INTRODUCTORY SECTION

**FINANCE DEPARTMENT

May 15, 2017

To the Citizens and Board of County Commissioners of Garfield County:

State law requires Garfield County (County) to publish a complete set of financial statements prepared in accordance with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted accounting standards by a firm of licensed certified public accountants.

Pursuant to those requirements we hereby present the Comprehensive Annual Financial Report (CAFR) of Garfield County, Colorado for the fiscal year ended December 31, 2016. This report was prepared by the Finance Department of Garfield County. Responsibility for both the accuracy of the presented data and the completeness and fairness of presentation, including all disclosures, rests with the County. We believe the data is accurate in all material respects and presented in a manner designed to set forth fairly the financial activity of the various funds. All disclosures necessary for the reader to gain the maximum understanding of the County's financial affairs have been included.

This report is the result of the cooperative effort between the Finance Department and McMahan and Associates, L.L.C., our independent auditors. The independent auditor's report has been included in the financial section of this report on pages B1, B2 and B3. In their opinion, the financial statements were presented fairly in all material respects.

Garfield County is also required to undergo an annual single audit in conformity with the provisions of the Federal Single Audit Act of 1996 and the U.S. Office of Management and Budget's Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Information related to this single audit, including the schedule of expenditures of federal awards, the independent auditor's reports on the internal control and compliance with applicable laws, regulations, contracts, and grants is included in the single audit section located after the Statistical Section.

GAAP requires management provide a narrative introduction, overview, and an analysis to accompany the basic financial statements. This narrative is in the form of the Management's Discussion and Analysis (MD&A) and can be found immediately following the report of the independent auditors. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it.

PROFILE OF GARFIELD COUNTY

Geography

Garfield County is located approximately 158 miles west of Denver and 88 miles east of Grand Junction and stretches from the foothills of the Colorado Rocky Mountains to the east to the high desert plateaus to the west. It encompasses 2,958 square miles and has an estimated population of 58,887 in 2016. Approximately two thirds of the land is publicly owned, controlled primarily by the U.S. Forest Service and the U.S. Bureau of Land Management. The County seat is Glenwood Springs.

Operating Structure

Incorporated February 10, 1883, Garfield County is a statutory county, defined as a service arm of the State, and derives its elected official structure and its powers from the State through enabling legislation. The three-member Board of County Commissioners serves as the legislative, policy-making and administrative body governing the unincorporated area of Garfield County. Commissioners are elected at large from one of three geographical districts and serve staggered four-year terms. In addition to having the power to levy taxes, the authority to represent the County, the responsibility for the care of County property, and the management of its affairs, the Board has the exclusive responsibility and power to adopt the annual budget for operation of County government, including all offices, boards, commissions, and other spending agencies funded in whole or in part by County appropriations.

Services

Garfield County provides the full range of services contemplated by State statute including, but not limited to, assessment and property tax administration; recording of vital documents and automobile registration; sheriff patrol and jail administration; court facilities; land use planning and building inspections; road maintenance and construction; welfare and public health services; a solid waste landfill disposal facility; general aviation airport operations; fairgrounds; and environmental health protection.

Component Units

The County, for financial reporting purposes, includes all funds of the primary government, as well as all of its component units. Component units are legally separate entities, which the primary government must disclose in its financial statements. Blended component units are, from an accounting perspective, part of the primary government's operation and are included as part of the primary government. Garfield County has one blended component unit: Travelers Highland Public Improvement District.

Budget Process

The annual budget serves as the foundation for the County's financial planning and control. All activities, departments, and funds of the County are prepared in compliance with State statute and generally accepted accounting principles. Supplemental appropriations are approved by the Board of County Commissioners as needed throughout the year. The objective of budgetary control is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of County Commissioners. Expenditures may not legally exceed appropriations at the fund or elected official level. Detailed line item records provide management the capability to monitor budgets for all areas. Budgetary control is exercised through the use of system controls, which restrict payments exceeding the budget.

Internal Control

The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that:

- (1) The cost of a control should not exceed the benefits likely to be derived, and
- (2) The valuation of costs and benefits requires estimates and judgments by management.

LOCAL ECONOMY

Garfield County's economy, largely dominated by agriculture, tourism, and natural resource development, continued to show signs of improvement in 2016 in all sectors except the energy industry. In 2016, unemployment rates dropped to levels comparable to those in 2008. The volume and number of real estate transactions increased 6% in 2016 while single family home prices increased 14%. As the housing market recovers, Garfield County continues to experience a drop in the number of foreclosures with 2016 recording 87 and thus bringing the foreclosure rate on par with pre-recession filings.

These trends are expected to continue in 2017 with growth in the housing and job markets, rising incomes, and increasing retail, tourism, and related sales tax revenues. Property tax revenues are expected to decrease in 2017 due to reduced oil and gas production in the Piceance Basin and reduced natural gas prices in 2015, the year in which assessments are made for 2017 revenues.

LONG-TERM FINANCIAL PLANNING

As mentioned previously, the financial health of Garfield County is significantly dependent on natural resource development. Approximately 50% of the County's total revenue is related to property tax, and almost three quarters of property tax revenue is associated with the energy industry. Because of this and other factors, Garfield County has built up a healthy fund balance to ensure stable levels of service to Garfield County citizens, stable employment and benefits for its employees, and a strong assurance it will not need to ask the taxpayers for tax increases to pay for the growing needs of the County during downturns in our local economy.

In order to meet emergency obligations, avoid interruptions in cash flow, generate interest income, and maintain a sound bond rating, the County has determined it will maintain an unassigned fund balance in the General Fund plus the Oil and Gas Mitigation Fund of one third of the County's total General Fund expenditures. The County's unassigned fund balance in the General Fund is 77% of regular General Fund operating revenues, which falls above the policy guidelines set by the Board of County Commissioners for budgetary and planning purposes (between five and fifteen percent of total General Fund operating revenues). Due to the volatile economy driven by the oil and gas industry, Garfield County strives to maintain an unassigned fund balance in these Funds in excess of these recommendations.

Looking forward, the County sees a need for constant re-evaluation of its projects and programs. These are revisited, re-evaluated, and prioritized during the annual strategic planning process and in preparation for the budget. The County emphasizes continual improvement of work processes, and prudent stewardship of public resources, to ensure the County is providing the best services possible at the lowest possible cost. We also counsel prudence and restraint regarding multiyear capital projects because a sustained reduction in natural gas production could put a significant strain on the county's reserves.

RELEVANT FINANCIAL POLICIES

Garfield County has a comprehensive set of financial policies. In 2016, there were no changes to policies that would directly affect the County's financial or budget situation.

MAJOR INITIATIVES

In 2016, Garfield County continued to focus on the strategic priorities identified by the Board of County Commissioners. Highlights included:

- Investment in core infrastructure including development of the Fairgrounds to be used as a year round event center, completion of the Rifle administration building and Road and Bridge projects;
- Expansion of senior programs;
- Assist municipalities with key infrastructure projects;
- Maintained operating costs and adopted a balanced budget for 2017.

AWARDS AND ACKNOWLEDGEMENTS

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Garfield County, Colorado for its comprehensive annual financial report for the fiscal year ended December 31, 2015. This was the eighth consecutive year that Garfield County has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

In addition, Garfield County also received the GFOA's Distinguished Budget Presentation Award for its budget document for the period beginning January 1, 2016. This was the seventh time Garfield County received this award. In order to qualify for the Distinguished Budget Presentation Award, the government's budget document was judged to be proficient in several categories, including a policy document, a financial plan, an operations guide, and a communications device.

Acknowledgements

The preparation of this report would not have been possible without the efficient and dedicated service of the Garfield County Finance Department. In addition, as a staff we are grateful for the assistance we receive from our independent auditors, McMahan and Associates, L.L.C.

In closing, we wish to acknowledge the leadership of the Board of County Commissioners and the cooperation of each of the County's elected officials and departments as we work together to conduct the County's financial operations. The Board supports prudent fiscal management

and stewardship in a responsible and progressive manner, and the strong financial condition of Garfield County can be attributed to its positive leadership.

INDEPENDENT AUDITOR'S REPORT

**To the Board of County Commissioners
Garfield County, Colorado**

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Garfield County, Colorado, (the "County"), as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Garfield County, Colorado as of December 31, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis in Section B be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The budgetary comparison information in Section E is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statement or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's financial statements taken as a whole. The introductory section, combining fund financial statements, individual fund budgetary information, the Local Highway Finance Report, and the statistical section listed in the accompanying table of contents are presented for purposes of additional analysis and are not a required part of the County's financial statements. The combining fund financial statements, the individual fund budgetary information, and the Local Highway Finance Report are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

**To the Board of County Commissioners
Garfield County, Colorado**

Additionally, the Schedule of Expenditures of Federal Awards included in the Single Audit section are presented for the purpose of additional analysis, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"), and are not a required part of the County's financial statements. Such information has been subjected to the auditing procedures applied audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statement or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 12, 2017 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Management's Discussion and Analysis
December 31, 2016

This section of Garfield County's (the County) Comprehensive Annual Financial Report (CAFR) presents narrative discussion and analysis of the financial activities of the County for the fiscal year ended December 31, 2016. This information should be considered in conjunction with that furnished in the letter of transmittal, which can be found preceding this narrative, and with the County's financial statements and notes to the financial statements, which follow.

FINANCIAL HIGHLIGHTS

- As of December 31, 2016, the County's total assets were \$467.2 million, and total liabilities and deferred inflow of resources were \$40.4 million. The total net position was therefore \$426.8 million, an increase of 0.4 percent (\$1.5 million) over 2015.
- Total net position comprises the following:
 - (1) Investment in capital assets including property and equipment, net of related debt (if any) and accumulated depreciation, of \$298.0 million
 - (2) Restricted net position of \$61.6 million, which is constrained for specific purposes by external providers, such as creditors, or amounts constrained due to constitutional provisions or enabling legislation
 - (3) Unrestricted net position of \$67.3 million, which represents the portion available to maintain the County's continuing obligations to its citizens and creditors.
- Total governmental fund revenues (including transfers in) in 2016 were \$99.6 million, a 0.3 percent (\$0.3 million) decrease under 2015.
- Total governmental fund expenditures (including transfers out) in 2016 were \$97.2 million, a 4.7 percent (\$4.8 million) decrease under 2015.
- As of December 31, 2016, the County's governmental funds reported combined ending fund balances of \$121.9 million. This compares to the prior year ending fund balances of \$119.5 million, an increase of 2.0 percent (\$2.4 million) during 2016. Approximately \$41.3 million (33.9 percent) is unassigned fund balance.
- At the end of 2016, fund balance for the General Fund was \$45.4 million, amounting to 90.3 percent of total General Fund expenditures. This compares to the prior year ending fund balance of \$40.4 million with an increase of 12.4 percent (\$5.0 million) during 2016.

The above financial highlights are explained in more detail in the financial analysis section of this document.

OVERVIEW OF THE FINANCIAL STATEMENTS

This Management Discussion and Analysis document introduces the County's basic financial statements. The basic financial statements include:

- Government-wide Financial Statements
- Fund Financial Statements
- Notes to the Basic Financial Statements

The County also includes in this report additional information to supplement the basic financial statements.

Government-wide Financial Statements

The County's annual report includes two government-wide financial statements. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in accrual accounting and elimination or reclassification of activities between funds. The two statements are:

The **statement of net position** presents all of the County's assets, liabilities and deferred outflows and inflows, with the difference between reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County as a whole is improving or deteriorating. Evaluation of the overall health of the County should extend to other nonfinancial factors such as diversification of the taxpayer base or the condition of County infrastructure, in addition to the financial information provided in this report.

The **statement of activities** reports how the County's net position changed during the fiscal year. All current year revenues and expenditures are included regardless of when cash is received or payments are made. An important purpose of the design of the statement of activities is to show the financial reliance of the County's distinct activities or functions on revenues provided by the County's taxpayers.

Both government-wide financial statements distinguish governmental activities of the County that are principally supported by property and sales taxes and from business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges. Governmental activities include general government; public safety; health and welfare; culture and recreation; and maintenance and improvement of transportation, infrastructure, buildings, grounds, and public works. Business-type activities include the solid waste disposal operations (landfill).

The government-wide financial statements are presented on pages C1 and C2 of this report.

Fund Financial Statements

The fund financial statements are designed to report information about groupings of related accounts used to maintain control over resources segregated for specific activities or objectives. The County, like other state and local governments, uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Fund financial statements focus on the County's most significant funds, known as major funds, rather than the County as a whole. Major funds are reported separately while all others are combined into a single, aggregated presentation. Individual fund data for non-major funds are provided in the form of combining statements in a later section of this report.

All the funds of the County fall into one of three types: governmental funds, proprietary funds, and fiduciary funds.

Garfield County, Colorado
Management's Discussion and Analysis
December 31, 2016

Governmental funds. Most of the services provided by the County are accounted for in governmental funds. Governmental funds are used to account for essentially the same functions, which are reported as governmental activities in the government-wide financial statements. Unlike the government-wide financial statements, however, the governmental funds financial statements focus on the use of spendable resources during the year and the balances available at the end of the year for future spending. Such information is useful in determining whether there will be adequate financial resources available to meet the current and near-term needs of the County.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The County's governmental funds are comprised of a general fund, a capital projects fund and eleven special revenue funds. Four governmental funds, the General Fund, the Road and Bridge Fund, the Human Services Fund and the Capital Expenditures Fund are considered major funds for financial reporting purposes. Each of the major funds is presented in a separate column in the governmental fund financial statements presented on pages C3 through C6 of this report. Individual fund information for non-major governmental funds is found in combining statements in a later section of this report.

Proprietary funds. Services for which the County charges customers a fee are accounted for in proprietary funds. The two County proprietary funds are the Solid Waste Disposal Fund and the Motor Pool Fund. The Solid Waste Disposal Fund is an enterprise fund, which encompasses the same functions reported as business-type activities in the government-wide statements. The Motor Pool Fund is an internal service fund which reports activities that provide services to the County's other programs and activities on a cost reimbursement basis. For reporting purposes, the Motor Pool Fund is included in the governmental activities in the government-wide financial statements. The basic proprietary fund financial statements are presented on pages C7 through C9 of this report.

Fiduciary funds. Assets held in a trustee or agency on behalf of another legally separate party or entity are accounted for in fiduciary funds. Since the resources of these funds are not available to support the County's own programs, they are not reflected in the government-wide financial statements and only balance sheet accounts are used. The County has no trustee funds. The County agency fund information is presented on pages C10 and F17 of this report.

Notes to the Basic Financial Statements

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements begin on page D1 of this report.

Other Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information on the County's annual budget. The County adopts a budget appropriated for each fund. Budgetary comparison statements are included as Required Supplementary Information for the General Fund, the Road and Bridge Fund, and the Human Services Fund on pages E1 – E3. Budgetary comparison schedules for all other governmental funds including the Capital Expenditures Fund type can be found in the Supplementary Information section of this report on pages F1, and F6 through F14. The proprietary funds budgetary comparison schedules are on pages F15 and F16. These statements and schedules demonstrate compliance with the County's adopted and amended budget.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Summary of Net Position

An analysis of net position may serve as a useful indicator of a government's financial health. Total assets for the County on December 31, 2016 were \$467.2 million, total liabilities were \$10.1 million, and deferred inflows of resources were \$30.3 million. The County's net position is therefore \$426.8 million, an increase of 0.4 percent over December 31, 2015. The following provides a summary of the County's net position (as presented on page C1):

The County continues to maintain very strong current ratios. The current ratio compares current assets to current liabilities and is an indication of the ability to pay obligations within one year. The current ratio for governmental activities is 4:1 and 54:1 for business-type activities. For the County overall, the current ratio is 4:1 meaning current assets are four times greater than current liabilities.

The County reported positive balances in net position for both governmental and business-type activities. Net position increased \$1.2 million for governmental activities and increased by \$313 thousand for business-type activities. The County's overall total net position increased during 2016 by \$1.5 million. The gain in net position is due to higher revenues compared to 2015.

As of December 31, 2016, the County's governmental activities reported a combined ending net position of \$419.4 million, an increase of 0.3 percent (\$1.2 million) more than the prior year. Of this, 15.0 percent (\$62.9 million) is unrestricted and constitutes available funds for spending in the coming year at the County's discretion. Legally restricted net position includes \$32.4 million restricted to road and bridge, \$18.0 million restricted to human services, \$4.7 million restricted to capital projects, \$3.0 million restricted to emergency reserve, and \$3.0 million restricted to public health.

Approximately 70 percent of the governmental activities' net position is invested in capital assets. Capital assets are tangible property used in the operation of the County such as land, roads and bridges, buildings, machinery, furnishings and equipment. The County uses these capital assets to provide services to its citizens. For business-type activities, 41.2 percent of its net position is invested in capital assets providing facilities and equipment for the Solid Waste Disposal Fund.

GOVERNMENTAL REVENUES

Total governmental revenues for 2016 were \$96.3 million (excluding transfers in) compared to \$92.9 million in 2015, an increase of 3.7 percent. The source of revenues is as follows:

Governmental Revenues by Source 2016	
Taxes	\$57,798,500
Intergovernmental	26,415,032
Charges for Services	8,813,210
Contributions	1,103,386
Investment Income	942,809
Other	1,228,210
Total	\$96,301,147

The County is heavily reliant on taxes and intergovernmental revenues to support governmental operations and capital improvements.

Property taxes are the largest source of revenue with \$46.7 million accounting for 48.5 percent of total revenues. Sales taxes of \$8.7 million represent 9.0 percent of revenues.

Intergovernmental revenues of \$26.4 million represents 27.4 percent of the County's total governmental revenues. This includes \$16.5 million from the State for Human Services programs, \$3.5 million from the State Highway Users Tax Fund for road and bridge purposes, \$3.0 million from the Payment in Lieu of Taxes (PILT), and \$0.7 million in federal mineral severance taxes.

GOVERNMENT-WIDE – GOVERNMENTAL ACTIVITIES – FUNCTION/PROGRAM ANALYSIS

Program revenues such as charges for services, operating and capital grants and contributions, cover 38.8 percent of governmental activities expenses. This is a very high percentage and largely relates to the social services grants and other grants mentioned above. This means that the government's taxpayers and the County's other general governmental revenues fund 61.2 percent of the governmental activities. As a result, the general economy and the County businesses have a major impact on the County's revenue streams.

Total governmental activities expenses by function or program are as follows:

Governmental Activities Expenses by Function/Program 2016	
General government	\$24,596,283
Public safety	22,126,678
Public works	23,584,988
Health and welfare	22,598,603
Culture and recreation	2,113,473
Total	\$ 95,020,025

The general government, public safety, public works, and health and welfare functions account for 97.8 percent of governmental activities expenses.

Garfield County, Colorado
Management's Discussion and Analysis

Each of these functions generates some form of revenue. The following table presents the net cost of the functions, i.e. the expenses less revenues generated by the activities. The net costs illustrate the financial burden placed on the County's taxpayers by each of these functions.

Net Cost of Governmental Activities by Function/Program 2016	
General government	\$ 16,268,676
Public safety	20,827,813

Total net cost of governmental activities of \$58.2 million is 61.2 percent of the total cost of governmental activities of \$95.0 million. This means 61.2 percent of governmental activities are paid for with taxpayer dollars and 38.8 percent are funded with program revenues such as charges/fees for services, grants and contributions.

BUSINESS-TYPE ACTIVITIES

The Solid Waste Disposal Fund, which accounts for the activities of the landfill, is the only business-type activity of the County. In 2016, the fund accounted for an increase in the County's net position of \$312,855 primarily due to higher charges for services than expenses.

Operating revenues of the fund were \$1.7 million and operating expenses were \$1.5 million. At 90.7 percent, charges for services (tipping fees) accounted for the majority of revenues. Other revenues included two items: 1) Sale of Capital Assets for \$65 thousand; and 2) interfund transfer of \$86 thousand from the General Fund for cost reimbursement.

Wages and benefits accounted for 40.0 percent of expenses and the remaining 60.0 percent was for other operating expenses.

ANALYSIS OF THE COUNTY'S GOVERNMENTAL FUNDS

As previously discussed, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of the County's governmental funds is to provide information on near-term inflows, outflows and balance of resources. This information is useful in assessing the County's financing requirements.

Overall, governmental fund revenues totaled approximately \$96.3 million in 2016, an increase of 3.8 percent over the prior year. Taxes, primarily property tax, increased by 5.9 percent (\$3.2 million) and intergovernmental revenues were down 8.7 percent (\$2.5 million) mostly due to a decrease in state mineral severance taxes of \$2.1 million and the remaining decreases was primarily in state reimbursements of human services programs. Charges for services increased by 31.3 percent (\$2.1 million) primarily due to a royalty one-time catch-up payment of \$1.6 million. Investment Income increased by 50.0 percent (\$0.3 million). Modest increases and decreases took place in other revenue sources.

In 2016, expenditures for governmental funds totaled \$93.7 million, a decrease of 1.3 percent (\$1.2 million). A \$0.2 million increase took place in General Government, a 0.7 percent increase mostly due to higher capital expenditures. Public Safety decreased 5.8 percent (\$1.3 million) primarily due to lower capital expenditures. Public Works has a 2.6 percent decrease (\$0.5 million) which reflects less investment in road and bridge capital projects in 2016. Culture and recreation decreased 4.8 percent (\$0.1 million) caused by less capital investment in the County Fairgrounds in 2016.

Information on the County's major funds is as follows:

General Fund

The General Fund is the primary operating fund for the County and the largest source of day-to-day service delivery.

The General Fund's fund balance increased by 12.4 percent (\$5.0 million) in 2016 to \$45.4 million. Unassigned fund balance constitutes 91.0 percent (\$41.3 million) of fund balance available for spending in the coming year at the County's discretion. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 88.1 percent of total General Fund expenditures and total fund balance represents 96.8 percent of expenditures.

In 2016, total revenues for the General Fund were \$55.2 million (including interfund transfers in from other funds), an increase of 26.6 percent over the prior year. Taxes generated more than half this

Investment Earnings	835,560
Contributions	1,094,477
Interfund Transfers	800,000
Other Revenue	686,476
Total	\$55,185,928

General Fund revenues were 2.4 percent over the amended budget in 2016. Property tax revenues were \$6.0 million higher than last year due to increased ad valorem taxes from oil and gas industry. Intergovernmental taxes were higher by \$3.2 million due to moving the Payment in Lieu of Taxes (PILT) to the General Fund from Oil & Gas Mitigation Fund.

Management's Discussion and Analysis
December 31, 2016

Total expenditures for the General Fund in 2016 (including interfund transfers to other funds) were \$50.2 million, a 3.3 percent decrease over 2015. A large part was due to a decrease of \$3.0 million in interfund transfers for capital to the Airport Fund.

As mentioned previously, the General Fund is the County's primary operating fund and consequently it contains a total of eighteen elected official offices and departments. Wages and benefits, therefore, make up 49.5 percent of total expenditures, while services provided for the County (professional and technical services, and purchased services) comprised 17.2 percent of the total. The following presents the total General Fund expenditures by classification:

General Fund Expenditures 2016	
Wages & Benefits	\$24,859,372
Professional and Technical Services	3,493,335
Purchased Services	5,143,796
Supplies	2,359,500
Interfund Transfers	3,386,064
Other Expenditures	10,997,733
Total	\$50,239,800

During 2016, there was a \$0.4 million (0.8 percent) increase in appropriations between the adopted and amended budgets for General Fund expenditures. The majority of the increase was in both other expenditures of \$0.2 million and services of \$0.2 million.

General Fund expenditures were 8.4 percent (\$4.6 million) below the amended budget in 2016, which is the normal trend the County has experienced in previous years. There was a multitude of cost savings across the board with all departments and offices coming under budget. Notable variances include: lower than budgeted wages and benefits primarily due to vacancy savings of \$1.4 million and lower health insurance costs of \$559 thousand. In addition, the Sheriff's office spent only 61 percent of the emergency management contingency and returned \$477 thousand to fund balance.

Road and Bridge Fund

The Road and Bridge Fund is used to account for the construction, maintenance, and snow removal on all County roads and bridges. The fund balance decreased by \$0.7 million in 2016 and has \$32.5 million available for future spending at the year-end. In 2016, total revenues of \$12.5 million in this fund decreased by 42.1 percent over 2015 and total expenditures of \$13.2 million decreased by 1.5 percent over 2015.

In 2016, the majority of the decrease in revenue were in property taxes of \$6.3 million, in Federal Mineral Severance for \$2.0 million and a non-interfund transfer in from Traffic Impact Fund for \$0.7 million that were all under 2015. Revenue offsets were minimal.

All expenditures in the Road and Bridge Fund are a public works function. Expenditures by classification were as follows:

Road and Bridge Fund Expenditures 2016	
Wages and benefits	\$3,549,457
Professional and technical services	4,055,636
Purchased services	633,715
Supplies	1,525,963
Capital expenditures	2,826,421
Other expenditures	573,976
Total	\$13,165,168

Human Services Fund

The Human Services Fund is used to account for a variety of State mandated social services including public assistance, child support, and family service programs. These services are provided by the County's Department of Human Services (DHS). In 2016, revenues in excess of expenditures caused the Human Services fund balance to grow 15.2 percent from \$15.8 million to \$18.2 million. When compared to 2015, total revenues decreased by 0.3 percent (\$0.1 million); property taxes increased by 6.7 percent (\$0.3 million); and intergovernmental revenues decreased by 2.6 percent (\$0.4 million). The majority of revenues (78.0 percent) in this Fund are from intergovernmental sources.

Total expenditures increased by 0.2 percent (\$46 thousand) compared with 2015, these were due to increases in wages and benefits caused by federally mandated programs that required additional staff; the annual merit increases (up to 2.5 percent); and increases in health benefits.

Of the \$8.6 million categorized as other expenditures, \$1.6 million was spent on Child Welfare Block Grant programs, \$5.7 million on the Food Assistance Benefits program, \$0.8 million on the Old Age Pension program, and \$0.5 million on Child Care Assistance program.

Capital Expenditures Fund

The Capital Expenditures fund balance decreased by 33.8 percent from \$7.1 million in 2015 to \$4.7 million in 2016.

In 2016, there were \$3.2 million in revenues due to taxes.

CAPITAL ASSETS AND LONG-TERM OBLIGATIONS

Capital Assets

As of December 31, 2016, the County's investment in capital assets (less accumulated depreciation) for governmental activities (including the motor pool fund) was \$294.9 million. The investment in capital assets activities (less accumulated depreciation) for business-type activities was \$3.1 million.

In 2016, major capital expenditures included:

- Road & Bridge had eight projects totaling \$1.8 million. Six projects were completed in 2016 and one was carried-over into 2017. One major road project was completed: CR113/SH82 Cattle Creek Intersection Acceleration/Deceleration Lanes for \$918 thousand; two drainage projects were completed in Battlement Mesa for \$491 thousand. Four bridge projects were completed or carried forward. They are as follows: three bridge scour protection projects completed on CR108, CR300 & CR311 for \$325 thousand; and CR137 Canyon Creek Bridge Replacement for \$87 thousand, which is being carried forward into 2017.
- The Airport had two major and two minor capital improvement projects totaling \$1 million, which were all completed in 2016: Airport Entrance Upgrade for \$742 thousand; Fuel Farm (2015 carry forward) final payment for \$138 thousand; Observation Shade Structure for \$20 thousand; and Sheriff's Impoundment Lot for \$10 thousand.
- Two land purchases in 2016 totaling \$226 thousand: CDOT maintenance hut (across from the back of the Fairgrounds) for \$35 thousand and property in proximity to the new Rifle administration building to be used for parking lot construction in 2017 for \$191 thousand.
- Design & Construction of a new administration building in Rifle. Design began in May 2015 and the construction was completed in June 2016 totaling \$2.3 million. The total project expenditure totaled \$4.6 million.
- The Sheriff's Office purchased Mobile Data Technology (MDT) computer hardware and software for Sheriff's Office patrol cars costing \$85 thousand; a finger print machine for the jail for \$16 thousand; and replacement of six Sheriff's Office vehicles totaling \$287 thousand.
- In the Motor Pool Fund: Community Development purchased a F150 CNG pick-up truck for \$39 thousand; Criminal Justice Services purchased a Chevy 15 Passenger van for \$31 thousand; and Road & Bridge purchased a replacement pick-up truck for \$58 thousand.
- Seven pieces of heavy equipment were purchased in 2016 by Road & Bridge totaling \$1 million: two dump trucks for \$386 thousand; a heavy haul tractor for \$119 thousand; a motor grader for \$280 thousand; a mower for \$121 thousand; a Smithco Side Dump Semi Trailer for \$52 thousand; and one Bobcat Skid Steer for \$50 thousand.
- The Landfill continued the development of the PCS Contaminated Soil Treatment facility and spent \$61 thousand of the approximately \$578 thousand project in 2016. The facility is to be used by energy industry for storage of contaminated soils. The project was completed in the first half of 2016.
- Fairgrounds improvements included the completion of the North Hall remodel for \$122 thousand of a \$176 thousand project, and fire alarm/suppression of both North and South Halls for \$26 thousand.
- The Road and Bridge Shop Remodel/Motor Pool CNG shop upgrades still in process at the end of 2016 spent \$632 thousand. The project is scheduled to be completed in 2017 for a total of \$1.25 million.

ECONOMIC OUTLOOK AND 2017 BUDGET

Garfield County's economy, largely dominated by agriculture, tourism, and natural resource development, continued to show signs of improvement in 2016 in all sectors, except the energy industry. This trend is expected to continue in 2017 with growth in the housing and job markets, rising incomes, and increasing retail, tourism, and related sales tax revenues. Property tax revenues are expected to decrease in 2017 due to both a lower price and production of natural gas in 2015, the year in which assessments are made for 2017 revenues.

The County continues to experience strong demand for many of its services, especially Human Services and Road and Bridge projects. With careful and prudent management and efficient use of funds, the County will continue to provide quality services and maintain operating expenditures in 2017. The operating budget is balanced with excess revenues of more than \$150 thousand and is, therefore, balanced. The Board's policy called for the adoption of a balanced operating budget and total fund balances above \$100 million. The 2017 adopted budget meets both goals.

The 2017 adopted budget is \$91,345,608 in revenues and appropriates \$105,687,458 in expenditures. The difference of \$14,341,850 is taken from fund balances and will be primarily be used for capital projects. Priorities for 2017 include replacement of two communication towers; construction of a Search and Rescue and Coroner building in the Rifle Sheriff's Office Annex Campus; construction of an Airport Snow Removal Equipment Facility; development of the Fairgrounds as a year round event center; and Road and Bridge maintenance and capital projects.

Overall, the 2017 budget and the policy-driven strategic plan enable Garfield County to continue to provide high levels of service to its citizens; invest in prudent capital improvements; and support municipalities with key infrastructure projects, while maintaining a strong financial position.

to the Statement of Net Position
December 31, 2016

Total Governmental Fund Balances	\$	121,940,565
---	----	-------------

**Amounts reported for governmental activities in the
Statement of Net Position are different because:**

Capital assets used in governmental activities (excluding the Motor Pool Fund)
are not financial resources and therefore not reported in the funds.
However, in the Statement of Net Position the cost of these assets
are capitalized and expensed over their estimated lives through
annual depreciation expense:

Cost of capital assets	\$ 462,309,299.00	
Less accumulated depreciation	<u>(169,190,481)</u>	293,118,818

Interfund receivables and payables between governmental funds are reported
on the fund Balance Sheet but eliminated on the
government-wide Statement of Net Position:

Interfund receivables	\$ 440,030.00	
Interfund payables	<u>(440,030)</u>	-

An internal service fund is used by management to charge
the costs of the motor pool to individual funds.

The assets and liabilities of the internal service fund are
included in governmental activities in the Statement of Net Position. 6,497,867

Liabilities, including compensated absences, are not due and payable in the current
period and therefore are not reported in the funds but are reported
in the government-wide Statement of Net Position:

Compensated absences	\$ <u>(2,137,215)</u>	<u>(2,137,215)</u>

Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and
Changes in Fund Balances to the Statement of Activities
For the Year Ended December 31, 2016

Net Changes In Fund Balances - Total Governmental Funds		\$ 2,477,362
Amounts reported for governmental activities in the Statement of Activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay exceeded depreciation expense in the current period.		
Depreciation expense	\$ (10,710,244)	
Capital outlay	<u>9,459,775</u>	(1,250,469)
The County has sold assets which are shown at their sales price on governmental funds but are shown as a gain or loss on the sale of assets based upon sale price less the asset's book value.		(68,941)
Elimination of transfers between governmental funds:		
Transfers in	\$ 3,300,000	
Transfers out	<u>(3,300,000)</u>	-
The internal service fund, used by management to charge the the costs of the motor pool to individual funds, is not reported in the government-wide Statement of Activities. Governmental fund expenditures are reduced and the related internal service fund profit is eliminated.		330,495
Compensated absences reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. This represents the change in compensated absences during the year.		<u>(289,236)</u>

NOTES TO FINANCIAL STATEMENTS

Garfield County, Colorado
Notes to the Basic Financial Statements
December 31, 2016

Note 1 - Summary of Significant Accounting Policies

1A. Reporting Entity

Garfield County ("County") was formed in 1883. The governing body of the County is a three member Board of County Commissioners. The County provides the following services directly: general administration, sheriff, jail, roads and bridges, solid waste disposal, public health, airport and human services.

The accounting policies of the County conform to generally accepted accounting principles (GAAP) as applicable to governments and have been consistently applied in the preparation of the financial statements. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

As required by GAAP, these financial statements present Garfield County, Colorado (the primary government) and its component unit, an entity that is a legally separate organization that must be included in the financial report of the primary government. When a component unit functions as an integral part of the primary government, its data is blended with that of the primary government.

Blended Component Unit. The component unit below is blended since the primary government and the component unit have met the criteria of having substantially the same governing body and operational responsibility.

Travelers Highland Public Improvement District – The Travelers Highland Public Improvement District (the "PID") was established in December 2009 for the purpose of infrastructure improvements located at County Road 300 and State Highway 6&24. The boundaries of the PID are within the County but costs relating to infrastructure within the PID are borne by the PID's citizens through a separate mill levy. Although the PID is a separate legal entity, for financial reporting purposes, it is part of the County and is included in the Travelers Highlands PID Fund as a blended component unit. The County's Board sits as *ex officio* as the PID Board and the County's management (below the governing body level) manages the activities of the component unit in the same manner as it manages its own activities. Therefore, it is blended based on the criteria that the primary government and the component unit have met the criteria of having substantially the same governing body and operational responsibility.

1B. Measurement Focus, Basis of Accounting and Financial Statement Presentation

Government-wide financial statements include the Statement of Net Position and the Statement of Activities, which display information about the primary government (the County) and its component units. These statements present summaries of Governmental and Business-type Activities for the County accompanied by a total column. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which significantly rely upon fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) fees, fines, and charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

1B. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

The government-wide financial statements are presented with an economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Accordingly, all of the County's assets and liabilities, including capital assets, as well as infrastructure assets and long-term liabilities, are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned, while expenses are recognized in the period in which the liability is incurred.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual funds are reported as separate columns in the fund financial statements. The County's governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The primary revenue sources, which have been treated as susceptible to accrual by the County, are property tax, sales tax, intergovernmental revenues and other taxes. All other revenue items are considered to be measurable and available only when cash is received by the County.

The following are the County's major governmental funds, proprietary funds, and fiduciary funds:

The General Fund – The General Fund accounts for all financial resources except those required to be accounted for in another fund. The General Fund's fund balance is available to the County for any purpose provided it is expended or transferred according to the general laws of Colorado.

Special Revenue Funds

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The term "proceeds of specific revenue sources" establishes that one or more specific restricted or committed revenues should be the foundation for a special revenue fund. The County reports the following major special revenue funds:

Road and Bridge Fund – State law empowers the County to levy property taxes for the purposes of construction and maintenance of County roads and bridges. This fund accounts for those taxes and all State and Federal monies received to maintain County roads and bridges.

Human Services Fund – This fund accounts for Federal and State welfare grant revenue. In addition, the County is required by Colorado Revised Statutes to levy property taxes to defray a portion of the cost of administering the grants.

Capital Projects Funds

Capital Projects Funds account for financial resources collected and used for the acquisition or construction of major capital facilities. The County reports one capital projects fund.

Capital Expenditures Fund – This fund accounts for resources assessed to be used to acquire capital assets and for the construction of major capital projects, excluding capital assets acquired by proprietary funds.

1B. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

Proprietary Funds – Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. The two proprietary funds are classified as an enterprise fund and as an internal service fund.

Solid Waste Fund (Enterprise Fund) – The Solid Waste Fund accounts for the County's landfill operations which are primarily funded by site collections.

Motor Pool Fund (Internal Service Fund) – The Motor Pool Fund accounts for transportation services provided by the Motor Pool Department to all other departments or agencies of the County on a cost reimbursement basis.

Fiduciary Funds – These funds include agency funds which account for monies held on behalf of other governments and agencies that use the County as a depository or for property taxes collected on behalf of the other governments or agencies. Agency funds are excluded from reporting in the government-wide financial statements. No budgets are adopted for the County's agency funds.

Certain eliminations have been made in regard to interfund activities, payables and receivables. All internal balances in the Statement of Net Position have been eliminated except those representing balances between the governmental activities and the business-type activities, which are presented as internal balances and eliminated in the total primary government column. In the Statement of Activities, internal service fund transactions have been eliminated except for interfund services and those transactions between governmental and business-type activities, which have not been eliminated.

Reconciliation of the fund financial statements to the government-wide financial statements is provided in the financial statements to explain the differences created by the integrated approach of GASB Statement No. 34.

1C. Cash, Cash Equivalents, and Investments

Except for departmental petty cash, cash held for third parties (i.e., DHS Child Welfare), and cash held by separate legal entities which are included in the County reporting entity, all cash is deposited with the County Treasurer. The Treasurer invests this cash to achieve the best possible return on the investments. Cash, cash equivalents, and investments are accounted for as cash and investments in all funds. Interest revenue is allocated to funds as designated by the Board of County Commissioners.

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within 3 months of the date acquired by the County.

Investments include amounts invested in securities and are stated at fair value based on quoted market prices.

The County's investment policy permits investments in the following type of obligations:

- U.S. Treasury Obligations (maximum maturity of 60 months)
- Federal Instrumentality Securities (maximum maturity of 60 months)
- FDIC-insured Certificates of Deposit (maximum maturity of 18 months)
- Corporate Bonds (maximum maturity of 36 months)
- Prime Commercial Paper (maximum maturity of 9 months)
- Eligible Bankers Acceptances
- Repurchase Agreements
- General Obligations and Revenue Obligations
- Local Government Investment Pools
- Money Market Mutual Funds

1D. Receivables

All trade and property tax receivables are reported net of an allowance for uncollectibles, where applicable.

1E. Interfund Balances

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/interfund payables." These amounts are eliminated in the governmental and business-type activities columns of the Statement of Net Position, except for any net residual amounts due between governmental and business-type activities, which are reclassified and presented as internal balances.

1F. Consumable Inventories

On the government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used (i.e. the consumption method).

On the fund financial statements, inventories of governmental funds are stated at cost while inventories of proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in, first-out basis. The cost of inventory items is recorded as an expenditure in the governmental fund types when consumed.

1G. Prepaid Expenses

Payments made to vendors for services that will benefit periods beyond December 31, 2016, are recorded as prepaid items using the consumption method by recording an asset for the prepaid amount and reflecting the expenditure/expense in the year in which services are consumed. At the fund reporting level, an equal amount of fund balance is reported as non-spendable as this amount is not available for general appropriation.

1H. Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in governmental funds. The County reports these assets in the governmental activities column of the government-wide Statement of Net Position but does not report these assets in the County fund financial statements. Capital assets utilized by enterprise funds are reported both in the business-type activities column of the government-wide Statement of Net Position and in the enterprise funds' Statement of Net Position.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The County maintains a capitalization threshold of \$5,000. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are expensed. Interest incurred during the construction of capital assets utilized by the enterprise fund is capitalized.

Garfield County, Colorado
Notes to the Basic Financial Statements

(Continued)

1H. Capital Assets (continued)

All reported capital assets are depreciated except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the County's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

Asset Class	Estimated Lives	
	Governmental Activities	Business-type Activities
Land improvements	10 - 50 Years	3 - 50 Years
Buildings	50 Years	10 - 20 Years
Building improvements	5 - 20 Years	5 - 20 Years
Machinery and equipment	3 - 20 Years	3 - 20 Years
Infrastructure and roads	20 - 50 Years	---
Intangibles	3 - 10 Years	---

1I. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

All compensated absence liabilities include salary-related payments, where applicable.

The total compensated absence liability is reported on the government-wide financial statements. Proprietary funds report the total compensated liability in each individual fund at the fund reporting level. Governmental funds report the compensated absence liability at the fund reporting level only "when due."

1J. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of these funds. However, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are "due for payment" during the current year.

1K. Fund Balance and Net Position

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

Fund Balance – Generally, fund balance represents the difference between the current assets and current liabilities. Governmental accounting standards establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Fund balance classifications, include Non-spendable, Restricted, Committed, Assigned, and Unassigned. These classifications reflect not only the nature of funds, but also provide clarity to the level of restriction placed upon fund balance. Fund Balance can have different levels of restraint, such as external versus internal compliance requirements. Unassigned fund balance is a residual classification within the general fund. The general fund should be the only fund that reports a positive unassigned balance. In all other funds, unassigned is limited to negative residual fund balance. For further details of the various fund balance classifications refer to Note 3I.

Garfield County, Colorado
Notes to the Basic Financial Statements
December 31, 2016
(Continued)

1K. Fund Balance and Net Position (continued)

Net Position – Net position represents the difference between assets, liabilities, and deferred inflow (outflow) of resources. Net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. All other net position is reported as unrestricted.

The County applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

1L. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the County, these revenues are charges for services for solid waste and the use of vehicles in the motor pool. Operating expenses are necessary costs incurred to provide the good or service that are the primary activity of each fund.

1M. Contributions of Capital

Contributions of capital in proprietary fund financial statements arise from outside contributions of capital assets, from grants or outside contributions of resources restricted to capital acquisition and construction, or from contributions (receipt) or disposals (donation) with the governmental activities funds.

1N. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after the non-operating revenues/expenses section in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements (i.e. they are netted).

Transfers between governmental and business-type activities on the government-wide Statement of Activities are reported as general revenues. Transfers between funds reported in the governmental activities column are eliminated. Transfers between funds reported in the business-type activities column are eliminated.

1O. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States, requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Garfield County, Colorado
Notes to the Basic Financial Statements
December 31, 2016
(Continued)

1P. Deferred Outflows and Inflows of Resources

In addition to assets, the Statement of Financial Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The County doesn't have any items that qualify for reporting in this category at December 31, 2016.

In addition to liabilities, the Statement of Financial Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The County has only one type of item that qualifies for reporting in this category. Accordingly, the item, property tax revenue, is deferred and recognized as an inflow of resources in the period that the amounts become available and earned.

Note 2 – Stewardship, Compliance and Accountability

2A. Budgetary Information – The County adopts an annual operating budget for all governmental and proprietary funds. Budgets for the governmental fund types are adopted on a basis consistent with GAAP. The proprietary fund types adopt budgets using a non-GAAP budgetary basis.

The County's original budget legislation begins with combining historical data, assessment of needs for the upcoming year and the Board's platform to review, and/or make changes to each department's budget. Before year end, a budgetary committee will meet again with each department for final review and approval of preliminary budget. The Budget is then formally presented to the Board via an advertised public process for their review, revisions and final approval by year end. All subsequent budget requests made during the year, after Board approval, must be presented via a public process and again approval by the Board.

The legal level of control (the level at which expenditures may not legally exceed appropriations) for each adopted annual operating budget generally is the individual fund level. Any change in total to a fund requires approval of the Board of County Commissioners. The County approved quarterly changes to budgeted appropriations for the year ended December 31, 2016.

All unexpended annual appropriations lapse at year-end.

Note 3 – Detailed Notes on All Funds

3A. Deposits and Investments

The County's deposits are entirely covered by federal depository insurance ("FDIC") or by collateral held under Colorado's Public Deposit Protection Act ("PDPA"). The FDIC insures the first \$250,000 of the County's deposits at each financial institution. Deposit balances over \$250,000 are collateralized as required by PDPA. The carrying amount of the County's demand deposits was \$8,828,252 at year end.

3A. Deposits and Investments (continued)

The County had the following cash and investments with the following maturities:

	Standard & Poors Rating	Carrying Amounts	Less than one year	Less than five years
<i>Deposits:</i>				
Cash on hand	<i>Not Rated</i>	\$ 5,625	\$ 5,625	\$ -

Treasuries	<i>AA+</i>	37,377,701	6,518,417	30,859,284
Total		<u>\$ 139,921,510</u>		

The Investment Pool represents investments in COLOTRUST, which is a 2a7-like pool. The fair value of the pool is determined by the pool's net asset value. The County has no regulatory oversight for the pool. At December 31, 2016, the County's investments in COLOTRUST were 34% of the County's investment portfolio.

Fair Value of Investments

The County measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy, as follows:

- *Level 1:* Quoted prices for identical investments in active markets;
- *Level 2:* Observable inputs other than quoted market prices; and,
- *Level 3:* Unobservable inputs.

Investments classified in Level 1 are valued using prices quoted in active markets for those securities. Investments classified in Level 2 are valued using the following approaches:

- Commercial Paper: quoted prices for identical securities in markets that are not active;
- Repurchase Agreements, Negotiable Certificates of Deposit, and Collateralized Debt Obligations: matrix pricing based on the securities' relationship to benchmark quoted prices;
- Money Market, Bond, and Equity Mutual Funds: published fair value per share (unit) for each fund.

Interest Rate Risk. As a means of limiting its exposure to interest rate risk, the County diversifies its investments by security type and institution, and limits holdings in any one type of investment with any one issuer and type of issuer. The County coordinates its investment maturities to closely match cash flow needs and restricts the maximum investment term to less than five years (less in some cases) from the purchase date. As a result of the limited length of maturities the County has limited its interest rate risk.

Credit Risk. County investment policy limits investments to those authorized by State statutes as listed in Note 1C. The County's general investment policy is to apply the prudent-person rule: investments are made as a prudent person would be expected to act, with discretion and intelligence, to seek reasonable income, preserve capital, and, in general, avoid speculative investments.

Concentration of Credit Risk. The County diversifies its investments by security type and institution. Financial institutions holding County funds must provide the County a copy of the certificate from the Banking Authority that states that the institution is an eligible public depository. At December 31, 2016, the County's investments in Fannie Mae, Freddie Mac, Federal Home Loan Bank, and United States Treasuries were 11%, 8%, 7% and 27% of the County's investment portfolio, respectively.

At December 31, 2016, unrealized gains or (losses) were (\$604,582), which reflects changes in the fair market value of investments from 2015 to 2016.

3B. Receivables

Receivables at December 31, 2016, consisted of taxes, interest, accounts, and intergovernmental receivables arising from grants. Receivables are net of an allowance for uncollectibles. The allowance for uncollectibles at December 31, 2016 was \$33,049.

Receivables and payables are recorded on the County's financial statements to the extent that the amounts are determined to be material and substantiated not only by supporting documentation, but also by a reasonable, systematic method of determining their existence, completeness, valuation, and in the case of receivables, collectibility.

The County had the following receivables at year end:

3C. Property Taxes

Property taxes are levied on or before December 15 of each year and attach as an enforceable lien on the property on January 1. Taxes are payable in full on April 30 or in two installments on February 28 and June 15. The County bills and collects its own property taxes and the taxes for various other entities. In accordance with generally accepted accounting principles, the assessed but uncollected property taxes have been recorded as a receivable and deferred inflow of resources.

At December 31, 2016, the County had \$18,147,941 of fully depreciated capital assets.

3E. Interfund Balances and Transfers

Interfund balances at December 31, 2016, consisted of the following amounts and represent charges for services or reimbursable expenses. These remaining balances resulted from the time lag between the dates that (1) interfund goods or services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting period, and (3) payments between funds are made. The County expects to repay all interfund balances within one year.

3E. Interfund Balances and Transfers (continued)

Interfund transfers for the year ended December 31, 2016, consisted of the following:

	<u>Transfer In</u>	<u>Transfer (Out)</u>
General fund	\$ 800,000	\$ (3,386,064)
Capital expenditures fund	-	(74,204)
Nonmajor governmental funds	2,500,000	-
Solid waste fund	86,064	-
Motor pool fund	74,204	-
Total	<u>\$ 3,460,268</u>	<u>\$ (3,460,268)</u>

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations, (3) segregate money for anticipated capital projects, (4) provide additional resources for current operations or debt service, and (5) return money to the fund from which it was originally provided once a project is completed.

All County transfers either occur on a regular basis or are consistent with the purpose of the fund making the transfer.

3F. Landfill Closure and Postclosure Care Costs

State and Federal laws and regulations require the County to place final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. Although closure and postclosure care costs will be paid only near or after the date that the landfill stops accepting waste, the County reports a portion of these closure and postclosure care costs as an operating expense in each period based on landfill capacity used as of each Balance Sheet date. Total closure and postclosure care costs are currently estimated to be \$2,325,759, with closure costs estimated to be \$1,632,148 and postclosure care cost estimated to be \$693,611. The \$1,346,615 reported as landfill closure and postclosure care liability at December 31, 2016, represents the cumulative amount reported to date based on the use of 57.9% of the capacity of the landfill. The County will recognize the remaining estimated cost of closure and postclosure care of \$979,144 as the remaining estimated capacity is filled. These amounts are based on estimates of what it would cost to perform all closure and postclosure care in 2016. The County expects to close the landfill in the year 2040. Actual cost may be higher due to inflation, changes in technology, or changes in applicable laws or regulations.

The County is required by State and Federal laws and regulations to provide assurance that the County has the ability to meet its financial obligations relating to closure and postclosure monitoring of the landfill. The County is in compliance with these requirements. However, if the County's financial position significantly changes in the future and resources are not available, or costs significantly change (due to changes in technology or applicable laws or regulations, for example) these costs may need to be covered by charges to future landfill users or from future tax revenue.

3G. Long-term Obligations

Changes in the County's long-term obligations consisted of the following for the year ended December 31, 2016:

	<u>Outstanding</u> <u>1/1/16</u>	<u>Additions</u>	<u>Reductions</u>	<u>Outstanding</u> <u>12/31/16</u>	<u>Amounts Due</u> <u>in One Year</u>
Governmental Activities:					
Compensated absences	\$ 1,883,008	\$ 848,737	\$ (564,902)	\$ 2,166,843	\$ 541,711
Total Governmental Activities	<u>\$ 1,883,008</u>	<u>\$ 848,737</u>	<u>\$ (564,902)</u>	<u>\$ 2,166,843</u>	<u>\$ 541,711</u>
Business-type Activities:					
Landfill closure & postclosure	\$ 1,284,903	\$ 61,712	\$ -	\$ 1,346,615	\$ -
Compensated absences	32,855	3,741	(9,857)	26,739	6,685
Total Business-type Activities	<u>\$ 1,317,758</u>	<u>\$ 65,453</u>	<u>\$ (9,857)</u>	<u>\$ 1,373,354</u>	<u>\$ 6,685</u>

The landfill closure and postclosure care liability is being retired by the Solid Waste Fund. The compensated absences liability will be paid from the following funds from which the employees' salaries are paid: General Fund, Public Health Fund, Road & Bridge Fund, Human Services Fund, and Airport Fund.

Conduit Debt Obligations: From time to time, the County has issued Private Activity Bonds to provide financial assistance to private sector entities for the acquisition and construction of housing and commercial facilities deemed to be in the public interest.

The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private sector entity served by the bond issuance. Neither the County, the State, nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

3H. Retirement Plans

Defined Contribution Plan 401(a): The County participates in the Colorado County Officials and Employees Retirement Association ("CCOERA"), a non-profit, multiple-employer public employee retirement system which is a qualified plan as defined by IRS Code Section 401(a) and Colorado Revised Statutes (CRS) 24.54. The plan provides retirement benefits through a defined contribution plan to participating Colorado counties, municipalities and special districts. Plan investment purchases are determined by the plan participant and therefore, the plan's investment concentration varies between participants.

State statute assigns the authority to establish and amend the benefit provisions and contribution requirements of the plans that participate in CCOERA to the respective employer governments.

3H. Retirement Plans (continued)

There are no unfunded past service liabilities. All full-time or part-time employees (employment status of working at least 30 hours per week for a continuous period of six months or more) are required to participate in the 401(a) retirement plan. The County and the employee are required to contribute 5.0% of employee compensation, excluding items defined in the CCOERA Plan Document (such as overtime) until the employee's tenth anniversary of employment with the County, after which the contribution from each increases to 6%. The County's contribution for each employee, including earnings thereon allocated to the employee's account, vest at the rate of 20% for each year (five year vesting schedule) of participation in the plan. County contributions and earnings forfeited by employees who leave employment before fully vesting are returned to Garfield County. The County allows 401a loans, but distributions are not available to employees until termination, retirement, or death.

During 2016, there were 533 total participants. The County and employees made the required contribution amounting to \$1,396,669 each.

Defined Contribution Plan 457: The County offers its employees a voluntary deferred compensation plan created in accordance with Internal Revenue Code Section 457 that is administered by CCOERA. The plan is available to all full-time or part-time employees (employment status of working at least 30 hours per week for a continuous period of six months or more) and permits them to defer a portion of their salary until future years. Contributions to the plan can be made before-tax or after-tax (i.e. Roth). However, the total contributions are limited to the annual IRS retirement plan limits or 100% of net pay, whichever is less. The County allows 457b loans, but distributions are only available for qualified unforeseeable emergencies, separation of service, retirement, or death. There are no provisions for in-service withdrawals and Roth assets are not eligible for emergency withdrawals. All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are to be held in trust for the exclusive benefit of the plan participants and their beneficiaries. Plan investment purchases are determined by the plan participant and therefore, the plan's investment concentration varies between participants. In 2016, there were 84 total participants.

Retirement Plan Loan Program: Garfield County's preference is that loans are used for: education expenses for the employee, spouse, or child; to prevent eviction from an employee's home or defaulting on a mortgage; to pay unreimbursed medical expenses; to buy a primary residence; debt consolidation; and unforeseen emergencies. All CCOERA loans are made in accordance with Article 8 of the plan and the adopted procedures by the Plan Administrator.

All eligible participants are allowed to borrow from their 401(a) and/or 457 accounts, but may only have one outstanding loan per retirement plan at any given time. Loans can be made up to 50% of an eligible participant's vested account balance with a required minimum loan amount of \$2,500 and maximum loan amount of \$50,000, not to exceed a combined loan amount of \$50,000 on both plans (401(a) and 457 plans). The loan interest charged by the Plan Administrator is Prime + 1% which is determined on the day of loan approval plus additional fees.

Refinancing is allowed for loans (length of loan may not change) with a minimum balance of \$2,500 (additional fees applied). An eligible participant is only allowed to have one new loan or one refinance of an existing loan in a 12-month period and refinancing can't occur in the final year of the loan.

While employed by Garfield County, participant loans will be paid via payroll deductions (one to five years for General Purpose loans and up to fifteen years for Principal Residence loans). Participants can make additional payments to pay off the loan early without penalty. Upon separation of employment, the participant's loan(s) are 100% payable. If unpaid the remainder of the loan will become a taxable distribution to the IRS and subject to potential tax penalties. Participants are advised to contact the Plan Administrator to offset the loan to avoid consequences of potential default.

3I. Fund Balance Disclosure

The County classifies governmental fund balances as follows:

Non-spendable - includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual requirements.

Spendable Fund Balance:

Restricted – includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.

Committed – includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through adoption of a formal Resolution, the highest level of decision making authority which is the Board of County Commissioners. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (i.e. the adoption of another resolution to remove or revise the limitation).

Assigned – includes spendable fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Assigned fund balance represents amounts constrained by the County's intent to use them for a specific purpose. The authority to assign has been delegated to the Board of County Commissioners or its management designee (i.e. County Manager). An intended use of any amount may also be expressed by the Board and recorded in the minutes of a Board meeting.

Unassigned - includes residual positive fund balance within the General Fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those specific purposes.

The County uses restricted amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as in grant agreements requiring dollar for dollar spending. Additionally, the County would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

The County does not have a formal minimum fund balance policy. However, the County's budget includes a calculation of a targeted reserve positions and the Administration calculates targets and report them annually to the Board.

Note 4 - Other Notes

4A. Risk Management

The County participates in two risk management pools.

County Workers' Compensation Pool - The County is exposed to various risks of loss related to injuries of employees while on the job. The County joined together with other counties in the State of Colorado to form the County Workers' Compensation Pool ("CWCP"), a public entity risk pool currently operating as a common risk management and insurance program for member counties. The intergovernmental agreement of formation of CWCP provides that the pool will be financially self-sustaining through member contributions and additional assessments, if necessary, and that the pool will purchase insurance through commercial companies for members' claims in excess of specified self-insured retention, which is determined each policy year.

4A. Risk Management (continued)

Colorado Counties Casualty and Property Pool - The County is exposed to various risks of loss related to casualty and property losses. The County has joined together with other counties in the State of Colorado to form the Colorado Counties Casualty and Property Pool ("CAPP"), a public entity risk pool currently operating as a common risk management and insurance program for member counties.

The intergovernmental agreement of formation of CAPP provides that the pool will be financially self-sustaining through member contributions and additional assessments, if necessary, and that the pool will purchase insurance through commercial companies for members' claims in excess of a specified self-insured retention, which is determined each policy year. There were no significant reductions in insurance coverage from prior year, and there have been no settlements that exceed the County's insurance coverage during the past three years.

4B. Contingent Liabilities

The County has received Federal and State grants for specific purposes that are subject to review and audit by the grantor agencies or their designee. These audits could result in a request for reimbursement to the grantor agency for costs disallowed under terms of the grant. Based on prior experience, the County believes such disallowances, if any, will be immaterial.

The County was a defendant in several lawsuits at December 31, 2016. In the opinion of County management, the outcome of these contingencies will not have a material effect on the financial position of the County.

4C. Tabor Amendment

Colorado voters passed an amendment to the State Constitution, Article X, Section 20, which has several limitations, including revenue raising, spending abilities, and other specific requirements of state and local governments. The Amendment is complex and subject to judicial interpretation. The County believes it is in compliance with the requirements of the amendment. However, the County has made certain interpretations of the amendment's language in order to determine its compliance. The County placed a question on the November 1994 ballot that would permit the County to keep and spend state grants, all sales tax and property tax revenues without limiting in any year the amount of other revenues that may be collected. The ballot question was approved by the County's voters.

One of the requirements of TABOR is for emergency reserves to be used for declared emergencies only. Emergencies, as defined by TABOR, exclude economic conditions, revenue shortfalls, or salary or fringe benefit increases. These reserves are required to be 3% or more of fiscal year revenue (excluding bonded debt service). The County has restricted a portion of its December 31, 2016 year end fund balance in the General Fund for emergencies as required under TABOR in the amount of \$3,018,434.

Garfield County, Colorado
Note to Required Supplementary Information
For the Year Ended December 31, 2016

Budgetary Information – The budget is prepared in accordance with accounting principles generally accepted in the United States of America by the County's Finance Department and approved by the Board of County Commissioners following a public hearing.

Any change in the total to a fund's budget requires approval of the Board of County Commissioners. All unexpended annual appropriations lapse at year-end. Budgets for these projects are appropriated in the following year.

SUPPLEMENTARY INFORMATION

Capital Projects Fund:

Capital Expenditures Fund – accounts for financing various capital improvement projects in Garfield County. Sources of revenue include property tax, grants and contributions.

Special Revenue Funds:

Airport Fund – accounts for operations at the County airport.

Oil and Gas Mitigation Fund – accounts for resources accumulated to offset the effects of oil and gas exploration and production within the County. The Colorado Department of Local Affairs distributes revenue derived from energy and mineral extraction statewide. This revenue comes from State Severance Tax receipts.

Conservation Trust Fund – accounts for lottery revenues received from the State of Colorado to be used for the acquisition and development of parks and recreational sites within Garfield County.

Grant Fund – accounts for monies that Garfield County has received through grant funding to be used on behalf of Garfield County.

Clerk & Recorder EFTF Fund – accounts for the revenues and expenditures related to the collection of a surcharge, which is to be used solely to defray the costs of implementing and providing electronic filing and recording capabilities.

Traffic Study Fund – accounts for revenues received from building & planning activity related to subdivision development. The revenues are to be used to address traffic/road concerns in the areas in which the subdivisions were approved.

Retirement Fund – accounts for the activities of the County retirement plan. The County levies a portion of property tax to fund its contribution to the plan.

Traveler's Highland PID – accounts for all revenues and expenditures of real and personal property tax dollars collected from property located within the district for specific purposes supported by statute and governing documents of the PID.

Public Health Fund – accounts for all revenues and expenditures related to the administration of public health services and programs. This fund was set up pursuant to Senate Bill 08-194.

STATISTICAL SECTION

This part of the Garfield County comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

The information in this Statistical Section of the comprehensive annual financial report is intended, when possible, to provide information about Garfield County's economic condition in the following areas.

Financial Trends - information used to understand and assess how a government's financial position has changed over time.

Revenue Capacity - information used to understand and assess the government's ability to generate own-source revenue.

Debt Capacity - information used to understand and assess the government's debt burden and its ability to issue additional debt.

Demographic and Economic Data - information used to understand the government's socioeconomic environment and facilitate comparisons of financial statement information of time or among governments.

Operating Information - information used to understand the government's operations and resources, therefore providing a context for understanding and assessing its economic condition.

Most of the data comes directly from current and prior Garfield County financial reports. Data which comes from other sources is noted on the individual tables.

General Government Tax Revenues by Source does not include GASB 34 adjustments

(1) The TABOR (Article X Section 20) amendment to the Colorado State Constitution limits revenue increases and has other specific requirements.

(2) Sales tax is collected by the vendor on most classes of goods and is remitted to the State of Colorado. The State distributes Garfield County's percentage, which is set by statute, or that remittance to the County on a monthly basis.

(3) Full reappraisals of all Garfield County properties are completed on a bi-yearly basis.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENTAL AUDITING STANDARDS

Independent Auditor's Report

**To the Board of County Commissioners
Garfield County, Colorado**

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Garfield County, Colorado (the "County") as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the County's basic financial statements and have issued our report thereon dated May 12, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit on the financial statements, we considered the County's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY UNIFORM GUIDANCE

Independent Auditor's Report

**To the Board of County Commissioners
Garfield County, Colorado**

Report on Compliance for Each Major Program

We have audited the Garfield County, Colorado's (the "County") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended December 31, 2016. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"), and the Audit Guide. Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on the County's compliance with those requirements.

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2016.

Report on Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit, we considered the County's internal control over compliance with types of requirements that could have a direct and material effect on each major federal program to determine our auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program or on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Notes to the Schedule of Expenditures of Federal Awards For the Year Ended December 31, 2016

Note 1. Basis of Presentation:

The Schedule of Expenditures of Federal Awards includes the federal grant activity of Garfield County and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"). Therefore some amounts presented in this schedule may differ from amounts presented in or used in the preparation of the general purpose financial statements.

Note 2. Determining the Name of Non-cash Awards Expended:

Fair market value of assistance at the time of disbursement to the recipient, or the assessed value provided by the state or federal agency.

Note 3. Pass Through Sub recipients:

The County had no sub recipients as of December 31, 2016.

Note 4. Indirect Facilities and Administration costs:

The County does not use the 10% de minimis cost rate allowed in Title 2 U.S. Code of Federal Regulations (CFR) Part 200.414, indirect (F & A) costs. Instead, the County prepares an annual cost allocation plan to allocate indirect costs.
