Dear (Patient):

As your Primary Care Provider, we are here to ensure you are receiving quality medical care. As part of providing you with quality medical care, it is recommended that all patients with asthma develop a written Asthma Action Plan each year.

Proper management of your asthma can help you learn how to reduce your symptoms and feel better!

If you have not developed an Asthma Action Plan this year, please call my office to do so. We will be glad to work with you to get this important step in your healthcare completed. If you have already done so, please disregard this letter and have a happy, healthy 2016!

Sincerely,

Dr.
