### **Participation in class discussion Policy**

Participation is one grading element that does not require any submission or deliverable from individuals or groups. During the semester, the instructor prepares a weekly cold call list and calls on students at the beginning of class, specifically during sessions dedicated to cases or article discussions. Students are expected to be prepared to interact during class, and to provide insight into their analysis of preparatory questions, to the best of their ability. Points are granted to each student according to level or preparedness and quality of contribution, at the instructor's discretion. Please contact the instructor as soon as possible, preferably at the start of the semester, if you see any issues with this policy.
