INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Orchard Mesa Irrigation District
Palisade, Colorado

I have audited the accompanying financial statements of the business-type activities of Orchard Mesa Irrigation District as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Orchard Mesa Irrigation District, as of December 31, 2016, and the respective changes in financial position and, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis information on pages I through iii be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Orchard Mesa Irrigation District's basic financial statements. The accompanying information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The accompanying supplemental information as listed in the table of contents is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Orchard Mesa Irrigation District

Management's Discussion and Analysis

December 31, 2016

Our discussion and analysis of the Orchard Mesa Irrigation District's (District) financial statements provides an overview of the District's financial activities for the fiscal year ended December 31, 2016.

Financial Highlights

-) The assets of the District exceeded its liabilities at the close of the most recent fiscal year by \$9,592,904, (Net Position).
-) Unrestricted cash and investments decreased \$379,838.
-) Operating revenues of \$1,487,024.
-) Operating expenses of \$2,132,652.
-) Non-operating revenues net of expenses of \$1,337,198.

Overview of Financial Statements

The discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's financial statements are comprised of two components: 1) government-wide financial statements, 2) notes to the financial statements.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements are designed to provide a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of position presents information on all of the District's assets, liabilities and deferred inflows of resources, with the difference as net position.

The statement of activities and change in net position presents information showing how the District's revenues, expenses, and net position changed from the prior year to the current year.

The statement of cash flows presents information on the District's cash and cash equivalents showing increases or decreases in various cash activities.

The government-wide financial statements report on the activities of the District that are principally funded by water user assessments. The District's function is to supply irrigation water to lands within the District boundaries.

NOTES TO THE FINANCIAL STATEMENTS

The notes provide additional information that is useful for the understanding of the data provided in the government-wide financial statements. The notes to the financial statements can be found on page 6 thru 13 of this report.

SUPPLEMENTARY INFORMATION

The schedule found on page 13 of this document gives a comparison of the budget to actual for the District for the fiscal year 2016.

Management's Discussion and Analysis-Continued

Government-Wide Financial Analysis

A comparison of current to prior year will be discussed below.

As noted earlier, assets of the District exceeded liabilities of the District by \$9,592,904.

The largest of the District's total assets (51%) is in capital assets (buildings, machinery, and equipment.) The District uses these capital assets to deliver irrigation water to 6,347 users. Unrestricted cash reserves account for (36%) of the District's total assets. These unrestricted reserves are used to do irrigation system improvements.

Between December 31, 2015 and December 31, 2016, the Net Position increased by \$691,570.

The District's operating revenues decreased \$(645,628). During 2016 the District entered into a contract with the United States Bureau of Reclamation (USBOR) and received reimbursements totaling \$693,387; due in part to the District's Canal Automation Improvements Project Contract No. 12-WC-40-445 where 1.5 miles of Canal #2 was lined along with the work done on the Long Crested Weir & Reservoir sites. The District receives revenues from the Power Plant. Specific Ownership was up from last year following the predicted upward trend in the economy. Operating expenses increased \$41,693, being lower than anticipated because some of the costs were absorbed by the USBOR contract.

TABLE A
Condensed Financial Data

	2016	2015	Dollar Change	Percent Change
Other Assets	\$ 5,882,785	\$ 5,886,992	\$ (4,207)	-0.07%

Ending Net Position	\$ 9,614,480	\$ 8,901,334	\$ 713,146	7.42%

Management's Discussion and Analysis-Continued

Capital Assets and Debt Administration

CAPITAL ASSETS

As of December 31, 2016, the District's capital assets were 7,698,156 (net of accumulated depreciation of \$ 6,367,496). This investment in capital assets included buildings, equipment, and delivery canals. Major capital asset purchases for the current fiscal year are the following:

-) Improvements to Canal #1 & #2 \$791,881
-) Improvements to Hydro \$496,650
-) Vehicles \$62,270

Note 4 on pages gives additional details of the District's capital assets.

Current Year's Budget Analysis

-) The variance of \$45,588 on the specific ownership tax revenue is due to the fact that the revenue received is based upon a percent of new licensed motor vehicles revenue collected by the county and therefore the budgeted amount is always an estimate.
-) Power Plant revenue variance of \$16,061 was due to mild summer conditions, allowing more water flow to the Power Plant for generation, which continued into the winter months allowing the plant to operate at peak production.
-) The \$(6,680) variance in investment income is due to budgeting conservatively based on the interest rates of the investments and the economic condition of the market.
-) Operating expenses were up due to the mild winter allowing for much more construction and maintenance to be done than planned.
-) Power Plant expense variance of \$(109,704) were due to unexpected repairs.
-) The capital outlay variance of \$(376,822) was due to more work being done as a result of the mild weather and the ability to move construction on system under USBOR contract ahead of what was planned.

Future Events of Financial Significance

The District will continue to work with the United States Bureau of Reclamation (USBOR) on some of the construction portion of the OMID Canal Automation Improvements Project, some of which will be; raising canal banks, patching canals, lining canals, and construction of the Regulating Reservoir site. The District will be reimbursed by USBOR at 100% for the construction related time/costs such as; anticipated construction on the Regulating Reservoir summer/fall of 2016 through 2017, lining and or repairs done on another 1.5 miles of canal. The District will be reimbursed by USBOR on a 50%/50% basis for O&M related time/costs such as; adjusting pumps, adjusting the new weirs and operation of the coming Regulating Reservoir to maintain a proper water level in the canals. Remodel of Power Plant will continue, with the ordering of the new turbines/runners.

Contacting the District's Management

This financial report provides an overview of the District's finances. Questions concerning information provided in this report should be directed to the Management of the Orchard Mesa Irrigation District, 668 38 Road, Palisade, CO 81526, or by calling (970) 464-7885.

Orchard Mesa Irrigation District
Notes to the Financial Statements
December 31, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity and Contractual Arrangement

The Orchard Mesa Irrigation District (OMID), is the primary government and has no component units.

The District operates and maintains an irrigation system in Mesa County, Colorado. The District also operates and maintains facilities to carry water to a hydroelectric power plant on the system. The District shares costs and revenues associated with the operation of the power plant subject to a lease agreement and contract between the District, the United States Government, Grand Valley Water Users Association, and Xcel. The District pays 22.5% of the annual lease amounts to the U.S. Government for the use of the power plant. The District receives 45% of certain revenues from the power plant as reimbursement for its costs. In addition, the District pays the Association 28.41% of the cost operating the Grand Valley diversion dam and the Government Highline Canal. These facilities are used to deliver water to the District's pumping plant and irrigation system.

On January 1, 2011, the District along with the Grand Valley Water Users Association began operating and maintaining the Grand Valley Power Plant subject to various agreements between the District, The United States Government, Grand Valley Water Users Association and Xcel energy. The power plant lease agreement is to remain in force until January 1, 2031, unless terminated by the parties. The agreement requires annual lease payments to the United States of 50% of the amount obtained by multiplying the kilowatt hours of power generation per calendar year by an agreed upon mill levy assessment. The power revenue generated and sold by the plant to Excel Energy, will be distributed equally to the District and Grand Valley Water Users Association. This agreement was sign and executed by both parties on October 21, 2013

Basis of Presentation – Fund Accounting

The operations of the District are accounted for as an enterprise fund. Enterprise funds are used to account for operations (a) that are financed and operated in a manner similar to business enterprises where the intent of the governing body is that the cost (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through use charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purpose.

Basis of Accounting

The District uses the accrual basis of accounting. Revenues are recognized when earned, and expenses are recognized when incurred. Operating revenues and expenses generally result from providing services in connection with the District's principal ongoing operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District classifies Net Position into three components (a) Invested in capital assets, net of related debt; (b) restricted; and (c) unrestricted as required by governmental accounting standards.

Orchard Mesa Irrigation District
Notes to the Financial Statements
December 31, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-continued
Basis of Accounting-continued

These classifications are defined as follows:

-) **Invested in capital assets, net of related debt** – This consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
-) **Restricted**- This consists of constraints placed on Net Position use through external restrictions imposed by creditors (such as debt covenants)' grantors, contributors, laws, or regulations of the governments or constraints imposed by law through constitutional provisions or enabling legislation.
-) **Unrestricted**-Consists of Net Position that do not meet the definition of "restricted" or "invested in capital assets, net of related debt".

It is the District's policy, to first apply restricted resources, when an expense is incurred for purposed for which both restricted and unrestricted Net Position are available

Budgets and Budgetary Accounting

The annual budget is prepared and approved by the Board of Directors in accordance with the State of Colorado's Financial Management Manual. The budget is submitted to Mesa County by December 15, and before December 31. The District adopts an appropriation resolution for the next fiscal year. The Board of Directors may amend the appropriation resolution for the next fiscal year. The Board of Directors may amend the appropriation resolution at any time during the year if warranted by circumstances.

The District's annual appropriations are continuing appropriations, which allows the District to expend appropriated funds during the respective fiscal year or thereafter. Commitments, if any, related to unperformed contracts for goods or services outstanding at year-end are not recorded as reservations of fund balances.

The budget basis of accounting differs from the generally accepted accounting principle (GAAP) basis in that contributed capital (grants received) is included as revenue, outlays for debt retirement and acquisitions of fixed assets are included as expenses and depreciation is excluded from expenses.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the District considers all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents.

Investments

Investments are valued at fair value, using quoted market prices. All investments held by the District are rated AAA by Standard and Poor's and AA+ by Moody's rating service.

Orchard Mesa Irrigation District
Notes to the Financial Statements
December 31, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-continued

Capital Assets

The District defines capital assets, which include property, plant and equipment, as assets with an initial, individual of at least \$1,000 and an estimated useful life in excess of two years. Capital assets are valued at cost except for certain items acquired prior to January 1, 1967, which are valued at estimated cost because cost records are not available. Depreciation is provided on the straight-line method over the assets estimated useful life, as follows:

Building, plant and system	20 – 40 years
Vehicles	5 – 10 years
Equipment	3 – 10 years

Compensated Absences

The District pays full-time employees for accumulated annual leave upon termination. Annual leave benefits accumulate throughout the year and are credited to the employee on a pay period basis. Annual leave in excess of 160 hours must be used before January 1 of the year following the year in which it was earned or it is forfeited. Accumulated unpaid annual leave, up to 160 hours per employee, is accrued when incurred. Sick leave benefits accumulate, but do not vest. Accordingly, employees do not receive compensation for sick leave benefits upon termination. AS of June 4, 2010, the District allows employees who have accumulated over 350 hours of sick leave to convert 4 hours of sick leave earned to 2 hours of pay to be put into the employees' 401k plan.

Risk Management

The District purchased general liability and property insurance through commercial insurers to provide coverage of all losses, claims and judgments.

Use of Estimates

In preparing financial statements in conformity with general accepted accounting principles, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events

Management has reviewed subsequent events through the date of the audit report.

NOTE – 2 CASH AND INVESTMENTS

The Colorado Public Deposit Protection Act (PDPA) requires all units of local government deposit cash, in eligible public depositories; regulators determine eligibility. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to the aggregate uninsured deposits.

Orchard Mesa Irrigation District
Notes to the Financial Statements
December 31, 2016

NOTE 2 - CASH AND INVESTMENTS-continued

Collateral in the pool is considered to be equal to depository insurance pursuant to definitions listed in GASB Statement No. 40. At December 31, 2016, the bank balance of the District's deposits was \$118,295, which all was covered by FDIC. The money market balances were insured under SIPC.

	2015
Cash Deposits:	
Cash on Hand	\$ 349
Cash in Checking & Money Market	118,295

Total Cash and Investments Unrestricted	\$ 4,058,829

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local government entities may invest. Authorized investments include obligations of the United States and certain U.S. governments agency securities; certain international agency securities; general obligation and revenue bonds of U.S. local governments entities; bankers' acceptances of certain banks; commercial paper; local government investment pools; written repurchase agreements collateralized by certain authorized securities; certain money market funds; and guaranteed investments with maturities of more than 5 years. The District's investments at December 31, 2016 are registered in the name of the government.

The District also places money in public entity cash investment pools authorized by Colorado statutes. On December 31, 2016, the District had \$285,704 invested in the Colorado Government Liquid Asset Trust (COLOTRUST) an investment vehicle established for local government entities in Colorado to pool surplus funds. COLOTRUST operates similarly to a money market fund and each share is equal in value of \$1.00. Investments of COLOTRST consist of U.S. Treasury notes, U.S. Government Agency Securities, repurchase agreements collateralized by U.S. Treasury securities, and Commercial Papers. Designated custodial banks provide safekeeping and depository services to COLOTRUST in connection with the direct investment and withdrawal functions of COLOTRUST. Substantially all securities owned by COLOTRUST are held by the Federal Reserve Bank in the account maintained for the custodial banks. The custodian's internal records identify the investment owned by COLOTRUST. The State of Colorado's Division of Securities is responsible for regulatory oversight for these pools. These pools are not required to and are not registered with the SEC. COLOTRUST's two funds are rated AAA by Standard and Poor's and Moody's AA+ rating service.

Orchard Mesa Irrigation District
Notes to the Financial Statements
December 31, 2016

NOTE 3 - ASSESSMENT RECEIVABLE

Assessments for 2015, collectible in 2016, were levied in November 2015 and certified by the Mesa County Commissioners before December 31, 2015. These assessments attach as an enforceable lien on January 1, 2016 and are due in total April 30, 2016 or in equal installments February 28, 2016 and June 15, 2016 at the option of the payor. Assessments are considered fully collectible.

Assessments for 2016, collectible in 2017, are shown as assessments receivable and deferred inflow of resources on the statement of net position in the amount assessed.

NOTE 4 – CAPITAL ASSETS

Capital assets consist of the following:

	Balance 1/1/2016	Additions	Disposals	Balance 12/31/2016
Buildings & Improvements	\$ 463,803	\$ 7,475	\$ -	\$ 471,278

The Power plant assets are jointly owned (50/50) by the District and Grand Valley Water User's Association. Therefore, the cost, depreciation expense and accumulated depreciation for these assets shown on the District's financial statements represent 50% of the value.

NOTE 5 – UNEARNED REVENUE CRWCB AND CWCD

During 2013, the District entered into agreements with the Colorado Water Conservation District (CWCD) for \$904,621 and the Colorado River Water Conservation Board (CRWCB) for \$1,500,000. The funds, and any interest earned on the funds are to be used, over a period of 50 years, to pay for qualifying expenses related to system improvements as per the agreement. The District must use any interest earned on the funds before accessing the principal. The District must submit an annual work plan and budget to the State, by December 31 of each year under the terms of the agreements.

Orchard Mesa Irrigation District
Notes to the Financial Statements
December 31, 2016

NOTE 6 – RESTRICTED NET POSITION

The District, jointly with the Grand Valley Water Users Association, is required by the terms of the Lease of Power Privilege agreement with the United States Bureau of Reclamation to create the Power plant Reserve and the Rehabilitation and Replacement accounts. The Power Plant Reserve account is required to hold funds from the power revenues equal to the sum of the ordinary operations and maintenance expenses for the Grand Valley Power Plant for the calendar 2012 plus the annual lease payment due to the United States for the same year. The amount held in this account is to be increased or decreased annually by the change in the Consumer Price Index for All Urban Consumers for the Denver-Boulder-Greeley, Colorado metropolitan area. Funds from this reserve may be used and replenished according to conditions stated in the agreement. The rehabilitation and Replacement account shall also be funded from power revenues and interest earned on the funds held in the Power Plan Reserve account and other sources. The amount to be deposited in this account is to be determined by the District and the Association based on funding needs anticipated for replacement maintenance consistent with the Operations and Maintenance Plan. The District determined to start funding this reserve with \$20,000. No additions were made to this reserve since it was established, as the preparation of the Operations and Maintenance Plan is still pending.

The District established the Power Plant Reserve with an initial amount of \$100,457, as required by the agreement. For 2016, the District added \$3,097 as required by the agreement for a total of \$109,441. See Note 8.

The District established a \$50,000 reserve account as required by the Orchard Mesa Canal Automation Improvements contract with the United States Bureau of Reclamation.

NOTE 7 – 401K PLAN

The District has a Simple IRA plan, which is administered by American Funds, for employees. Employees can contribute up to 3% of their gross wages and the District must match the contribution. During the year-end December 31, 2016, the District contributed \$16,862 to the Plan. The employees are 100% vested in both the District's contribution and their own contribution from the time contributions are made.

NOTE 8 – MAJOR CONTRACTS

On January 2, 2011, the District and Grand Valley Water Users Association entered into an Energy Purchase agreement with Excel Energy, for the sale of power generated by the Grand Valley Power Plant. The agreement will terminate on December 31, 2020, and requires payment of \$40 per MWh of energy generated by the plant. The District and Association will each receive 50% of the payment due.

NOTE 9 –BUDGET

The District may be in violation of Colorado Budget Law.
