JKR ENERGY PRO

PREMIUM FUSION-WELDED VINYL WINDOWS

1

Visually clean and contemporary narrowline frame and sashes, with a larger glass area for exceptional daylighting and outside viewing.

2

Internal chambers meticulously engineered for structural integrity and enhanced energy efficiency.

3

Low-profile secure locking hardware features an indicator that tells you if your windows are left unlocked.

4

End-of-throw cam shaft locking action, expertly constructed for increased protection.

5

Composite reinforcement in the meeting rails allows for secure mounting of hardware; this non-conductive material also reduces the transfer of energy for superior thermal performance.

6

Super Spacer System with a structural foam design helps the edge of the glass for superior thermal performance and longevity.

JKR ENERGY PRO GLASS PERFORMANCE COMPARISON*

	U-FACTOR	SHGC
CLEAR GLASS	0.46	0.57
CLIMATECH ELITE	0.28	0.21
CLIMATECH TG2 PRIME	0.19	0.21

* Whole window values are based on double-strength glass

¹ Double-hung base model will automatically be upgraded to ST (steel reinforcement) for all units ordered in excess of 48" wide or 84" high.

² For larger size windows or to meet specific DP/PG ratings, optional weeps/performance package must be ordered.

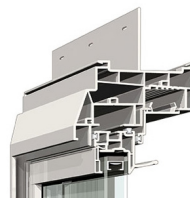

Energy Pro Windows are equipped with a stucco fin as our standard feature. It's important to note that the stucco fins are not optional unless demo work is undertaken, making it the most prevalent choice for replacement window applications.

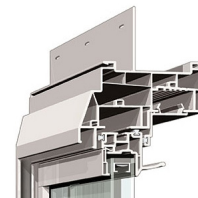

Stucco Fin

Nail Fin

1" Nail Fin

ADDITIONAL FEATURES

- Fully fusion-welded frame and sash corners create superior strength.
- Airtight insulating chambers enhance thermal performance and durability.
- Multi-layer weatherstripping helps block energy loss and protects against inclement weather.
- Dual vent latches for limited and convenient opening of the window.
- Hidden screen track creates a clean-line design for enhanced visual appeal; half screens are standard, optional full screens available.

JKR Energy Pro Windows dramatically enhance the appearance of your home, while reducing your annual energy consumption for cooling and heating.

JKR ENERGY PLUS

PREMIUM FUSION-WELDED VINYL WINDOWS

1

Premium vinyl mainframe and sashes won't chip, peel, crack or warp and never need to be painted.

6

Metal reinforcement in the locking rail increases rigidity and strength.

2

Multi-chambered mainframe and sash construction create insulating air spaces for thermal efficiency.

7

Fully extruded dual lift rails provide easy and convenient operation of the sash.

3

1" thick insulated glass unit with optimal air space improves year-round performance.

8

Drop-in glazing for added energy efficiency and interior aesthetic appeal.

4

Intercept® Warm-Edge Spacer System blocks the transfer of heat and cold for reduced energy use.

9

Full capture sill enhances protection from air and water infiltration.

5

Interlock at sash locking rail increases strength and reduces air infiltration.

10

Hidden screen track for added beauty.

JKR ENERGY PLUS GLASS PERFORMANCE COMPARISON*

	U-FACTOR	SHGC

Energy Plus Windows are equipped with a stucco fin as our standard feature. It's important to note that the stucco fins are not optional unless demo work is undertaken, making it the most prevalent choice for replacement window applications.

JKR Energy Plus Windows deliver energy-saving innovations while lending the perfect touch of elegance to your home.

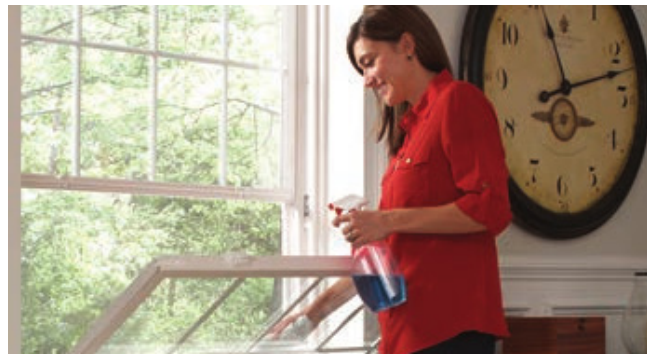

DOUBLE-HUNG AND SLIDING WINDOWS

The traditional beauty and exceptional performance of double-hung and sliding windows make them longtime favorites among homeowners. Double-hung windows feature tilt-in top and bottom sashes for convenient cleaning from inside your home. Sliding windows' slim silhouette and large glass area offer a wide-open view of the outdoors, with sleek sashes that glide horizontally for easy opening and closing.

ENERGY PRO DOUBLE-HUNG WINDOWS

- Narrow line frame and sashes with fusion-welded corners for exceptional beauty, strength and energy efficiency.
- Integrated sash-to-sill interlock provides a unified wall of strength; prevents the sash from bowing in extreme winds.
- Non-conductive, composite reinforcement in the meeting rails allows for secure mounting of hardware and improves energy efficiency.³
- True sloped sill creates a highly efficient drainage system to prevent water and debris accumulation.
- Constant force balance system provides smooth raising and lowering of sashes.
- Hidden screen track for a neat, clean appearance.

ENERGY PRO SLIDING WINDOWS

- Narrowline frame and sashes with fusion-welded corners for exceptional beauty, strength and energy efficiency.
- Insulated glass unit with double-strength glass and warm-edge spacer system provides superior thermal protection and longevity.
- Embedded, multi-chambered construction creates airtight insulating compartments for increased thermal performance and strength.
- Non-conductive, composite reinforcement in the meeting rails allows for secure mounting of hardware and improves energy efficiency.
- Nylon-encased dual brass roller system for easy-glide performance.
- Hidden screen track for a neat, clean appearance.

CASEMENT AND AWNING WINDOWS

Casement and awning windows expertly combine superior craftsmanship with energy-saving innovations. Uninterrupted sightlines ensure maximum viewing area, while a crank open/close operation provides ease-of-use and improved energy efficiency. Casement windows gently open outward, while awning windows open up and out.

CASEMENT WINDOWS

- Exterior sash design creates the appearance of a larger glass area with an attractive slim look.
- Step-down frame with three weather-stripping seals provides protection against inclement weather.
- Positive crank mechanism ensures easy operation when opening and closing the sash.
- Multi-point locking system ensures a tight seal and increased comfort.
- Multiple lite configurations available in a single mainframe.
- Combine casement and fixed lite windows to add striking beauty and increased visibility.

AWNING WINDOWS

- Heavy-duty, state-of-the-art hinge system ensures easy operation from inside the home.
- Dual locking system on each side of the window provides a tight seal and enhances thermal efficiency.
- Multiple lite configurations available in a single mainframe.
- Combine with fixed lites to allow for convenient ventilation while creating an expanded window design.

A170 SERIES SLIDING PATIO DOOR COLLECTION

- Mainframe and sash feature a double-wall design and multi-chambered construction for added strength.
- Dual internal/external weatherstripping on the sash achieves optimal energy efficiency.
- Deep interlocks with a protective bulb weatherstrip deliver increased insulation and a tight seal.
- Available in 2, 3, and 4-panel configurations.
- Multi-point locking system with strong steel hook design seals the door tightly closed and helps prevent energy loss.
- Heavy-duty extruded aluminum screen features four adjustable rollers for smooth gliding.
- Precision-engineered tandem roller system ensures easy and quiet door operation.

11

Optional ClimaTech insulated glass packages available. Consult your window professional for the optimal glass package required for your home and climate zone.

PRACTICAL AND BEAUTIFUL PATIO DOOR

COMBINE INDOOR AND OUTDOOR LIVING

ADDITIONAL FEATURES

- Visually expand and brighten any room
- Solid construction and easy-glide operation
- Exceptional maintenance-free performance
- Simple damp cloth cleaning keeps surfaces sparkling like new
- Doors do not require painting

JKR LIFETIME LIMITED WARRANTY

JKR Windows are made by Associated Materials, a recognized leader in product innovation, manufacturing excellence and upcoming quality control. That's a reputation you can count on, from the day your windows are installed until the day you sell your home. Associated Materials backs all JKR Windows with an exceptional warranty to simplify your buying decision. Their Lifetime Limited warranty is fully transferable, non pro-rated, and includes lifetime free labor, making it one of the strongest in the industry. This includes lifetime coverage from accidental glass breakage, fading, warping, cracking of vinyl, and seal failure. Exclusions include acts of God or civil unrest. In addition, our Frameworks® Color Collection exterior finishes carry a 10-year fade-resistance warranty - further assurance of lasting performance and value.

At JKR Windows, we're committed to providing not only top-quality products but also peace of mind in every installation. While the manufacturer's warranty covers the product itself, we go above and beyond by extending our own coverage to include installation and any related issues, ensuring you're fully satisfied with your finished windows. Should you need a service that isn't covered by the manufacturer's warranty, there may be a service fee for dispatching a technician to your residence. We'll be fully transparent about this fee upfront, providing details before scheduling, so you know exactly what to expect. This fee, which is based on the travel distance for the technician, will be confirmed and collected at the time of scheduling. Rest assured, JKR Windows stands behind our work, and we're here to support you every step of the way.

JKR LIFETIME INSTALLATION GUARANTEE INCLUDES:

Lifetime Installation Guarantee
Lifetime on Caulking
Lifetime on Trim Work
Lifetime on Defects caused by Installation
Lifetime Screen Repair
