

# Fisher College of Business GE-N Courses

The new GE is an integrated, broad-based, core education that envelopes multiple disciplines. GE requirements have been reduced compared to the university's legacy GE, leaving more flexibility to pursue electives, minors or second majors. In addition, since the new GE is a coherent three-part program consisting of Bookend courses, Foundation courses, and Theme courses, all undergraduate colleges will adhere to the same GE model to make major changes or double majors easier for students complete.

The new GE is a multi-year program – rather than a series of classes – that defines clear learning objectives (available for review at <https://oaa.osu.edu/ohio-state-ge-program>) and recognizes that data analysis, technology and advanced writing are essential for a contemporary undergraduate education. It has been designed to emphasize education for global citizenship and the cultural and diversity issues it encompasses, and to give greater emphasis to high-impact practices such as service learning, undergraduate research, study abroad, and internships.

For updates to this list, contact your academic advisor or visit <https://fisher.osu.edu/undergraduate/academics>.

*The following degree requirements apply to students who began your career as a regularly enrolled student at Ohio State during autumn 2022 or later.*

## Bookend Courses

**I. Launch Seminar (Opening Booked): GENED 1201 – 1 credit hour full semester course**

Students will develop an understanding of the purpose and structure of the GE and begin to develop critical skills and habits to navigate the academic environment. This course will encourage students to articulate their academic and program goals and find opportunities to express those goals within the GE from various disciplinary perspectives.

**II. Reflection Seminar (Closing Booked): GENED 4001 – 1 credit hour 7 week session course**

Students will demonstrate the intellectual and cognitive skills that prepare them to be engaged citizens and leaders for life by reflecting on a range of important modes of human thought, inquiry and expression. Students will be interculturally competent global citizens who can engage with significant aspects of the human condition in local, state, national and global settings. Students will demonstrate skills and abilities needed for engaged citizenship and personal and professional growth.

## Foundation Courses

**1. Race, Ethnicity, and Gender Diversity: (3 hours)**

Students will engage in a systematic assessment of how historically and socially constructed categories of race, ethnicity and gender, and possibly others, shape perceptions, individual outcomes and broader societal, political, economic and cultural systems. Students will recognize and compare a range of lived experiences of race, gender and ethnicity.

- AFAMAST 2201, 2218, 2281

- THEATRE 2367.03
- WGSST 1110, 2215, 2260, 2282, 2306, 2317

**2. Social and Behavioral Sciences: (3 hours)**

Students will critically analyze and apply theoretical and empirical approaches within the social and behavioral sciences, including modern principles, theories, methods and modes of inquiry. Students will recognize the implications of social and behavioral scientific findings and their potential impacts.

- This is fulfilled by Business Foundation requirements – ECON 2001 or 2002

### 3. **Historical and Cultural Studies (3 hours)**

*Historical Studies* - Students will critically investigate and analyze historical ideas, events, persons, material culture and artifacts to understand how they shape society and people.

*Cultural Studies* – Students will evaluate significant cultural phenomena and ideas to develop capacities for aesthetic and cultural response, judgment, interpretation and evaluation.

3 (1 CH) must be taken after or concurrently with EarthSci 1105, 1108, 1121, or 1151

4 (3 CH) ENR 2101 must be taken concurrently or after completing this course

5 (1 CH) must be taken after or concurrently with ENR 2100

7. **Mathematical and Quantitative Reasoning**

Students will be able to apply quantitative or logical reasoning and/or mathematical/ statistical methods to understand and solve problems and will be able to communicate their results.

- This is fulfilled by Business Foundation Requirement – Math 1131/1151

# Theme Courses

The Theme topics are broad, interdisciplinary and respond to questions and concerns reflecting the 21st century context informing it from historical, current and futuristic approaches. A major goal of the Themes is to provide students with the opportunity to examine a complex topic through multiple perspectives and disciplinary lenses.

**Each Theme is satisfied by either a single course designed to foster that interdisciplinary and integrative approach or by two courses that each take distinct disciplinary approaches to the topic.** The single, 4-credit courses that can satisfy the requirement of the Theme are marked as “Integrative Practice” courses, designed to meet specific pedagogical goals and integrating one of the following additional modes of learning: integrative team teaching, community-based learning, study away, engagement in active research or creative practice, or instruction in a world language other than English.

**Students are required to complete the Citizenship for a Just and Diverse World Theme along with another theme of their choosing.**

Please use the below link to view up to date theme areas:
