

Residents are encouraged to attend a town hall meeting tonight at 7 PM in the Willow Hall Auditorium.

The purpose of this meeting is to provide information and discussion regarding the GreenVest Preservation Project. The meeting will include a formal presentation by the Director of Land Use Services from Trident Environmental, as well as legal insight and guidance from the Association's Attorney, Kevin DelRocini.

The meeting is intended to ensure transparency, provide residents with accurate and timely information, and offer an opportunity to better understand the scope and implications of the proposed project.
