Dear Mr. Griffiths,

Thank You for giving the San Carlos Irrigation Project the opportunity to serve your new development "Tierra Rica Estates". I have visited the site of this development and I also took Mr. Ben Charley, our Power Manager for his input.

Upon reviewing the site of this development and our existing facilities we are pleased to say that we have plenty of capacity to serve your total Electrical needs from our facilities existing on Woodruff Rd.. To provide excellence in customer service and reliability, San Carlos Irrigation Project will also be looking to build a secondary feed from the North. This will be used to provide a loop system for reliability.

At your earliest convenience, I would be glad to meet with you and discuss your construction plans as far as scheduling or phasing plans you may have at this time. It is important that we get involved with your construction plans as early as possible to be able to meet your expectations.

Please feel free to call me at any time if you have any questions or concerns that I may be able to assist you with. You can reach me at (520) 723-6202. Again thank you for giving The San Carlos Irrigation Project the opportunity to serve you.

Sincerely,

Alex Romero,
Customer Service Manager
