

HSM2 Series

Duo Track Horizontal Sliding White Board System

Specifications

- The Duo Track is a two track sliding white board panel system.
- All units have two manually operated sliding panels and a full length fixed back panel with mylar backing.
- Both the aluminum framed sliding panels and the back panel are porcelain-on-steel white board material laminated onto 1/2" particleboard.
- The sliding panels are top suspended and glide on nylon rollers.
- The framework, maprail, and markertray are made from clear anodized aluminum.
- The outer frame is reinforced with hidden steel brackets.
- The units are available in lengths of 6', 8', 10', or 12'.
