

The City of Buckeye falls within Greater Maricopa Foreign Trade Zone No. 277. In the United States, a foreign trade zone is a geographical area, in a United States Port of Entry, where commercial merchandise, both domestic and foreign receives the same Customs treatment it would if it were outside the commerce of the U.S.

ARIZONA BENEFITS

72% Reduction in Real and Personal Property Taxes

72% Reduction in Real and Personal Property Tax

In addition to the normal benefits of a Foreign Trade Zone, in Arizona FTZ sites are automatically re-classified to a lower real and personal property tax designation (a 5% assessment ratio rather than the standard 18% commercial classification), and so a business in an FTZ receives a 72% reduction in real and personal property taxes for as long as the FTZ designation remains in place.

Foreign Trade Zone No. 277

On December 22, 2010 the Foreign Trade Zones Board issued a Grant of Authority under Board Order No. 1733 to establish Foreign Trade Zone (FTZ or Zone) No. 277 to serve Western Maricopa County and designated GMFTZ, Inc. as the Grantee of the Zone.

West Valley Economic Impact

The Zone has spurred investment in infrastructure, speculative industrial buildings and attracted more than 1,400 new jobs and \$448 million in capital investment.
