INDEPENDENT AUDITOR'S REPORT

To the Board of Directors Arrowhead Metropolitan District

We have audited the accompanying financial statements of the governmental activities and each major fund of Arrowhead Metropolitan District, as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Arrowhead Metropolitan District as of December 31, 2017, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis in Section B be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the Management's Discussion and Analysis in Section B in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The budgetary comparison information in section E is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statement or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's financial statements as a whole. The individual fund budgetary comparisons found in Section F presented for purposes of additional analysis and are not a required part of the basic financial statements. The individual fund budgetary comparisons found in Section F are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

ARROWHEAD METROPOLITAN DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS
December 31, 2017

This management's discussion and analysis of the Arrowhead Metropolitan District's financial statements provides an overview of the District's financial activities for the fiscal year ended December 31, 2017. The intent of this discussion and analysis is to look at the District's financial performance as a whole; it should be read in conjunction with the basic financial statements and notes to enhance the reader's understanding of the District's overall financial performance.

USING THE BASIC FINANCIAL STATEMENTS

This annual report consists of three parts – *management's discussion and analysis* (this section), the *basic financial statements*, and *required supplementary information*. The basic financial statements include two types of information on the same statement that present different views of the District:

- *Government-wide financial statements* that provide both *long-term* and *short-term* information about the District's *overall* financial status.
- *Fund financial statements* that focus on *individual parts* of the District government, reporting the District's operations *in more detail* than the government-wide statements.

The financial statements also include *notes* that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements. Additional supplemental information has also been included to enhance the reader's understanding of the financial statements.

Government-wide Statements

The government-wide statements consist of the Statement of Net position and the Statement of Activities. These statements report information about the District as a whole and include *all* assets and liabilities using the *accrual basis of accounting*, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the District's *net position* and changes in them. The District's net position—the difference between assets, deferred outflows, liabilities and deferred inflows—are one way to measure the District's financial health, or *financial position*. Over time, *increases or decreases* in the District's net position is one indicator of whether its *financial health* is improving or deteriorating. Other non-financial factors, however, such as changes in the District's property tax base and the condition of the infrastructure, are needed to assess the *overall health* of the District.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's *funds*, focusing on its most significant funds – not the District as a whole. The District's major governmental funds include the General Fund and the Debt Service Fund. Unlike government-wide financial statements, the focus of the fund financial statements is directed to specific activities of the District rather than the District as a whole. Except for the General Fund, a specific fund is established to satisfy managerial control over resources or to satisfy finance-related legal requirements established by external parties or governmental statutes or regulations.

Governmental funds – The District's activity is reported as a governmental fund, which focuses on how money flows into and out of those funds and the balances left at year-end that are available for spending in future periods. The funds are reported using an accounting method called *modified accrual* accounting,

ARROWHEAD METROPOLITAN DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS
December 31, 2017

which measures cash and all other *financial* assets that can readily be converted to cash. The governmental fund financial statements provide a detailed *short-term view* of the District's general government operations and the basic services it provides. Governmental fund information helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The relationship (or differences) between governmental *activities* (reported in the Statement of Net position and the Statement of Activities) and governmental *funds* is provided in reconciliations following the fund financial statements.

THE DISTRICT AS A WHOLE

Statement of Net Position

The perspective of the Statement of Net Position is of the District as a whole. Following is a summary of the District's net position for the fiscal years 2017 and 2016.

	<u>2017</u>	<u>2016</u>
<u>Assets and Deferred Outflows:</u>		
Current and Other Assets	\$ 3,964,033	\$ 3,928,401

Statement of Activities

The perspective of the Statement of Activities is of the District as a whole. The Statement of Activities reflects the cost of program services and the charges for services and sales, grants and contributions offsetting the cost of the services. The following detail reflects the total cost of services supported by program revenues and general property taxes, as well as other general revenues, resulting in the overall change in net position for the fiscal years 2017 and 2016.

	<u>2017</u>	<u>2016</u>
<u>REVENUES:</u>		
GENERAL REVENUES:		
Taxes	\$ 2,131,814	\$ 2,115,888

Transportation	307,251	295,329
Interest on Long-Term Debt	<u>522,146</u>	<u>524,774</u>
Total Expenses	<u>1,748,417</u>	<u>1,836,476</u>
CHANGE IN NET POSITION	574,752	427,311
Net position– beginning of year	<u>4,624,260</u>	<u>4,196,949</u>
Net position– end of year	<u>\$ 5,199,012</u>	<u>\$ 4,624,260</u>

The District’s primary source of revenues is property taxes. These revenues are used to pay the cost of operating and maintaining the District as well as to pay the District’s debt service obligations. The District operated at a surplus in both 2017 and 2016 and the operating surplus has been used to pay a portion of the principal on the District’s bond debt.

THE DISTRICT’S FUNDS

The fund level financial statements focus on how services were financed in the short-term as well as what remains for future spending. The fund level financial statements are reported on the modified accrual basis of accounting.

At the fund level, under the modified accrual basis of accounting, depreciable assets and their related depreciation expense are not reflected as they are not a current period financial resource or use. In addition, at the fund level, inflows from operating loans are presented as a revenue item while outflows for capital outlay and debt service payments are presented as an expenditure item, as these items represent current period financial resources and uses.

The General Fund ending fund balance increased from \$1,763,647 to \$1,891,241 during the fiscal year ended December 31, 2017. This is mainly due to savings on capital projects completed during the year.

GENERAL FUND BUDGETARY HIGHLIGHTS

The General Fund budget comparison is reflected on page E1 of this report. It shows that during 2017 the District earned \$54,866 more in revenues than budgeted and the District did not expend the funds budgeted for a contingency and spent \$90,377 less in capital expenditures than budgeted. Overall the District spent \$253,119 less than was budgeted in the General Fund.

DEBT SERVICE FUND BUDGETARY HIGHLIGHTS

The Debt Service Fund budget comparison is reflected on page F1 of this report. The comparison shows no significant budget variances in the Debt Service Fund.

CAPITAL ASSETS

At the beginning of 2017, the District had a total of \$22,312,067 invested in capital assets. During 2017, the District invested an additional \$332,614 in capital assets and retiring \$77,594 of equipment, before accumulated depreciation, bringing the total to \$22,567,087. The detailed capital asset categories can be seen in *Note 4, Capital Assets* on page D10 of this report.

DEBT ADMINISTRATION

The District issued \$8,385,000 General Obligation Refunding Bonds in January of 2017 for the purpose of refunding a portion of the outstanding General Obligation Refunding Bonds, series 2009 resulting in a net present value economic gain of \$600,154 over the life of the Bonds. The District paid down the outstanding balance of its long term debt by \$8,349,068 (primarily using the proceeds of the refunding bonds) during 2017 resulting in an outstanding balance of \$12,657,522 (including unamortized bond premium) at December 31, 2017. See *Note 4 – Long-term Debt* on page D10 – 12 of this report for a detail of the terms and the annual requirements to amortize the District’s long-term debt.

Reconciliation of the Statement of Revenues, Expenditures, and
Changes in Fund Balances of Governmental Funds to the
Statement of Activities
For the Year Ended December 31, 2017

Net change in fund balances for total governmental funds 139,454

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the net difference between depreciation and capital additions during the year. Details of these differences are as follows:

Capital additions	332,614	
Depreciation expense	<u>(466,180)</u>	(133,566)

The repayment of the principal of long-term debt consumes current financial resources of governmental funds. This transaction, however, has no effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

555,798

The change in accrued interest reported in the Statement of Activities does not require the use of current financial resources and, therefore, is not reported as an expenditure in governmental funds.

NOTES TO THE FINANCIAL STATEMENTS

**Arrowhead Metropolitan District
Notes to the Financial Statements
December 31, 2017**

I. Summary of Significant Accounting Policies

Arrowhead Metro District (the "District") was organized on November 17, 1981 as a quasi-municipal corporation and is governed pursuant to provisions of the Colorado Special District Act. The District's service area is located in Eagle County, Colorado. The District was established to be able to provide water, recreation, transportation, fire protection, roads, drainage, and television services. Fire protection services are provided by the Eagle River Fire Protection District. Water services are provided by the Upper Eagle Regional Water Authority. The District has no employees and all operations and administrative functions are contracted.

The District's financial statements are prepared in accordance with generally accepted accounting principles ("GAAP"). The Governmental Accounting Standards Board ("GASB") is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established by GAAP used by the District are discussed below.

A. Reporting Entity

The reporting entity consists of (a) the primary government; i.e., the District, and (b) organizations for which the District is financially accountable. The District is considered financially accountable for legally separate organizations if it is able to appoint a voting majority of an organization's governing body and is either able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits, to, or to impose specific financial burdens on, the District. Consideration is also given to other organizations which are fiscally dependent; i.e., unable to adopt a budget, levy taxes, or issue debt without approval by the District. Organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete are also included in the reporting entity.

Based on the criteria discussed above, the District is not financially accountable for any other entity, nor is the District a component unit of any other government.

B. Government-wide and Fund Financial Statements

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). Both the government-wide and fund financial statements categorize primary activities as governmental type.

1. Government-wide Financial Statements

In the government-wide Statement of Net Position, all balances are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations.

The government-wide focus is on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Arrowhead Metropolitan District
Notes to the Financial Statements
December 31, 2017
(Continued)

I. Summary of Significant Accounting Policies (continued)

B. Government-wide and Fund Financial Statements (continued)

2. Fund Financial Statements

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The fund focus is on current available resources and budget compliance.

The District reports the following governmental funds:

The *General Fund* is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

The *Debt Service Fund* accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of the governmental funds.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Measurement focus refers to whether financial statements measure changes in current resources only (current financial focus) or changes in both current and long-term resources (long-term economic focus). Basis of accounting refers to the point at which revenues, expenditures, or expenses are recognized in the accounts and reported in the financial statements. Financial statement presentation refers to classification of revenues by source and expenses by function.

1. Long-term Economic Focus and Accrual Basis

Governmental activities in the government-wide financial statements use the long-term economic focus and are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred, regardless of the timing of the related cash flows.

2. Current Financial Focus and Modified Accrual Basis

The governmental fund financial statements use the current financial focus and are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or soon enough thereafter (60 days) to be used to pay liabilities of the current period. Expenditures are generally recognized when the related liability is incurred. The exception to this general rule is that principal and interest on general long-term debt, if any, is recognized when due.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

3. Financial Statement Presentation

Amounts reported as program revenues include capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes and interest income.

D. Financial Statement Accounts

1. Cash and Cash Equivalents

Cash and equivalents are defined as deposits that can be withdrawn at any time without notice or penalty and investments with maturities of three months or less.

2. Receivables

Receivables are reported net of an allowance for uncollectible accounts. There was no allowance as of December 31, 2017.

3. Property Taxes

Property taxes are assessed in one year as a lien on the property, but not collected by governmental units until the subsequent year. In accordance with GAAP, the assessed but uncollected property taxes have been recorded as a receivable and as deferred inflow of resources.

4. Long-term Debt

In the government-wide financial statements, long-term debt is reported as a liability. Bond premiums and discounts are deferred and amortized over the life of the bonds using the bonds outstanding method. Bonds payable are reported net of the applicable bond premium or discount.

5. Capital Assets

Capital assets, which include land, buildings, equipment, vehicles, and infrastructure assets, are reported in the governmental activity columns in the government-wide financial statements. The District defines capital assets as assets with an initial cost of \$5,000 or more and an estimated useful life in excess of five years. Such assets are recorded at historical cost. Donated capital assets are recorded at estimated fair value at the date of donation.

Infrastructure, buildings, and equipment are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Roads and landscaping	20-40
Machinery and equipment	5-10

6. Deferred Outflows and Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The District reports deferred bond refunding charges as a deferred outflow of resources on its Statement of Net Position as the difference between the reacquisition price and the net carrying amount of the defeased debt. The deferred charge is amortized over the life of the refunding bonds, the amortization is included in interest expense.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has only one type of item that qualifies for reporting in this category. Accordingly, the item, unavailable property tax revenue, is deferred and recognized as an inflow of resources in the period that the amounts become available and earned.

7. Fund Balance

The District classifies governmental fund balances as follows:

Non-spendable - includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual requirements.

Restricted – includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.

Committed – includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority which is the Board of Directors.

Assigned – includes spendable fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Fund balance may be assigned by the Board of Directors or its management designee.

Unassigned - includes residual positive fund balance within the General Fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those specific purposes.

I. Summary of Significant Accounting Policies (continued)

D. Financial Statement Accounts (continued)

7. Fund Balance (continued)

The District uses restricted amounts first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as in grant agreements requiring dollar for dollar spending. Additionally, the District first uses committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

The District does not have a formal minimum fund balance policy. However, the District's budget includes a calculation of targeted reserve positions and management reports the targeted amounts annually to Board of Directors.

E. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the District's management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amount of revenues and expenditures or expenses during the reporting period. Actual results could differ from those estimates.

II. Reconciliation of Government-wide and Fund Financial Statements

A. Explanation of certain differences between the governmental fund Balance Sheet and the government-wide Statement of Net Position

The governmental fund Balance Sheet includes a reconciliation between *fund balance – governmental funds* and *net position of governmental activities* as reported in the government-wide Statement of Net Position.

One element of that reconciliation explains, "Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds." The details of this negative \$12,687,604 difference are as follows:

Bonds payable	\$ 12,565,000
Plus: Issuance premium	92,522
Accrued interest payable	30,082
Net adjustment to reduce governmental activities net position	\$ 12,687,604

II. Reconciliation of Government-wide and Fund Financial Statements (continued)

B. Explanation of certain differences between the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances and the government-wide Statement of Activities

The governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances includes reconciliation between *net changes in fund balance – governmental funds* and *changes in net position of governmental activities* as reported in the government-wide Statement of Activities. One element of that reconciliation explains, “The repayment of the principal of long-term debt consumes current financial resources of governmental funds. This transaction, however, has no effect on the net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.” The details of this \$ 555,798 difference are as follows:

Principal repayments - Bonds payable	730,000
Plus: Payments to refunding escrow agent	8,215,651
Plus: Amortization of premium on bonds payable	6,291
Less: Refunding bond proceeds	(8,385,000)
Less: Amortization of bond refunding costs	(11,144)
Net adjustment to increase change in net position	\$ 555,798

III. Stewardship, Compliance, and Accountability

A. Budgetary Information

In the fall of each year, the District's Board of Directors formally adopts a budget with appropriations by fund for the ensuing year pursuant to the Local Government Budget Law of Colorado. The budgets for the funds are adopted on a basis consistent with generally accepted accounting principles (“GAAP”).

As required by Colorado statutes, the District followed the following timetable in approving and enacting a budget for 2017:

- (1) For the 2017 budget year, prior to August 25, 2016, the County Assessor sent to the District the certified assessed valuation of all taxable property within the District's boundaries and prior to December 10, 2016, the County Assessor sent the final recertified assessed valuation to the District.
- (2) On or before October 15, 2016, the District's accountant submitted to the District's Board of Directors a recommended budget which detailed the necessary property taxes needed along with other available revenues to meet the District's operating requirements.
- (3) A public hearing on the proposed budget and capital program was held by the Board no later than 45 days prior to the close of the fiscal year.
- (4) For the 2017 budget, prior to December 15, 2016, the District computed and certified to the County Commissioners a rate of levy that derived the necessary property taxes as computed in the proposed budget.
- (5) For the 2017 budget, the final budget and appropriating resolution was adopted prior to December 31, 2016.

III. Stewardship, Compliance, and Accountability (continued)

A. Budgetary Information (continued)

After adoption of the budget resolution, the District may make the following changes: a) it may transfer appropriated monies between funds or between spending agencies within a fund, as determined by the original appropriation level; b) it may approve supplemental appropriations to the extent of revenues in excess of the estimated in the budget; c) it may approve emergency appropriations; and d) it may reduce appropriations for which originally estimated revenues are insufficient.

Taxes levied in one year are collected in the succeeding year. Thus, taxes certified in 2016 were collected in 2017 and taxes certified in 2017 will be collected in 2018. Taxes are due on January 1st in the year of collection; however, they may be paid in either one installment (no later than April 30th) or two equal installments (not later than February 28th and June 15th) without interest or penalty. Taxes which are not paid within the prescribed time bear interest at the rate of one percent (1%) per month until paid. Unpaid amounts and the accrued interest thereon become delinquent on June 15th.

The level of control in the budget at which expenditures exceed appropriations is at the fund level. All appropriations lapse at year end.

B. TABOR Amendment

In November 1992, Colorado voters amended Article X of the Colorado Constitution by adding Section 20, commonly known as the Taxpayer's Bill of Rights ("TABOR"). TABOR contains revenue, spending, tax and debt limitations that apply to the State of Colorado and local governments. TABOR requires, with certain exceptions, advance voter approval for any new tax, tax rate increase, mill levy above that for the prior year, extension of any expiring tax, or tax policy change directly causing a net tax revenue gain to any local government. Any revenues earned in excess of the fiscal year spending limit must be refunded in the next fiscal year, unless voters approve retention of such excess revenue.

Except for refinancing bonded debt at a lower interest rate or adding new employees to existing pension plans, TABOR requires advance voter approval for the creation of any multiple-fiscal year debt or other financial obligation unless adequate present cash reserves are pledged irrevocably and held for payments in all future fiscal years.

TABOR also requires local governments to establish an emergency reserve to be used for declared emergencies only. The reserve is calculated at 3% of fiscal year spending. Fiscal year spending excludes bonded debt service and enterprise spending. The District has reserved \$36,610, which is the approximate required reserve, at December 31, 2017.

On November 8, 1994, the voters of the District authorized the issuance of \$1,130,000 in debt and approved up to \$125,518 in tax revenue annually to pay such debt.

On May 7, 1996, the voters of the District authorized the issuance of \$6,620,000 in debt and approved up to \$697,000 in tax revenue annually to pay such debt.

On May 5, 1998, the voters authorized property taxes to be increased up to \$800,000 in 1999 and by whatever additional amounts are raised annually thereafter from an increase in the District's property tax levy for operating purposes of an additional 17.0 mills increasing the total operating tax levy to 18.0 mills, all with the present expectation that the debt service mill levy will decrease by an amount equal to the operating mill levy increase so as to maintain the current total mill levy of 28.8 mills.

III. Stewardship, Compliance, and Accountability (continued)

B. TABOR Amendment (continued)

Also, on May 5, 1998, the voters authorized the District to collect, retain, and spend all revenue and other funds collected in 1998 and any year thereafter without regard to any limitations under TABOR.

On November 4, 2008, the voters authorized the issuance of \$9,500,000 in debt and approved up to \$980,000 in tax revenue annually to pay such debt.

The District's management believes it is in compliance with the financial provisions of TABOR.

C. Authorized But Unissued Debt

In November 2008 the District's voters authorized the issuance of up to \$9,500,000 of debt for the acquisition and improvement of parking lot facilities. During 2009 the District issued bonds in the amount of \$9,020,000 pursuant to this authorization and has \$480,000 in remaining authorized but unissued indebtedness as of December 31, 2017.

IV. Detailed Notes on all Funds

A. Deposits and Investments

The District's deposits are entirely covered by federal depository insurance ("FDIC") or by collateral held under Colorado's Public Deposit Protection Act ("PDPA"). The FDIC insures the first \$250,000 of the District's deposits at each financial institution. Deposit balances over \$250,000 are collateralized as required by PDPA. The carrying amount of the District's demand deposits was \$67,346 at year end.

Fair Value of Investments

The District measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy, as follows:

- *Level 1:* Quoted prices for identical investments in active markets;
- *Level 2:* Observable inputs other than quoted market prices; and,
- *Level 3:* Unobservable inputs.

At December 31, 2017, the District had the following recurring fair value measurements.

Investments Measured at Fair Value	Total	Fair Value Measurements Using		
		Level 1	Level 2	Level 3
Certificates of deposit	\$ 1,443,000	-	1,443,000	-
Total	<u>\$ 1,443,000</u>	<u>-</u>	<u>1,443,000</u>	<u>-</u>

IV. Detailed Notes on all Funds (continued)

A. Deposits and Investments (continued)

Investments classified in Level 1 are valued using prices quoted in active markets for those securities. Investments classified in Level 2 are valued using the following approaches:

- U.S. Treasuries, U.S. Agencies, and Commercial Paper: quoted prices for identical securities in markets that are not active;
- Repurchase Agreements, Negotiable Certificates of Deposit, and Collateralized Debt Obligations: matrix pricing based on the securities' relationship to benchmark quoted prices;
- Money Market, Bond, and Equity Mutual Funds: published fair value per share (unit) for each fund.

The Investment Pool represents investments in COLOTRUST. The fair value of the pool is determined by the pool's share price. The District has no regulatory oversight for the pool. At December 31, 2017, the District's investments in COLOTRUST were 21% of the District's investment portfolio and certificates of deposit were 79% of the investment portfolio.

Interest Rate Risk. As a means of limiting its exposure to interest rate risk, the District diversifies its investments by security type and institution, and limits holdings in any one type of investment with any one issuer and type of issuer. The District coordinates its investment maturities to closely match cash flow needs and restricts the maximum investment term to less than five years (less in some cases) from the purchase date. As a result of the limited length of maturities the District has limited its interest rate risk.

Credit Risk. District investment policy limits investments to those authorized by State statutes. The District's general investment policy is to apply the prudent-person rule: investments are made as a prudent person would be expected to act, with discretion and intelligence, to seek reasonable income, preserve capital, and, in general, avoid speculative investments.

Concentration of Credit Risk. The District diversifies its investments by security type and institution. Financial institutions holding District funds must provide the District a copy of the certificate from the Banking Authority that states that the institution is an eligible public depository.

At year end, the District had the following deposits and investments with the following maturities:

	Standard & Poors Rating	Carrying Amounts	Term to Maturity	
			Less than one year	More than one year
<i>Deposits:</i>				
Checking and savings	Not rated	\$ 67,346	67,346	-
<i>Investments:</i>

Depreciation expense of \$440,019 was charged to the public works function and \$26,161 was charged to the transportation function for a total 2017 depreciation expense of \$466,180.

C. Long-term Debt

The District had the following long-term debt outstanding during the fiscal year:

1. General Obligation Refunding and Improvement Bonds, Series 2009

\$10,950,000 General Obligation Refunding and Improvement Bonds, Series 2009, dated September 10, 2009, with interest of 2.50% to 4.75% payable semiannually on June 1 and December 1 of each year. The bonds maturing on or after December 1, 2020, are subject to redemption prior to maturity at the option of the District, in whole or in part, in any order determined by the District and by lot within maturity, at any time on and after December 1, 2019, at a redemption price equal to 100% of the principal amount to be redeemed, without premium, plus interest accrued at the date of redemption.

The bonds were issued for the purpose of refunding the District's General Obligation Improvement Bonds, Series 1998, to fund approximately \$8,650,000 of capital improvements and to pay the cost of issuing the bonds.

The bonds were partially refunded in 2017 through the bond issue of General Obligation Refunding Bonds, Series 2017. As a result, the bonds are considered to be defeased and the refunded \$7,570,000 has been removed from the financial statements. The remaining principle outstanding as of December 31, 2017 is \$2,125,000.

2. General Obligation Refunding Bonds, Series 2011

\$4,315,000 General Obligation Refunding Bonds, Series 2011, dated December 1, 2011, with interest of 3.625% to 4.1% payable semiannually on June 1 and December 1 of each year. The bonds maturing on or after December 1, 2021, are subject to redemption prior to maturity at the option of the District, in whole or in part, in any order determined by the District and by lot within maturity, at any time on and after December 1, 2021, at a redemption price equal to 100% of the principal amount to be redeemed, without premium, plus interest accrued at the date of redemption.

The bonds were issued for the purpose of refunding \$4,310,000 of the District's General Obligation Refunding Bonds, Series 2001. The District completed the refunding to level and extend its annual debt service payments which will enable the District to maintain a lower annual debt service mill levy rate.

The District also obtained an economic gain (difference between the present values of the old and new debt service payments) of \$211,940 on the refunding.

3. General Obligation Refunding Bonds, Series 2017

\$8,385,000 General Obligation Refunding Bonds, Series 2017, dated January 18, 2017, with interest of 2.29% payable semiannually on June 1 and December 1 of each year. The bonds are subject to Mandatory Sinking Fund Redemption prior to maturity in part, by lot, upon payment of par and accrued interest, at a redemption price not to exceed 100% of principal amount redeemed, on December 1 each year until final maturity December 1, 2031.

The bonds were issued for the purpose of refunding \$7,570,000 of the District's General Obligation Refunding Bonds, Series 2009, and to pay the cost of issuing the bonds. The proceeds were deposited with an escrow agent to provide for future debt service payments on the refunded Series 2009 bonds.

The District also obtained an economic gain (difference between the present values of the old and new debt service payments) of \$600,154 on the refunding.

A. Risk Management

Colorado Special Districts Property and Liability Pool

The District is exposed to various risks of loss related to torts, thefts of, damage to, or destruction of assets; errors or omissions; or injuries to employees.

The District is a member of the Colorado Special Districts Property and Liability Pool (Pool) as of December 31, 2014. The Pool is an organization created by intergovernmental agreement to provide property, liability, public officials' liability, boiler and machinery, and workers compensation coverage to its members. The Pool provides coverage for property claims and liability coverage claims and workers' compensation. Settled claims have not exceeded this coverage in the past three years.

The District pays annual premiums to the Pool for liability, property, and public officials' coverage. In the event aggregated losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and funds accumulated by the Pool, the Pool may require additional contributions from the Pool members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the member pursuant to a distribution formula.

VI. Intergovernmental Agreements

A. Upper Eagle Regional Water Authority

The District is a participant in the Upper Eagle Regional Water Authority (the "Authority"). The Authority was formed pursuant to an establishing contract on September 18, 1984, by the following quasi-municipal corporations ("Districts") and the Town of Avon ("Town") located in Eagle County, Colorado (Contracting Parties):

Arrowhead Metropolitan District
Town of Avon
Beaver Creek Metropolitan District
Berry Creek Metropolitan District
Eagle-Vail Metropolitan District
Edwards Metropolitan District

The purposes of the Authority are to supply water for domestic and other public and private purposes; to provide all necessary water diversion works, reservoirs, treatment works and facilities, equipment and appurtenances incident thereto; to effect the development of water resources, systems or facilities, in whole or in part, for the use and benefit of the Contracting Parties, their inhabitants, and others; and to provide efficient, effective, and reliable water service.

The Authority is to remain in effect until it has no bonds, notes or other obligations outstanding and the Contracting Parties unanimously consent to its dissolution. The initial term of this Authority Agreement shall be ten (10) years ending on December 31, 2023, but such term shall be subject to automatic renewal and extension for successive ten (10) year terms thereafter unless all of the Contracting Parties unanimously approve changes to this Authority Agreement during any extended term, to be effective on the first day of the extended term, including provision for payment of all bonds, notes and other obligations outstanding in accordance with their terms. At December 31, 2017, the Authority had debt with maturities through the year 2042.

(Continued)

VI. Intergovernmental Agreements (continued)

A. Upper Eagle Regional Water Authority (continued)

Dissolution of the Authority requires the unanimous consent of the Contracting Parties and provision for a successor entity that will continue to provide service to the water service customers. Any provision for dissolution shall provide either that all the Authority's financial obligations be paid in full or that funds sufficient for the payment of the Authority's obligations be placed in escrow. Upon dissolution without conveyance of all water rights and assets to a successor entity, the interest in the net position of the Authority including interests in unallocated water rights shall be distributed to each contracting party in proportion to the average annual amount of treated water sold within the boundaries of each Contracting Party.

The Contracting Parties (including the District) and other parties served by contract have previously conveyed to the Authority their individual water systems, except for certain golf course water systems, raw water storage and raw water irrigation systems, subject to existing agreements between the Authority and any Contracting Party. The customers of the Contracting Parties thereby became water service customers of the Authority. The Authority shall make Rules and Regulations concerning the operation of the Authority's Water System. These water systems were accepted by the Authority in "as is" condition and (subject to any contract obligations) all future maintenance, repair and upgrade expenses became the obligations of the Authority, and not the obligations of the Contracting Parties or the third party served by contract. In connection therewith, on February 25, 2015 the District adopted a resolution terminating collection of future water tap fees by the District (except for tap fees for properties on Arrowhead Mountain which will continue until the District's 2011 bonds are paid off; current maturity is December 1, 2031).

The Contracting Parties have leased and/or conveyed to the Authority all of the Contracting Parties' right, title and interests in and to the Contracting Parties' water rights, including the right to use all diversion ditches, pipelines, headgates and structures, reservoirs or other storage structures, pumps, casings, and other improvements and easements associated or used in connection with the water rights, for the Authority's use in carrying out its functions and providing water service.

VII. Developer Contracts

A. Vail Resorts

Vail Resorts ("VR") was the primary developer within the District. Effective January 1, 2004, the District entered into an Operations Agreement with VR to perform operations and maintenance services for the District's road improvements. This agreement is effective through December 31, 2017, and automatically renews, subject to annual appropriation by the District. The District is to reimburse VR for costs related to these services. In connection with this agreement, the District also signed a Lease Agreement for the use of a maintenance facility owned by Vail Resorts Development Co., a subsidiary of VR. The Lease Agreement required monthly lease payments of \$4,129.81 through the year. Annual increases in future years will be based on the Consumer Price Index – All Urban Consumers for the Denver-Boulder area.

Costs incurred during 2017 under the terms of the Operations Agreement and Lease Agreements amounted to \$196,971 and \$49,558 respectively.

This Agreement is effective through December 31, 2017 and automatically renews for future years, subject to annual appropriation by the District.
