# Appendix M: Memos for Record, Guidance Memos, and Reports

## Table of Contents

M.1 General..... 1

### ATTACHMENTS

Attachment M-1	MFR-001 Levees and Excavated Material Berms along the Diversion Channel
Attachment M-2	MFR-002 Diversion Channel and Low Flow Design
Attachment M-3	MFR-005 General Bridge Re-Assessment for the Diversion from Inlet to Outlet
Attachment M-4	MFR-010 Utility Relocation Requirements
Attachment M-5	GM-001 Guidance Memo, Construction Heights of EMBs
Attachment M-6	GM-002 Guidance Memo, Excavated Material Berm Design with Swell Factor Variations
Attachment M-7	GM-003 Local Drainage Features Outside of the Diversion Channel
Attachment M-8	AWD-005 Local Drainage Plan - South
Attachment M-9	Value Based Design Charrette Report, Fargo-Moorhead Metropolitan Area Flood Risk Management Project, Maple River Aqueduct Reach 7
Attachment M-10	Phase 1 (DD11) Physical and Numeric Modeling Report, Alternative 4, Fargo-Moorhead Metropolitan Area Flood Risk Management Project, Maple River Aqueduct Crossing
Attachment M-11	Physical Modeling of Ice on the Maple River in the Proposed Aqueduct and Spillway Reach
Attachment M-12	Development of Conceptual Designs for the Prevention of Ice Formation in the Proposed Maple River Aqueduct
Attachment M-13	Memo: Ice Retention Structure, Conceptual Design, FMM Area Flood Risk Management Project, Reach 7
