Course learning outcomes

By the end of this course, students should successfully be able to:

- Apply TVM concepts to investment decisions of a company
- Create and interpret cash flow statements
- Determine discount/hurdle rates
- Evaluate investments in long-term assets
- Demonstrate proficiency in valuation techniques

HOW THIS COURSE WORKS

Mode of delivery: This course is entirely in-person.

Pace of online activities: This course is divided into a **weekly schedule** as outlined on the course website in Carmen. Material will be available at least one week ahead of time. Students are expected to keep pace with weekly deadlines but may schedule their efforts freely within that time frame.

Credit hours and work expectations: This is a **3-credit-hour course**. According to [Ohio State policy](#), students should expect around 3 hours per week of time spent on direct instruction (instructor content and Carmen activities, for example) in addition to 6 hours of homework (reading and assignment preparation, for example) to receive a grade of (C) average.

Attendance and participation requirements: You are required to attend your assigned recitation each week. The following is a summary of everyone's expected participation:

- **Participating in online activities: AT LEAST ONCE PER WEEK**
Students are expected to log in to the course in Carmen every week. (During most weeks you will probably log in many times) If you have a situation that might cause you to miss an entire week of class, discuss it with me *as soon as possible*.
- **Lectures: ASYNCHRONOUS** Lectures are available in Carmen un. While attendance is strongly encouraged, no participation points will be given for attending.
- **Recitation classes: ONCE PER WEEK IN PERSON**
You are expected to attend your assigned Recitation each week. Your TA will record attendance each week. You get credit for attending 10 out of 12 recitations, 1 point per recitation up to 10 points maximum
- **Tests: CHECK THE COURSE SCHEDULE IN CARMEN FOR DATES AND TIMES.**
There will be four (4) tests each covering 2 or 3 chapters throughout the semester. There are no make-up exams for any reason. The tests will be administered through Carmen Quizzes. The tests will be given **during your recitation time**. Please note the

days of each of these tests listed on the attached Course Schedule. Each timed test will be 60 minutes in length and worth 80 points each. Once you begin a test, the clock starts. The test must be completed in that one sitting. It is your responsibility to make sure your computer and internet connection is sufficient to complete the test. Any technical issues are not an excuse for test extensions or retakes. You may use a blank piece of scrap paper, a one-sided 8 1/2 x 11 page with formulas that you can print off from the course website under Study Tools, and a financial calculator (BA II Plus financial calculator) as the only outside resource for the tests. These papers need to be turned in at the end of the exam to your proctors. The tests will be given using Lockdown Browser. **See the section on how to prepare Lockdown Browser for your exams.**

- **Homework: USUALLY DUE EVERY 1-2 WEEKS. CHECK THE COURSE SCHEDULE IN CARMEN FOR DUE DATES.** Homework will be administered through MindTap. You will be given three (3) attempts on each problem. Each homework assignment is worth 15 points and your grade on each assignment will be scaled to a total of 15 points. Even if the assignment says it is worth 25 points, your grade will be adjusted to be out of 15 points. **Your two (2) lowest homework assignments will be dropped. If you score 15/15 on all HW, only eight (8) will count.**
- **Office hours: OPTIONAL**
Office hours are optional but recommended especially if you are struggling with the material. See the schedule in the Carmen course website.
- **Tutor Lab: OPTIONAL** TAs will hold office hours each week in person in Fisher 040. Please see schedule in Carmen for days and times.

GRADING AND FACULTY RESPONSE

Graded assignments may come in three forms, and students should note the expectations for each in the descriptions of our class assignments below.

USE OF ARTIFICIAL INTELLIGENCE (AI): Unless I specifically mention otherwise (and in writing), the use of/detection of any AI-generated content in any deliverables in this course will be considered academic misconduct and will be acted on as such. You need to complete the assignments using your own brain and your own thinking...which will lead to more of your own learning!

OHIO STATE'S ACADEMIC INTEGRITY POLICY

Academic integrity is essential to maintaining an environment that fosters excellence in teaching, research, and other educational and scholarly activities. Thus, The Ohio State University and the Committee on Academic Misconduct (COAM) expect that all students have read and understand the university's [*Code of Student Conduct*](#), and that all students will complete all academic and scholarly assignments with fairness and honesty. Students must recognize that failure to follow the rules and guidelines established in the university's *Code of Student Conduct* and this syllabus may constitute "Academic Misconduct."

The Ohio State University's *Code of Student Conduct* (Section 3335-23-04) defines academic misconduct as: "Any activity that tends to compromise the academic integrity of the university or subvert the educational process." Examples of academic misconduct include (but are not limited to) plagiarism, collusion (unauthorized collaboration), copying the work of another student, and possession of unauthorized materials during an examination. Ignorance of the university's *Code of Student Conduct* is never considered an excuse for academic misconduct, so I recommend that you review the *Code of Student Conduct* and, specifically, the sections dealing with academic misconduct.

If I suspect that a student has committed academic misconduct in this course, I am obligated by university rules to report my suspicions to the Committee on Academic Misconduct. If COAM determines that you have violated the university's *Code of Student Conduct* (i.e., committed academic misconduct), the sanctions for the misconduct could include a failing grade in this course and suspension or dismissal from the university.

If you have any questions about the above policy or what constitutes academic misconduct in this course, please contact me.

Your mental health

As a student you may experience a range of issues that can cause barriers to learning, such as strained relationships, increased anxiety, alcohol/drug problems, feeling down, difficulty concentrating and/or lack of motivation. These mental health concerns or stressful events may lead to diminished academic performance or reduce a student's ability to participate in daily activities. The Ohio State University offers services to assist you with addressing these and other concerns you may be experiencing. If you find yourself feeling isolated, anxious or overwhelmed, please know that there are resources to help: ccs.osu.edu. You can reach an on-call counselor when CCS is closed at (614) 292-5766 and 24 hour emergency help is also available through the 24/7 National Prevention Hotline at 1-(800)-273-TALK or at suicidepreventionlifeline.org.
