INDEPENDENT AUDITOR'S REPORT

**To the Board of Directors
South Park Ambulance District**

Report on the Financial Statements

We have audited the accompanying financial statements of the South Park Ambulance District (the "District"), as of and for the year ended December 31, 2016, as listed in the table of contents, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

INDEPENDENT AUDITOR'S REPORT
To the Board of Directors
South Park Ambulance District

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of South Park Ambulance District as of December 31, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis in Section B be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the Management's Discussion and Analysis in Section B in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The individual fund budgetary comparison information is presented for purposes of additional analysis and is not a required part of the basic financial statements. The individual fund budgetary comparison is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

SOUTH PARK AMBULANCE DISTRICT

Management's Discussion and Analysis December 31, 2016

We, the financial managers of the South Park Ambulance District (the "District"), offer readers of the District's financial statements this narrative summary of the financial activities of the District for the fiscal year ended December 31, 2016.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of two components: 1) financial statements; and 2) notes to the financial statements. These components are discussed below.

Financial Statements

The financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all the District's assets and liabilities (both short-term and long-term), with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Revenues, Expenses, and Changes in Fund Net Position shows how the government's net position changed during the years presented. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The Statement of Cash Flows shows the District's sources of cash inflows and outflows during the years presented. Cash flows are categorized among operating, non-capital financing, capital and related financing and investing activities, and unlike items reported in the Statement of Revenues, Expenses and Changes in Fund Net Position, these amounts are reported on the cash basis of accounting.

The Schedule of Revenues and Expenditures – Budget (Non-GAAP Basis) and Actual with Reconciliation to GAAP Basis provides a detailed comparison of the District's actual revenues and expenditures to budgeted amounts; the District's budget was adopted in a manner that is presented on a Non-GAAP basis with a reconciliation to GAAP basis and is shown in Section E.

The business-type activity of the District relates to the provision of emergency medical services and ambulance transportation.

The District's financial statements can be found in Section C of this report.

Overview of the Financial Statements (continued)

Proprietary Funds

The District maintains a proprietary fund commonly known as an enterprise fund. Enterprise funds are used to report business-type activities. The District uses an enterprise fund to account for its emergency medical services and ambulance transportation.

Notes to the Financial Statements

The notes provide a background of the entity, certain required statutes, and accounting policies utilized by the District. They also provide additional information that will aid in the interpretation of the financial statements. The Notes to the Financial Statements can be found in Section D of this report.

Financial Analysis of the District

The following chart shows the District's assets, liabilities, and net position for 2016 and 2015:

South Park Ambulance District's Net Position

	<u>2016</u>	<u>2015</u>
Assets:		
Current and other assets	\$ 1,391,097	1,468,684
Capital assets	1,257,170	1,147,193
Total Assets	<u>2,648,267</u>	<u>2,615,877</u>
Liabilities:		
Other liabilities	31,576	18,981
Long-term liabilities	307,815	290,462
Total Liabilities	<u>339,391</u>	<u>309,443</u>
Deferred Inflows of Resources:		
Unavailable property tax	848,169	833,649
Net Position:		
Invested in capital assets, net of related debt	974,746	883,902
Unrestricted	485,961	588,883
Total Net Position	<u>\$ 1,460,707</u>	<u>1,472,785</u>

In 2016, the current assets decreased due to a decrease in cash and cash equivalents, primarily due to new debt payments and increased salaries. Overall liabilities increased due to the new debt liability for the District's capital lease of the 2016 Chevy Ambulance.

Approximately 67% of the District's net position reflects its investment in capital assets, net of related debt. The outstanding debt on the loans (discussed in pages D7 through D8 of the Notes to the Financial Statements) is the amount by which capital assets have been reduced in this component of net position. The District uses these capital assets to provide services to its citizens; therefore, these net are not available for future spending. The remaining balance of net position totaling \$485,961 may be used to meet the District's ongoing obligations relating to its operations.

Financial Analysis of the District (continued)

At the end of 2016 and 2015 fiscal years, the District is able to report positive balances in both categories of net position. Overall, the District's net position decreased slightly from the prior year, reflecting expense control and adequate financial resources for operations.

The following chart is a summary of information relating to the District's Statement of Revenues, Expenses and Changes in Fund Net Position:

South Park Ambulance District's Changes in Net Position

	<u>2016</u>	<u>2015</u>
Revenues:		
Program revenues:		
Charges for services	\$ 652,248	567,681
General revenues:		
Property taxes	831,684	842,412
Specific ownership taxes	101,626	100,944
Investment income	4,463	4,822
Miscellaneous income	8,000	418
Total Revenues	<u>1,598,021</u>	<u>1,516,277</u>
Expenses:		
Operating expenses	1,160,091	1,088,210
Bad debts	346,780	334,484
Depreciation	88,834	81,006
Interest expense	14,394	17,264
Total Expenses	<u>1,610,099</u>	<u>1,520,964</u>
Change in Net Position	(12,078)	(4,687)
Net Position - Beginning	<u>1,472,785</u>	<u>1,477,472</u>
Net Position - Ending	<u>1,460,707</u>	<u>1,472,785</u>

Property taxes were the most significant source of revenues, accounting for 52% of total revenues. Charges for services provided to patients accounted for 41% of revenues. Operating expenses increased mainly as the result of an increase in wages (\$63,046).

Budget Variances in the Enterprise Fund

The District was not required to amend the budget for the 2016 fiscal year; the expenses of the District's enterprise fund did not exceed the fund budget.

Budget Variances in the Enterprise Fund (continued)

Significant budget variances were as follows:

<u>Account</u>	<u>Budget</u>	<u>Actual Amount</u>	<u>Variance Positive (Negative)</u>
----------------	---------------	----------------------	-------------------------------------

Expenditures:

Bad debts	\$ 320,000	346,780	(26,780)
-----------	------------	---------	----------

Reason: Ambulance fees have increased significantly over the past few years, resulting in increasing bad debt.

Wages, taxes, and benefits	\$ 913,000	896,688	16,312
----------------------------	------------	---------	--------

Reason: Conservative budgeting regarding payroll taxes and health insurance expense.

Vehicle Repairs & Maintenance	\$ 32,000	\$13,530	18,470
-------------------------------	-----------	----------	--------

Reason: R&M is variable by nature. Last year's actual amount was \$20,415.

Capital Asset and Debt Administration

Capital Assets: The District's net capital assets increased by \$109,977 due to current year additions, offset by current year depreciation expense. Additional information as well as a detailed classification of the District's capital assets can be found in the Notes to the Financial Statements on page D7.

Long-term Debt: The District has long-term debt in the form of lease-purchase obligations. As of the end of the current fiscal year, the District's long term liability decreased by \$178,759 as a result of lease principal payments made in 2016, offset by the increase due to the new ambulance capital lease of \$197,891. Additional information can be found in the Notes to the Financial Statements on pages D7 through D8 of this report.

Next Year's Budget and Rates

The District's unrestricted net position was \$485,961 at the end of the current year. The District's 2017 budget anticipates available resources (beginning fund balance plus revenues) of \$1,928,226 and \$1,786,629 of expenditures.

Request for Information

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to South Park Ambulance District, P.O. Box 417, Fairplay, Colorado 80440.

NOTES TO THE FINANCIAL STATEMENTS

**South Park Ambulance District
Notes to the Financial Statements
December 31, 2016**

I. Summary of Significant Accounting Policies

The South Park Ambulance District (the "District") was formed under Colorado statutes as a special district. The District's service area is located within the boundaries of Jefferson-Como Fire Protection District, Hartsel Fire Protection District and Northwest Fire Protection District primarily in southern Park County, Colorado, with the purpose to provide ambulance, medical transportation and emergency medical services within its boundaries. Five elected board members govern the District.

The District's financial statements are prepared in accordance with generally accepted accounting principles ("GAAP"). The Governmental Accounting Standards Board ("GASB") is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established by GAAP used by the District are discussed below.

A. Reporting Entity

The reporting entity consists of (a) the primary government; i.e., the District, and (b) organizations for which the District is financially accountable. The District is considered financially accountable for legally separate organizations if it is able to appoint a voting majority of an organization's governing body and is either able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the District. Consideration is also given to other organizations, which are fiscally dependent; i.e., unable to adopt a budget, levy taxes, or issue debt without approval by the District. Organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete are also included in the reporting entity.

Based on the criteria above, the District is not financially accountable for any other entity nor is the District a component unit of any other government.

B. Accounting Policies

The District uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions and activities. A fund is a separate accounting entity with a self-balancing set of accounts.

The District uses a proprietary fund-type, an enterprise fund, to account for its activities of providing ambulance, medical transportation and emergency medical services to taxpayers within the District's boundaries. Enterprise funds are used to account for operations (a) which are financed and operated in a manner similar to private business enterprises – where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

**South Park Ambulance District
Notes to the Financial Statements
December 31, 2016
(Continued)**

I. Summary of Significant Accounting Policies (continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Measurement focus refers to whether financial statements measure changes in current resources only (current financial focus) or changes in both current and long-term resources (long-term economic focus). Basis of accounting refers to the point at which revenues, expenditures, or expenses are recognized in the accounts and reported in the financial statements. Financial statement presentation refers to classification of revenues by source and expenses by function.

1. Measurement Focus and Basis of Accounting

Proprietary funds use the long-term economic focus and are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred, regardless of the timing of the related cash flows.

2. Financial Statement Presentation

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's enterprise fund are charges to customers for services. Operating expenses for the enterprise fund include the services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

D. Financial Statement Accounts

1. Cash and Investments

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within 3 months of the date acquired by the District.

The District follows Colorado statutes specifying specific investment instruments meeting defined rating criteria in which local governments may invest, which include:

- U.S. Treasury Obligations (maximum maturity of 60 months)
- Federal Instrumentality Securities (maximum maturity of 60 months)
- FDIC-insured Certificates of Deposit (maximum maturity of 18 months)
- Corporate Bonds (maximum maturity of 36 months)
- Prime Commercial Paper (maximum maturity of 9 months)
- Eligible Bankers Acceptances
- Repurchase Agreements
- General Obligations and Revenue Obligations
- Local Government Investment Pools
- Money Market Mutual Funds

**South Park Ambulance District
Notes to the Financial Statements
December 31, 2016
(Continued)**

I. Summary of Significant Accounting Policies (continued)

D. Financial Statement Accounts (continued)

2. Receivables

Receivables are reported net of an allowance for uncollectible accounts. The District's policy is to establish an allowance for uncollectible accounts based on historical experience and individual analysis of accounts.

3. Property Taxes

Property taxes are assessed in one year as a lien on the property, but not collected by governmental units until the subsequent year. In accordance with GAAP, the assessed but uncollected property taxes have been recorded as a receivable and as deferred revenue.

4. Prepaid Expenses

Prepaid expenses are amounts paid in the current year for expenses related to subsequent years.

5. Capital Assets

Capital assets, which include land, a building, vehicles, and equipment, are reported in the District's financial statements. The District defines capital assets as assets with an initial cost of \$5,000 or more and an estimated useful life in excess of two years. Such assets are recorded at historical cost. Donated capital assets are recorded at estimated fair value at the date of donation.

Capital outlay for projects is capitalized as projects are constructed. Interest incurred during the construction phase is capitalized as part of the value of the assets constructed, if applicable.

The building, vehicles, and equipment are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Building	40
Vehicles and equipment	5-10

6. Compensated Absences

Earned but unused vacation benefits are accrued when incurred in the financial statements.

7. Deferred Inflows of Resources

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has one type of item that qualifies for reporting in this category. The item, unavailable property tax revenue, is deferred and recognized as an inflow of resources in the period the amounts become available and earned.

**South Park Ambulance District
Notes to the Financial Statements
December 31, 2016
(Continued)**

I. Summary of Significant Accounting Policies (continued)

D. Financial Statement Accounts (continued)

8. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

II. Stewardship, Compliance, and Accountability

A. Budgetary Information

In the fall of each year, the District's Board of Directors formally adopts a budget with appropriations by fund for the ensuing year pursuant to the Colorado Local Budget Law. The proprietary fund was adopted on a non-GAAP budgetary basis and has been reconciled to a GAAP basis in the financial statements.

Annual appropriations are adopted for all funds. Expenditures may not legally exceed appropriations at the fund level and all appropriations lapse at year-end.

As required by Colorado statutes, the District followed the required timetable noted below in preparing, approving, and enacting its budget for 2016.

1. For the 2016 budget year, prior to August 25, 2015, the County Assessor sent to the District an assessed valuation of all taxable property within the District's boundaries. The County Assessor may change the assessed valuation on or before December 10th only once by a single notification to the District.
2. The Manager of the District submitted, on or before October 15, 2015, a recommended budget that detailed the necessary property taxes needed along with other available revenues to meet the District's operating requirements.
3. Prior to December 15, 2015, after a required publication of "Notice of Proposed Budget" and a public hearing, the District certified to the County Commissioners a levy rate that derived the necessary property taxes as computed in the proposed budget, and the District adopted the proposed budget and an appropriating resolution that legally appropriated expenditures for the upcoming year.
4. After adoption of the budget resolution, the District may make the following changes: a) approve supplemental appropriations to the extent of revenues in excess of estimated revenues in the budget; however, no supplemental appropriations were made during 2016; b) approve emergency appropriations; and c) reduce appropriations for which originally estimated revenues are insufficient.

Taxes levied in one year are collected in the succeeding year. Thus, taxes certified in 2015 were collected in 2016 and taxes certified in 2016 will be collected in 2017. Taxes are due on January 1st in the year of collection; however, they may be paid in either one installment (no later than April 30th) or two equal installments (not later than February 28th and June 15th) without interest or penalty. Taxes that are not paid within the

**South Park Ambulance District
Notes to the Financial Statements

(Continued)**

II. Stewardship, Compliance, and Accountability (continued)

A. Budgetary Information (continued)

prescribed time bear interest at the rate of one percent (1%) per month until paid. Unpaid amounts and the accrued interest thereon become delinquent on June 16th.

B. TABOR Amendment

In November 1992, Colorado voters amended Article X of the Colorado Constitution by adding Section 20; commonly known as the Taxpayer's Bill of Rights ("TABOR"). TABOR contains revenue, spending, tax and debt limitations that apply to the State of Colorado and local governments. TABOR requires, with certain exceptions, advance voter approval for any new tax, tax rate increase, mill levy above that for the prior year, extension of any expiring tax, or tax policy change directly causing a net tax revenue gain to any local government.

Except for refinancing bonded debt at a lower interest rate or adding new employees to existing pension plans, TABOR requires advance voter approval for the creation of any multiple-fiscal year debt or other financial obligation unless adequate present cash reserves are pledged irrevocably and held for payments in all future fiscal years.

The District's voters approved the following Tabor ballot question on May 7, 1996:

Without imposing any new taxes or increases in tax rates, shall the South Park Ambulance District be authorized to retain all revenues from all sources in 1996 and subsequent years, and spend the same as a voter-approved revenue change and an exception to limits which would otherwise apply for each of said years?

The District's voters approved the following ballot question on November 2, 1999:

Shall the South Park Ambulance District be authorized to collect, retain and spend all revenues and other fund received from any source, including the District's existing property tax rate of 3.749 mills, which rate shall not be increased without voter approval, commencing January 1, 1999, and continuing thereafter until repealed, as a voter-approved revenue change, offset and exception to the limits which would otherwise apply under TABOR or any other law as a permanent waiver of the 5.5% limitation under section 29-1-301,.C.R.S.?

The District's management believes that it is in compliance with the financial provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of its provisions, including the interpretation of how to calculate fiscal year spending limits, will require judicial interpretation.

III. Detailed Notes on All Funds

A. Deposits and Investments

The District's deposits are entirely covered by federal depository insurance ("FDIC") or by collateral held under Colorado's Public Deposit Protection Act ("PDPA"). The FDIC insures the first \$250,000 of the Town's interest-bearing deposits at each financial institution. Non-interest-bearing deposits are fully insured by the FDIC. Interest-bearing deposit balances over \$250,000 are collateralized as required by PDPA.

There were no investments requiring disclosure of the fair value hierarchy as of December 31, 2016.

Interest Rate Risk. As a means of limiting its exposure to interest rate risk, the District diversifies its investments by security type and institution, and limits holdings in any one type of investment with any one issuer. The District coordinates its investment maturities to closely match cash flow needs and restricts the maximum investment term to less than five years from the purchase date. As a result of the limited length of maturities the District has limited its interest rate risk.

Credit Risk. State law and District policy limit investments to those authorized by State statutes including U.S. Agencies and 2a7-like pools. The District's general investment policy is to apply the prudent-person rule: Investments are made as a prudent person would be expected to act, with discretion and intelligence, to seek reasonable income preserve capital, and, in general, avoid speculative investments.

Concentration of Credit Risk. State law and District policy limit investments to those authorized by State statutes including U.S. Agencies and 2a7-like pools. The District's general investment policy is to apply the prudent-person rule: Investments are made as a prudent person would be expected to act, with discretion and intelligence, to seek reasonable income, preserve capital, and, in general, avoid speculative investments.

B. Summary and Reconciliation to Financial Statement Captions

At December 31, 2016, the District had no unrealized gains or losses. The District had the following cash and investments with the following maturities:

<u>Type:</u>	<u>Rating</u>	<u>Carrying Amount</u>	<u>Maturities</u>	
			<u>Less Than One Year</u>	<u>Less Than Five Years</u>
<i>Deposits:</i>				
Checking	Unrated	\$ 338,513	338,513	-

B. Summary and Reconciliation to Financial Statement Captions (continued)

The investment pool represents an investment in the Colorado Government Liquid Asset Trust ("COLOTRUST") which is a 2a7-like pool. The investment is measured at the net asset value, and the fair value of the pool is determined by the pool's share price. The District has no regulatory oversight for the pool.

C. Capital Assets

Capital asset activity for the year ended December 31, 2016, was as follows:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Disposals</u>	<u>Ending Balance</u>
Capital assets, not being depreciated:				
Land	\$ 8,186	-	-	8,186

D. Long-Term Liabilities (continued)

1. Capital Leases (continued)

(b) Ambulance

On February 29, 2016, the District entered into a lease purchase agreement with Wells Fargo Brokerage Services, LLC in the amount of \$197,891 to provide for the financing of a new ambulance in Fairplay, Colorado. Payments in the amount of \$52,180 are due in annual installments, including interest at 3.12% through June 15, 2019.

2. Schedule of Changes in Long-term Liabilities

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>	<u>Due Within One Year</u>
Capital Leases:					
Building	\$ 263,292	-	(128,123)	135,169	135,170
Ambulance	-	197,891	(50,636)	147,255	47,585
Total Capital Leases	<u>263,292</u>	<u>197,891</u>	<u>(178,759)</u>	<u>282,424</u>	<u>182,755</u>
Compensated absences	27,171	-	(1,780)	25,391	-
Total	<u>\$ 290,463</u>	<u>197,891</u>	<u>(180,539)</u>	<u>307,815</u>	<u>182,755</u>

3. Schedule of Debt Service Requirements

Debt service requirements at December 31, 2016, were as follows:

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total Debt Service</u>
2017	\$ 182,755	12,028	194,783
2018	49,070	3,110	52,180
2019	50,601	1,579	52,180
	<u>\$ 282,426</u>	<u>16,717</u>	<u>299,143</u>

4. Net Book Value of Assets Acquired via Lease Purchase Agreements

The net book value of the asset acquired through the capital leases as follows:

	<u>Cost</u>	<u>Accumulated Depreciation</u>	<u>Net Book Value</u>
Building	\$ 1,551,795	(538,685)	1,013,110
Ambulance	196,529	(14,038)	182,491

Amortization of leased buildings, equipment, and vehicles under capital assets is included with depreciation expense.

IV. Other Information

A. Risk Management

The District is exposed to various risks of loss related to workers compensation; general liability, unemployment, torts; theft of, damage to, and destruction of assets; and errors and omissions. The District has acquired commercial coverage for these risks and claims, if any, are not expected to exceed the commercial insurance coverage.

B. SEP Pension Plan

The District provides pension benefits for all of its employees through a defined contribution SEP plan. The plan is administered by Morgan Stanley Dean Witter. In the SEP plan, benefits depend solely on amounts contributed to the plan plus investment earnings.

Employees who are at least 21 years of age are allowed to participate at the time of employment. The plan requires the District to contribute an amount equal to a percentage of each employee's compensation each year. The percentage must be the same for each employee. For 2016, the District contributed 5%. The District's contribution for each employee is paid directly into each employee's separate account and is 100% vested upon contribution. The District has no control over the funds and can make no investment decisions. Plan provisions and contribution requirements are established and may be amended by the District's Board of Directors.

The employees are allowed to make voluntary contributions of 2 – 10% of their compensation to their accounts. The total contributed by the employee and the District combined cannot exceed the lesser of 25% of the employee's compensation or \$16,500.

The District made the required 5% contribution which amounted to \$36,178 for 2016. Employees made contributions of \$54,603 for 2016.

C. Medical Billings Services Agreement

On May 14, 2003, the District entered into an agreement with EMS/Medical Billing Solutions, Inc. to provide medical billing services to the District. The contract had an initial term of one year with automatic one year renewals until either party provides 30 days written notice of termination. Under the terms of the contract, EMS/Medical Billing Solutions, Inc. received 7% of the total amount of medical bills collected. For the year ended 2016, the District incurred \$19,157 of expenses under this agreement.
